

Chinese Journal of Cancer

- Gastric cancer: current and evolving treatment landscape
- Emerging molecular classifications and therapeutic implications for gastric cancer
- Evolution of gastric surgery techniques and outcomes

CONTENTS

Research Highlight

- 385 **Protein stability regulators screening assay (Pro-SRSA): protein degradation meets the CRISPR–Cas9 library**
Yuanzhong Wu and Tiebang Kang
- 388 **Leveraging the power of pooled data for cancer outcomes research**
Kiara Hugh-Yeun and Winson Y. Cheung

Editorial

- 391 **The journey of personalizing gastric cancer treatment**
Li Yan

Review

- 393 **Emerging molecular classifications and therapeutic implications for gastric cancer**
Tao Chen, Xiao-Yue Xu and Ping-Hong Zhou
- 403 **Genomic alterations and molecular subtypes of gastric cancers in Asians**
Xiang S. Ye, Chunping Yu, Amit Aggarwal and Christoph Reinhard
- 410 **Evolution of gastric surgery techniques and outcomes**
Hironori Shiozaki, Yusuke Shimodaira, Elena Elimova, Roopma Wadhwa, Kazuki Sudo, Kazuto Harada, Jeannelyn S. Estrella, Prajnan Das, Brian Badgwell and Jaffer A. Ajani
- 416 **Gastric cancer: current and evolving treatment landscape**
Weijing Sun and Li Yan

Original Article

- 421 **EYA4 gene functions as a prognostic marker and inhibits the growth of intrahepatic cholangiocarcinoma**
Xiao-Yi Hao, Jian-Peng Cai, Xin Liu, Wei Chen, Xun Hou, Dong Chen, Jia-ming Lai, Li-Jian Liang and Xiao-Yu Yin

Short Report

- 430 **The incidence and mortality of major cancers in China, 2012**
Wanqing Chen, Rongshou Zheng, Hongmei Zeng and Siwei Zhang
