Subtropical Soil & Water Conservation

CONTENTS

No. 3 2017

Experiments & Research

- Analysis on the Correlation between Soil Erosion/Sedimentation Potential and Terrain Factors based on the USPED Model Simulation Pu Yang, Xu Yali, Wang Rulan, etc. (1)
- Study on the Extraction of Vegetation Coverage in the Middle Part of Fujian Province by ZY -3 Images in Winter Season Chai Peng (8)
- Study on Water Conservation Benefits by Different Soil and Water Conservation Measures for the Construction Projects in the Hilly Slope Area of Oujiang River Valley Li Huabin, Jia Yanghai & Li Jian (12)
- Temporal & Spatial Distribution Characteristics of Different Precipitation Grades in North Fujian Province within Thirty Years Liu Chuan, Zha Xuan, Huang Shaoyan, etc. (17)
- Probe into the Relationship between the Water & Sediment Variation and the Soil Conservation at Changting Section of Jingjiang River Tang Lifang (28)

Summary

- Study and Assessment Method of the Soil Grafting Shearing Mechanism by Fiber Reinforcement Peng Chong, Wang Qianhui & Ye Yuxuan, etc. (32)

Comprehensive Management

- Study on the Soil Erosion Prevention Mechanism of Fujian Province under the State Policy System Hu Shiming & Han Yonggang (38)
- Thinking on the Soil Conservation Sustainable Development of Longyan Municipality of Fujian Province Huang Wenlv (46)
- Beneficial Exploration on the Construction of Township Soil Conservation Station Management & Service System Huang Caimin, Zhong Yu & Lai Juzhen (49)
- Concept on the Beautiful Countryside Construction of Lingpu Village, Hua'an County of Fujian Province Chen Jinwen (51)
- Practice and Thinking on the Mountainous Small Watershed Comprehensive Management Zheng Kexiang (55)

Information Construction

- Probe into the Soil Conservation Information Construction & Development of Hubei Province Li Lu, Wu Zunxiang, Yang Wei, etc. (57)

Application of New Technologies

- Probe into the Rural Drinking Water Safety Problems under the Spatial Scale Water Transfer Model Mu Liumei & Liu Mingsheng (61)
- Initial Study on the Applications and Methods of Google RS Image and UAV Aerial Image in the Compiling of the Soil Erosion Comprehensive Management Scheme Zhang Qiwei (65)

Soil Conservation in the Construction Projects

- Initial Study on the Monitoring and Rules of Dam Deformation of Tailing Reservoir of Hengxing Concentrator in Longyan Municipality Chen Mingjian (68)
