第 **1** 期  
2022年2月 第40卷

## 目次

### 试验研究

- 乳品超高温杀菌换热器环境影响不确定性研究 ..... 吴海滨,田 玮,陈 璐,晋妙柔(1)
- 高导热性能石墨烯加热装置构建及其在航天食品加热中的应用  
..... 罗明磊,袁 森,赵 伟,董海胜,臧 鹏(8)
- 模糊数学综合评价优化清热利咽袋泡茶配方及加工工艺 ..... 杨丽霞,郭政港,梁正辉,冯婷婷,齐 铮(14)
- 基于  $\text{Fe}_3\text{O}_4/\text{Au}$  微粒电化学检测邻苯二酚的研究 ..... 关桦楠,张 悦,龚德壮,宋 岩(21)
- 加水量和压延比对面带压延黏附特性的影响 ..... 张学阁,詹 华,王亦奇,李世岩,汪瑞军(28)
- 基于 YOLOv5 网络的缺陷硬糖智能分拣系统研究 ..... 朱婷婷,程 磊,王锦亚,居荣华,倪 超(34)
- 宝珠梨微波热风耦合干燥工艺优化及动力学模型研究 ..... 李丽霞,周 杰,张付杰,辛立东,秦 淘(40)

### 设计计算

- 柑普茶用完整橘皮自动分离装置的研究 ..... 张攀峰,曾月鹏,彭见辉,罗彦琦(48)
- 一种基于卷积神经网络的废弃饮料瓶回收系统 ..... 汪仕宇,竺韵德(53)
- 新型外卖包装餐盒及其在线成型工艺设计 ..... 王 涛,钱 静,王天佑,梁怡良,张新昌(58)
- 基于机器视觉与 RobotStudio 的饼干包装生产线仿真 ..... 郝瑞林,周利杰,蔡国庆,刘 辉,孙迎建(64)
- 自适应尺寸纸箱切割折痕包装机的设计 ..... 郑飞杰,叶荣冠,高 浩,谢培庆,林志辉(70)
- 基于失效机理的真空耙式干燥机耙齿轴设计 ..... 范海俊,阮 涛,牛 铮,姚佐权,张宇飞(76)
- 全闭合切割式采摘器设计与试验 ..... 郭家伟,黎建军,韩飞坡,王 佐(82)
- 一种 PLC 控制的两工位自动装袋装置设计 ..... 黄双成,郜海超,赵战国,刘士林,张 军(87)
- 某疫苗储运箱结构设计及瞬态热流分析 ..... 汤云峰,李长玉,肖 颖,李细霞,戚 松(93)

### 技术综述

- 食品超高压加工技术合规化历程与展望 ..... 米 璐,徐贞贞,刘 鹏,王永涛,刘 文,廖小军(99)
- 荧光免疫分析技术检测食品中 AFB1 的研究进展 ..... 蔡爱丽,鲁 迨,石星波,赵 倩,邓洁红(106)

## CONTENTS

|                                                                                                                                                                 |                                                                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| Uncertainty analysis of environmental influence of heat exchangers for ultra-high temperature sterilization of dairy products .....                             | WU Haibin, TIAN Wei, CHEN Lu, JIN Miaorou (1)                            |
| Construction of graphene heating device with high thermal conductivity and its application in aerospace food heating .....                                      | LUO Minglei, YUAN Miao, ZHAO Wei, DONG Haisheng, ZANG Peng (8)           |
| Optimization of formula and processing technology of teabag for clearing heat and relieving throat soreness by fuzzy mathematics comprehensive evaluation ..... | YANG Lixia, GUO Zhenggang, LIANG Zhenghui, FENG Tingting, QI Zheng (14)  |
| Electrochemical detection of catechol based on $\text{Fe}_3\text{O}_4/\text{Au}$ particles .....                                                                | GAN Huanan, ZHANG Yue, GONG Dezhuang, SONG Yan (21)                      |
| Effect of amount of water added and calendering ratio on adhesive behavior of the dough sheet .....                                                             | ZHANG Xuege, ZHAN Hua, WANG Yiqi, LI Shiyan, WANG Ruijun (28)            |
| Study on intelligent sorting system of defective hard candies based on convolutional neural network .....                                                       | ZHU Tingting, CHENG Lei, WANG Jinya, JU Ronghua, NI Chao (34)            |
| Study on optimization and kinetic model of microwave hot-air coupled drying process of Baozhu pear .....                                                        | LI Lixia, ZHOU Jie, ZHANG Fujie, XIN Lidong, QIN Tao (40)                |
| Study on automatic separation device of intact orange peel for Mandarin-Pu'er tea .....                                                                         | ZHANG Panfeng, ZENG Yuepeng, PENG Jianhui, LUO Yanqi (48)                |
| A recycling system for post-consumer bottles based on convolutional neural network .....                                                                        | WANG Shiyu, ZHU Yunde (53)                                               |
| A new type of takeaway food container and its molding process design .....                                                                                      | WANG Tao, QIAN Jing, WANG Tianyou, LIANG Yiliang, ZHANG Xinchang (58)    |
| Simulation of biscuit packing production line based on machine vision and robotstudio .....                                                                     | HAO Ruilin, ZHOU Lijie, CAI Guoqing, LIU Hui, SUN Yingjian (64)          |
| The design of carton cutting crease and packing machine with adaptive size .....                                                                                | ZHENG Feijie, YE Rongguan, GAO Hao, XIE Peiqing, LIN Zhihui (70)         |
| Design of rake shaft of vacuum rake dryer based on failure control .....                                                                                        | FAN Haijun, RUAN Tao, NIU Zheng, YAO Zuoquan, ZHANG Yufei (76)           |
| Design and experiment of fully closed fruit picking device with cutting system .....                                                                            | GUO Jiawei, LI Jianjun, HAN Feipo, WANG Zuo (82)                         |
| Design of two-position automatic bagging device for bacteria stick based on PLC control .....                                                                   | HUANG Shuangcheng, GAO Haichao, ZHAO Zhanguo, LIU Shilin, ZHANG Jun (87) |
| Structure design and transient heat flow analysis of a vaccine storage and transportation box .....                                                             | TANG Yunfeng, LI Changyu, XIAO Ying, LI Xixia, QI song (93)              |
| History of compliance polices and prospect of high pressure processing technology .....                                                                         | MI Lu, XU Zhenzhen, LIU Peng, WANG Yongtao, LIU Wen, LIAO Xiaojun (99)   |
| Research progress in fluorescence immunoassay for detection of AFB1 in food .....                                                                               | CAI Aili, LU Dai, SHI Xingbo, ZHAO Qian, DENG Jiehong (106)              |
