MAIN CONTENTS

Review

Research progress on air-cooling heat dissipation system of vehicle lithium ion power batteries.....	YANG Zhaopeng, ZHANG Ning, DUAN Zhiyu(2)
Research progress on high performances red phosphorus / carbon anode materials.....	HUANG Han, XIE Dong, ZHAO Lijun, CHENG Faliang(6)
Proton exchange membrane fuel cell with low conductivity cooling fluid research.....	ZHANG Chao, ZHANG Chuanlong, XI Fuqiang, LI Kejing(11)
Progress in catalytic hydrolysis of MgH_2 for hydrogen production.....	HUANG Xu, DAI Qingwei, XU Chao(16)
Review of research and development for iron based flow battery.....	CAO Zhongqi, ZHANG Ying, ZHANG Lijie, YUAN Xueling(20)

Research and design

Chemical power sources

Research on the improvement of Sb-doped SnO_2 coated $LiNi_{0.82}Co_{0.11}Mn_{0.07}O_2$	XU Guofeng, MA Shuai, PEI Dong, WANG Jiuzhou(24)
Effects of Li_2NiO_2 addition on electrical performances of $LiCoO_2$ /graphite + Si lithium ion batteries.....	DENG Xiaolong, WANG Zhongming, JI Yajuan(28)
Electrochemical property and stability of NASICON-type solid state electrolyte LATP.....	JIA Xueying, LIU Xingliang, ZHANG Luyao, WANG Weiwei, YANG Maoping(32)
Influence of gradient distribution of conductive agent on performance of lithium ion battery.....	JIA Yulong, WANG Jing, GUI Yupeng, KANG Jianqiang(37)
Numerical analysis of thermal runaway propagation for NCM lithium ion power battery pack.....	LI Ang, LIU Weiguo, YU Cheng, LI Zonghua, ZHAO Chen (41)
Application of thermal interface material and forced air cooling in the Li-ion storage module.....	WANG Wenwen, ZOU Yufeng, QIAN Yanting, TIAN Qingqing(47)
Research on equalization strategy of series lithium ion battery pack.....	LIAO Li, XU Yawen, JIANG Jiuchun(51)
Prediction of probability density of remaining useful life of lithium ion battery based on CNN-BiLSTM.....	LIU Ze, ZHANG Chuang, QI Lei, JIN Liang, LIU Suzhen(57)
Nafion/ SiO_2 composite water absorbing membrane used in PEM static water supply electrolyzer.....	HU Xuezheng, SUN Shucheng, JIANG Guang, WANG Meng(62)
Effect of cathode hydrophobic microchannel flow field plate on the performance of DMFC.....	LIANG Muxi, LI Tian, ZHANG Xuyan, WU Chaoqun(67)
Impact of ionomer content on the performance of proton exchange membrane fuel cells.....	HE Yang, SUN Yi, JIANG Yongwei, WANG Tao(71)
Simulation and experimental study on large area bipolar plate proton exchange membrane fuel cell.....	WANG Guoqing, HE Zhenfeng, WANG Chao, WANG Xueke(75)
Research on configuration of anode collector rib of flat tubular fuel cell.....	QIAO Yaoxuan, FAN Cheng, SUN Kening (79)
Net power optimization of fuel cell system based on NSGA2 algorithm.....	LI Xianyun, FENG Hanfei(83)
Preparation and capacitance study of nitrogen and sulfur co-doped porous carbon materials.....	LEI Shulin, YANG Sili, PENG Fukang, PENG Qian, FU Xudong(88)
Electrochemical characteristic analysis of porous electrode with linear porosity in electric double layer supercapacitors.....	LI Zeyu, CHEN Wei(92)
Aplication of carbon aerogel/ graphene film in flexible supercapacitors.....	FU Lan(99)

Physical power sources

A photovoltaic power forecasting method based on EEMD-Kmeans-ALO-LSTM.....	ZHU Kun, FU Qing(103)
Research on photovoltaic grid connected inverter based on MPPT.....	ZHANG Zhimin, PENG Hongyi, PAN Ruoyan, ZHOU Zhenxiong(108)
Research on an improved subregional photovoltaic MPPT control strategy.....	LI Yueying, ZUO Mingxin(112)

System technology

Research of space power system based on S3MPR topology and perturbation observation method.....	SI Jiajia, WANG Liran, ZHANG Xuan, JIANG Shuo(117)
Control strategy of hybrid energy storage system based on active disturbance rejection.....	MA Youjie, ZHANG Chao, ZHOU Xuesong(122)
