

Chinese Journal of Cancer

Volume 30 Issue 4 (Total 237) April 2011

CONTENTS

Feature

- 219 Gregory N. Fuller, our Editorial Board Member, elected President of the United States and Canadian Academy of Pathology (USCAP)

Editorial

- 221 Cancer systems biology: signal processing for cancer research
Olli Yli-Harja, Antti Ylipää, Matti Nykter, and Wei Zhang

Mini Review

- 226 GWAS signals across the HLA regions: revealing a clue for common etiology underlying infectious tumors and other immunity diseases
Yin Yao Shugart, Ying Wang, Wei-Hua Jia, and Yi-Xin Zeng

Review

- 231 Epigenetic disruption of cell signaling in nasopharyngeal carcinoma
Li-Li Li, Xing-Sheng Shu, Zhao-Hui Wang, Ya Cao, and Qian Tao
- 240 MLL1/WDR5 complex in leukemogenesis and epigenetic regulation
Min Wu and Hong-Bing Shu

Original Article

- 247 Tumor-associated methylation of the putative tumor suppressor *AJAP1* gene and association between decreased *AJAP1* expression and shorter survival in patients with glioma
David Cogdell, Woonbok Chung, Yuexin Liu, J. Matthew McDonald, Kenneth Aldape, Jean-Pierre J. Issa, Gregory N. Fuller, and Wei Zhang
- 254 Association between *p21* Ser31Arg polymorphism and cancer risk: a meta-analysis
Hongxia Ma, Ziyuan Zhou, Sheng Wei, and Qingyi Wei
- 264 Diagnostic significance of TCR gene clonal rearrangement analysis in early mycosis fungoides
Chen Xu, Chuan Wan, Lin Wang, Han-Jun Yang, Yuan Tang, and Wei-Ping Liu
- 273 Hepatitis B virus X protein regulates the *mEZH2* promoter via the E2F1-binding site in AML12 cells
Xiao-Yan Shi, Ying-Ying Zhang, Xiao-Wei Zhou, Jian-Sheng Lu, Ze-Kun Guo, and Pei-Tang Huang
- 280 Clinical significance of tumor-associated macrophage infiltration in supraglottic laryngeal carcinoma
Jia-Ying Lin, Xiao-Yan Li, Nakashima Tadashi, and Ping Dong
