|---------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| Generalized multi-symplectic method for vibration of big damping bar .....                                    | Hu Weipeng, Deng Zichen(1)                           |
| Study on contact/impact dynamics of flexible multibody system with topology variable .....                    | Hong Jiazhen, Liu Zhuyong(5)                         |
| Review and prospect on the research of aero-engine casing dynamics .....                                      | Wen Dengzhe, Chen Yushu(12)                          |
| Advances in nonlinear models for transverse vibration of axially moving beams .....                           | Ding Hu, Chen Liqun, Zhang Guoce(20)                 |
| Homoclinic bifurcations in piecewise-linear systems .....                                                     | Xu Bin, Tang Yun, Yang Fenghong, Lin Mu(31)          |
| Vibration suppression of torsional vibration system by using the delayed vibration absorber .....             | Zhao Yanying, Li Changai(36)                         |
| Analysis on nonlinear dynamics of an axially accelerating viscoelastic beam Using DQM .....                   | Wang Dongmei, Zhang Wei, Liu Yan(42)                 |
| Spike-frequency adaptation in the modified Leaky Integrate-And-Fire model under external electric field ..... | Han Chunxiao, Wang Jiang, Chang Li, Che Yanqiu(46)   |
| Effect of damping on nonlinear vibration of metal foam sandwich beam ...                                      | Tian Lei, Wu Ying, Wang Tiejun(53)                   |
| Double Hopf bifurcations of a honeycomb sandwich plate subjected to transversal and in-plane excitation ..... | Zhou Yan, Zhang Wei, Sun Min, Chen Jianen(58)        |
| Dynamical analysis of semi-active system with time-delay .....                                                | Tian Jiayu, Shen Yongjun, Zhao Yongxiang(65)         |
| Non-stationary random vibration and optimal active control of a half-car nonlinear suspension .....           | Luo Xuan, Jin Yanfei(70)                             |
| Composite vibration control method for small satellite with flexible booms .....                              | Ren Shanyong, Chu Zhongyi(77)                        |
| Self-powered active control system design based on energy analysis .....                                      | Song Pengyun, Zhang Jiye, Chen Yanqiu, Wang Peng(82) |
| The experimental study of structural damage detection based on NARMAX model and NOFRF .....                   | Cheng Changming, Peng Zhike, Meng Guang(89)          |
