Vol. 38 No. 8
2019

The diagram illustrates a smartphone-based microplate reader system. On the left, a smartphone is connected to a black box containing an illumination gadget and microplates. An arrow points from the smartphone to the black box. On the right, a screenshot of the software interface shows 'Image Selection' and 'Next' buttons, a 'Cardiovascular Disease Care' header, and a 'Select Image' section with a grid of images. Below the screenshot is a linear regression graph for Human MMP9 (N=41) with the equation $y = 1.0252x - 0.0072$ and $R^2 = 0.9950$. The graph plots 'Human MMP9 concentration (ng/mL) from the Cardiovascular Disease Care' against 'Concentration (ng/mL) from the commercial plate reader'.
