Volume 31 · Issue 4 · 2012

Chinese Journal of Cancer

- NPC in Indonesia
- Skp2 in tumorigenesis
- Niclosamide targets cancer stem cells

CONTENTS

Breaking Advances

- 167 Highlight from recent cancer literature

Review

- 169 Novel roles of Skp2 E3 ligase in cellular senescence, cancer progression, and metastasis
Guocan Wang, Chia-Hsin Chan, Yuan Gao and Hui-Kuan Lin
- 178 Niclosamide, an old antihelminthic agent, demonstrates antitumor activity by blocking multiple signaling pathways of cancer stem cells
Jing-Xuan Pan, Ke Ding and Cheng-Yan Wang

Original Article

- 185 Nasopharyngeal carcinoma in Indonesia: epidemiology, incidence, signs, and symptoms at presentation
Marlinda Adham, Antonius N. Kurniawan, Arina Ika Muhtadi, Averdi Roezin, Bambang Hermani, Soehartati Gondhowiardjo, I Bing Tan and Jaap M. Middeldorp
- 197 Increased pretreatment levels of serum LDH and ALP as poor prognostic factors for nasopharyngeal carcinoma
Guo Li, Jin Gao, Ya-Lan Tao, Bing-Qing Xu, Zi-Wei Tu, Zhi-Gang Liu, Mu-Sheng Zeng and Yun-Fei Xia
- 207 Expression of *miR-125b* in the new, highly invasive glioma stem cell and progenitor cell line SU3
Yi Wan, Xi-Feng Fei, Zhi-Min Wang, Dong-Yi Jiang, Han-Chun Chen, Jian Yang, Lei Shi and Qiang Huang
