### 目次

#### 论文与报告

|                                                                 |                                            |
|-----------------------------------------------------------------|--------------------------------------------|
| 东海带鱼 ( <i>Trichiurus japonicus</i> ) 肝脏转录组 SSR 和 SNP 特征分析 ..... | 章霞, 柳敏海, 李凌刚, 徐志进, 李伟业, 殷小龙, 傅荣兵 (269)     |
| 东海原甲藻 ( <i>Prorocentrum donghaiense</i> ) 利用有机磷增殖研究 .....       | 肖宇梅, 徐雯钦, 苏玉萍, 张立香, 余晨兴, 廖福萍 (278)         |
| 不同类型附着基及其底栖微藻对池塘养殖仿刺参生长和存活的影响 .....                             | 许翠娅 (284)                                  |
| 厦门湾大型底栖动物多样性指数空间分布及其与环境因子的关系 .....                              | 黄昆, 陈岚, 傅婷婷, 黄智伟, 陈凯 (293)                 |
| 清流罗口溪黄尾鲴国家级水产种质资源保护区鱼类资源现状 ...                                  | 何美峰, 黄文华, 林祥睿, 杜聪致, 陈熙春 (302)              |
| 木兰、萩芦两溪入海海域环境的年际变化与现状 .....                                     | 张丽 (310)                                   |
| 复合贻贝调味酱工艺的探讨 .....                                              | 廖登远, 涂艺山, 吴靖娜, 刘淑集, 陈晓婷 (317)              |
| 不同包装材料对坛紫菜干品贮藏期间色素含量变化的影响 .....                                 | 孔祥佳, 郭仕鑫, 谢勇, 林埔, 刘智禹 (326)                |
| 即食海蜇加工过程关键控制点研究 .....                                           | 汤水粉 (333)                                  |
| 湾外海域底层延绳养鲍设施设计与初步试验 .....                                       | 魏盛军, 郑国富, 陈思源, 蔡文鸿, 丁兰, 张哲, 朱健康, 魏金顺 (339) |
| 福建鲍几种养殖模式浅析 .....                                               | 黄洪龙, 林位琅, 康建平, 柯才焕 (346)                   |

#### 综述与其他

|                       |          |
|-----------------------|----------|
| 贝壳的应用途径及相关材料的制备 ..... | 崔童 (353) |
|-----------------------|----------|

## MAIN CONTENTS

### Research Paper

|                                                                                                                                                    |                    |
|----------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| SSR and SNP analysis based on <i>Trichiurus japonicus</i> transcriptome .....                                                                      |                    |
| ..... ZHANG Xia, LIU Minhai, LI Linggang, XU Zhijin, LI Weiye, YIN Xiaolong, FU Rongbing (269)                                                     |                    |
| Study on the growth of <i>Prorocentrum donghaiense</i> by using different organic phosphorus .....                                                 |                    |
| ..... XIAO Yumei, XU Wenqin, SU Yuping, ZHANG Lixiang, SHE Chenxing, LIAO Fuping (278)                                                             |                    |
| Effects of shelter type and benthic microalgae on growth and survival of sea cucumber <i>Apostichopus japonicas</i> Selenka in earthen ponds ..... | XU Cuiya (284)     |
| Spatial distribution of macrobenthic diversity factors in Xiamen Bay and its relationship with environmental factors ...                           |                    |
| ..... HUANG Kun, CHEN Lan, FU Tingting, HUANG Zhiwei, CHEN Kai (293)                                                                               |                    |
| Status of fishery resources in <i>Xenocypris davidi</i> National Aquatic Resource Reserve of Luokou River .....                                    |                    |
| ..... HE Meifeng, HUANG Wenhua, LIN Xiangrui, DU Congzhi, CHEN Xichun (302)                                                                        |                    |
| The interannual changes and present situation of marine environment in the estuary of the Mulan River and the Qiulu River .....                    | ZHANG Li (310)     |
| Research on the processing technology of <i>Mytilus Edulis</i> complex condiment .....                                                             |                    |
| ..... LIAO Dengyuan, TU Yishan, WU Jingna, LIU Shuji, CHEN Xiaoting (317)                                                                          |                    |
| Effects of different packing materials on pigment content of <i>Porphyra haitanensis</i> during storage .....                                      |                    |
| ..... KONG Xiangjia, GUO Shixin, XIE Yong, LIN Pu, LIU Zhiyu (326)                                                                                 |                    |
| Summary of critical control points in processing of ready – to – eat jellyfish .....                                                               | TANG Shuifen (333) |
| Design and preliminary experiment of long – line abalone culture facility in the bottom waters outside the bay .....                               |                    |
| WEI Shengjun, ZHENG Guofu, CHEN Siyuan, CAI Wenhong, DING Lan, ZHANG Zhe, ZHU Jiankang, WEI Jinshun (339)                                          |                    |
| Analysis on aquacultural modes of abalone in Fujian Province .....                                                                                 |                    |
| ..... HUANG Honglong, LIN Weilang, KANG Jianping, KE Caihuan (346)                                                                                 |                    |
| Application of shells and preparation of shell materials .....                                                                                     | CUI Tong (353)     |
