第59卷 第1期  
Vol.59 No.1

# 茶叶学报

2018 年 3 月

第 59 卷 第 1 期

(总第 238 期)

## 目 次

|                                           |                       |
|-------------------------------------------|-----------------------|
| 茶小绿叶蝉 <i>CYP 6A14</i> 基因的克隆及生物信息学分析 ..... | 李良德, 王定锋, 李慧玲, 等 (1)  |
| 缺磷对茶树磷吸收及 miR399a 表达量的影响 .....            | 陈志辉, 林郑和, 游小妹, 等 (6)  |
| 不同浓度钾对茶树幼苗生长及叶片活性氧代谢酶类的影响 .....           | 钟秋生, 林郑和, 陈常颂, 等 (12) |
| 福建乌龙茶园土壤速效氮磷钾丰缺指标与肥力状况评价 .....            | 李 娟, 章明清, 尤志明, 等 (19) |
| 福建省安溪县铁观音茶园土壤钾素状况 .....                   | 吴志丹, 江福英, 尤志明, 等 (26) |
| 烘焙工艺对乌龙茶糖氨 Maillard 反应及风味的影响 .....        | 陈泉宾, 陈 键, 王丽丽, 等 (33) |
| 不同加工工艺对‘福萱’绿茶品质的影响 .....                  | 王秀萍, 游小妹, 钟秋生, 等 (38) |
| 18 个紫芽新品系芽叶特性及生化成分分析 .....                | 游小妹, 钟秋生, 林郑和, 等 (43) |
| 武夷水仙茶的品质化学特征 .....                        | 邱晓红, 陈思彤, 张 钊, 等 (47) |
| 固定化单宁酶澄清茶汤工艺条件的研究 .....                   | 饶建平 (53)              |

## CONTENTS

|                                                                                                        |                                     |
|--------------------------------------------------------------------------------------------------------|-------------------------------------|
| Cloning and Bioinformatics of <i>CYP6A14</i> Gene from <i>Empoasca flavescens</i> (Hemiptera: cicadas) |                                     |
| .....                                                                                                  | LI Liang-de, <i>et al.</i> (1)      |
| Effects of Phosphorus Deficiency on Phosphorus Absorption and miR399a Gene Expression                  |                                     |
| of Tea Plants .....                                                                                    | CHEN Zhi-hui, <i>et al.</i> (6)     |
| Effects of Varied Potassium Supply on Growth and Antioxidant Enzyme Activities in Leaves               |                                     |
| of Tea Seedlings .....                                                                                 | ZHONG Qiu-sheng, <i>et al.</i> (12) |
| Plentiful and Lack Index of Soil Available Nitrogen, Phosphorus and Potassium and Soil Fertility       |                                     |
| Evaluation for Oolong Tea Garden in Fujian Province .....                                              | LI Juan, <i>et al.</i> (19)         |
| Study on Soil Potassium Status of Tieguanyin Tea Plantations in Anxi County of Fujian Province         |                                     |
| .....                                                                                                  | WU Zhi-dan, <i>et al.</i> (26)      |
| Effect of Maillard Reaction between Carbohydrates and Ammonia during Baking on Flavor                  |                                     |
| of Oolong Tea .....                                                                                    | CHEN Quan-bin, <i>et al.</i> (33)   |
| Effect of Processing Technologies on Quality of Fuxuan Teas ( <i>Camellia sinensis</i> )               |                                     |
| .....                                                                                                  | WANG Xiu-ping, <i>et al.</i> (38)   |
| Characteristics and Biochemical Composition of Purple Spring Shoots of Eighteen Tea Germplasms         |                                     |
| .....                                                                                                  | YOU Xiao-mei, <i>et al.</i> (43)    |
| Quality and Chemical Characteristics of Wuyi Shuixian Tea .....                                        | QIU Xiao-hong, <i>et al.</i> (47)   |
| Study on the Technology of Tea Infusion Clarification using Immobilizing Tannase                       |                                     |
| .....                                                                                                  | RAO Jian-ping (53)                  |
