

Chinese Journal of Cancer

- The 150 most important questions in cancer research and clinical oncology
- Microwave ablation is as effective as radiofrequency ablation for very-early-stage HCC
- Ailanthone: a new potential drug for prostate cancer

Volume 36 Issue 5 (Total 310) May 2017

CONTENTS

Research Highlight

- 207 **Ailanthone: a new potential drug for castration-resistant prostate cancer**
Shihong Peng, Zhengfang Yi and Mingyao Liu

Editorial

- 209 **The 150 most important questions in cancer research and clinical oncology series: Questions 25–30**
Edited by *Chinese Journal of Cancer*

Original Article

- 213 **Effect of transcutaneous electrical acupoint stimulation combined with palonosetron on chemotherapy-induced nausea and vomiting: a single-blind, randomized, controlled trial**
Jing Xie, Lei-Hua Chen, Zhou-Yu Ning, Chen-Yue Zhang, Hao Chen, Zhen Chen, Zhi-Qiang Meng and Xiao-Yan Zhu
- 222 **The efficacy of fluoropyrimidine-based adjuvant chemotherapy on biliary tract cancer after R0 resection**
Young Saing Kim, Chi-Young Jeong, Haa-Na Song, Tae Hyo Kim, Hong Jun Kim, Young-Joon Lee and Soon Chan Hong
- 231 **Microwave ablation is as effective as radiofrequency ablation for very-early-stage hepatocellular carcinoma**
Yun Xu, Qiang Shen, Neng Wang, Pan-Pan Wu, Bin Huang, Ming Kuang and Guo-Jun Qian

Letter to the Editor

- 241 **Significance of spatial organization of chromosomes in the progression of acute myeloid leukemia**
Xueli Tian, Yanfang Wang, Dieyan Chen, Xiaoyan Ke and Wanyun Ma
