

卷首语

致读者

时光荏苒,我们将跨入新的一年!

2011年,《城乡建设》杂志将秉承为广大读者服务,为住房和城乡建设事业科学发展服务的办刊宗旨,全面做好宣传报道。

希望您一如既往地关心和支持《城乡建设》,短评长论,经验建议,见仁见智,不吝赐稿。

你我携手,明年的《城乡建设》将更具特色,更为精彩。

..... 本刊记者 张 彬

专题报道 P27

发展低碳经济 共筑明日之家

..... 本刊记者 林爱庆

高端会客厅 P23

营造可持续发展的亚洲城市景观

“城市景观”概念发源于西方国家。近年来,随着亚洲国家综合实力的增强,城市景观营造得到了高度重视,一些城市和地区进行了积极的探索和实践。但景观建设与发展中也出现了一些问题,在某种程度上扰乱了城市自身的自然生态系统和人文发展脉络,阻碍了城市整体发展。本期会客厅对话亚洲人居环境协会理事长张元端、亚洲人居环境协会主席刘兴达、联合国人居署亚太区办事处主任野田顺康,针对亚洲城市景观建设的可持续发展探讨和交流。

目录

ENGLISH SUMMARY

URBAN AND RURAL DEVELOPMENT

06 *The Administrative Planning System in “Urban Village” Reconstruction*

The land finance has a great lure of interests to local government. The reconstruction of “urban village” has become a focus of local government’s land management by means of removal and rebuilding. However, because there is no existing national laws and regulations particularly for the “urban village” reconstruction, currently, although “urban villages” are booming in various reconstruction ways, the result is always unsatisfying. This Article analyses and explains the administrative planning system in “urban village reconstruction” from a rational and legal perspective, hoping to create a harmonious atmosphere for the present thriving “urban village” reconstruction.

23 *Create a Sustainable Urban Landscape in Asia*

In recent years, along with the rapid development and growing integrative strength of Asian nations, high recognition and attention has been given to urban landscape creation, and positive explorations and practices have been carried out in cities and regions. However, due to unbalanced regional development in Asia, landscape construction and development has shown the problem of hastiness and recklessness, which, to some extent, disturbs the city inherent natural ecosystem and human development vein and hampers its holistic development.

30 *Hangzhou Slow-moving Transportation Planning and Revelation*

The urban slow-moving system, mainly consisting of walking and cycling, represents the idea of human orientation and sustainable development, which can effectively satisfy the urban resident’s demand for commuting, leisure and sightseeing.

69 *The Positioning, Significance and Development Essentials of Public Rental Housing*

In June 2020, the Ministry of Housing and Urban-Rural Development and other six departments have jointly promulgated the Guiding Opinions on Pushing Forward the Development of Public Rental Housing. The national conference on public rental housing was held concurrently. Vice Premier Li Keqiang attended the conference and stressed that the development of public rental housing should be expedited, the construction of indemnificatory housing projects promoted. Chongqing, Guangdong and Shanghai and other places are also taking actions. Media say public rental housing has been elevated to a “national strategy”, which will become an important part of the housing security system.

77 *A Walk in Anji’ s Bamboo Forest*

Bamboos of whatever kinds are all evergreen, upright and beautiful, smart and elegant, appealing and exuberant, which beautifies the environment and cultivates our temperament. When strolling in bamboos, joy and pleasant memories rise naturally. The green, dancing bamboo images are still lingering in my brain long after I left Anji’s bamboo forest. I’d like to suggest the garden department to plant more bamboos to beautify the city. As Su Dongpo said, “no meat is preferable, not a home with no bamboo.”
