### 目 次

|                                                  |       |
|--------------------------------------------------|-------|
| 基于 CiteSpace 可视化分析的茶叶香气研究进展                      |       |
| .....银霞, 黄建安, 黄静, 包小村, 周凌云, 李维, 刘红艳, 张曙光, 刘仲华    | (143) |
| 白茶提取物对纳米 SiO <sub>2</sub> 诱导的大鼠肺纤维化的抑制作用及机制      |       |
| .....朴秀美, 金恩惠, 陈兴华, 王千潮, 何普明, 屠幼英                | (157) |
| “金花散茶”及“金花菌粉”对被动吸烟小鼠肺组织 JAK2/STAT3 炎性及磷酸化蛋白表达的影响 |       |
| .....曾鸿哲, 黄翔翔, 禹利君, 周宇飞, 徐帅, 璩馥榕                 | (165) |
| 福建省典型茶园土壤硒含量及其影响因素研究                             |       |
| .....余文权, 王峰, 陈玉真, 单睿阳, 尤志明, 臧春荣, 陈常颂            | (173) |
| 林地转变为茶园的土壤 pH 及养分变化特征                            |       |
| .....林诚, 陈子聪, 吴一群, 颜明娟                           | (186) |
| 基于计算机视觉的绿茶炒干中在制品理化变化研究                           |       |
| .....伍洵, 刘飞, 陈之威, 王玉婉, 陈琳, 涂政, 周小芬, 杨云飞, 叶阳, 童华荣 | (194) |
| 我国典型茶区化学氮肥施用与生产运输过程的温室气体排放量估算                    |       |
| .....王峰, 陈玉真, 吴志丹, 江福英, 张文锦, 翁伯琦, 尤志明            | (205) |
| 不同类型水质对龙井茶汤风味品质及主要化学成分的影响                        |       |
| .....龚芝萍, 尹军峰, 陈根生                               | (215) |
| 茉莉花茶特征香气成分研究                                     |       |
| .....安会敏, 欧行畅, 熊一帆, 张杨波, 李娟, 李勤, 李骞, 李适, 黄建安     | (225) |
| 基于亲水相互作用液相色谱-三重四极杆质谱法研究白茶萎凋过程中代谢物的变化             |       |
| .....陈翔, 田月月, 张丽霞                                | (238) |
| 基于 nSSR 和 cpDNA 序列的城步峒茶群体遗传多样性和结构研究              |       |
| .....刘振, 成杨, 杨培迪, 赵洋, 宁静, 杨阳                     | (250) |
| 基于色差系统的工夫红茶茶汤亮度的量化评价方法研究                         |       |
| .....王家勤, 姚月凤, 袁海波, 江用文, 李佳                      | (259) |
| 香茅草挥发物及其主要成分对 3 种茶树病原真菌的抑制性研究                    |       |
| .....杨文, 刘惠芳, 陈瑶, 苏生, 李天兴, 刘垚果, 周玉锋              | (269) |
| 以发酵类茶为例的基于可比性的中国茶叶出口竞争力研究                        |       |
| .....管曦, DOAN BA TOAI, 何文丽, 童耀南, 袁婷, 谢向英         | (279) |

|                                                                                                                                                                                                                     |                                                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------|
| Research Progress of Tea Aroma Based on CiteSpace Visual Analysis<br>.....                                                                                                                                          | YIN Xia, HUANG Jian'an, HUANG Jing, et al (143)       |
| The Inhibitory Role and Mechanism of White Tea Extracts on Pulmonary Fibrosis Induced by Nano-sized SiO <sub>2</sub> in Rats.....                                                                                   | PARK Soomi, KIM Eunhye, CHEN Xinghua, et al (157)     |
| Effects of “ <i>Eurotium cristatum</i> Loose Tea” and “ <i>Eurotium cristatum</i> Powder” on the Expressions of JAK2/STAT3 Inflammation and Phosphorylated Proteins in Lung Tissue of Passive Smoking Mice<br>..... | ZENG Hongzhe, HUANG Xiangxiang, YU Lijun, et al (165) |
| Study on Soil Selenium Content and Its Influencing Factors in Typical Tea Garden of Fujian Province<br>.....                                                                                                        | YU Wenquan, WANG Feng, CHEN Yuzhen, et al (173)       |
| Acidification Characteristics and Nutrient Contents in Soils of Tea Plantation and Adjacent Woodland in Subtropical Region.....                                                                                     | LIN Cheng, CHEN Zicong, WU Yiqun, et al (186)         |
| Study on the Changes of Physical and Chemical Components during the Frying Process of Green Tea by Computer Vision.....                                                                                             | WU Xun, LIU Fei, CHEN Zhiwei, et al (194)             |
| Estimation of Greenhouse Gas Emissions from Fertilization, Production and Transportation of Synthetic Nitrogen for Tea Garden in Typical Region of China<br>.....                                                   | WANG Feng, CHEN Yuzhen, WU Zhidan, et al (205)        |
| Effects of Different Types of Water Quality on the Sensory Properties and Main Chemical Compositions of Longjing Tea Infusions.....                                                                                 | GONG Zhiping, YIN Junfeng, CHEN Gensheng (215)        |
| Study on the Characteristic Aroma Components of Jasmine Tea<br>.....                                                                                                                                                | AN Huimin, OU Xingchang, XIONG Yifan, et al (225)     |
| The Changes of Metabolites during the Withering Process of White Tea Based on HILIC LC-QqQ MS Method.....                                                                                                           | CHEN Xiang, TIAN Yueyue, ZHANG Lixia (238)            |
| Genetic Diversity and Structure of Chengbudong Tea Population Revealed by nSSR and cpDNA Markers<br>.....                                                                                                           | LIU Zhen, CHENG Yang, YANG Peidi, et al (250)         |
| A Quantitative Method for Brightness Evaluation of Congou Black Tea Infusions Based on Color Difference Analysis.....                                                                                               | WANG Jiaqin, YAO Yuefeng, YUAN Haibo, et al (259)     |
| Volatile Components from <i>Cymbopogon citratus</i> and the Activity Research on Their Main Elements Against Three Fungal Pathogens of Tea.....                                                                     | YANG Wen, LIU Huifang, CHEN Yao, et al (269)          |
| Comparative Study on the Competitiveness of Chinese Tea Exportation Based on Fermented Tea<br>.....                                                                                                                 | GUAN Xi, DOAN BA TOAI, HE Wenli, et al (279)          |
