- 85 Lifting Scheme of Key Equipment and Module of Lufeng Nuclear Power Station (YU Jian-jiang)
- 89 Process Design of Crane Preparation Workshop (LIU Wei-zhao, ZHANG Yong, HE Qiang)

Environment Engineering Design

- 92 Design of SCR Denitrification Catalyst Regeneration Project (ZHAO Hong-bing, MA Wang-zhe, JIANG Zhong-jie, FENG Qiu-hong)
- 94 Research on the Key Technology of Tunnel Pipe Type High Pressure Water Gushing (ZHU Dai-qiang)
- 97 The Design and Application of the Streets Facilities for the Old District of Kaifeng (WANG Yi, WANG Wei-wei, HE Peng)

Information Design

- 101 Research on BIM Software Secondary Development Plan for Engineering Design Institute——Taking Design Institute A for Example (ZHANG Ke-xin)

Construction Technology

- 104 Introduction to Construction Technology of Bored Piles (AN Hong-xiao)
- 107 Excavation and Construction Method of Core Soil Excavation in the Foundation Pit of Tunnel (LI Guo-hua)
- 109 Discussion on Construction Management Plan of Highway Subgrade and Pavement (LI Shi-lei)
- 112 TST Modified Elastic Material Expansion Points in the Bridge Engineering Application (LIU Hong-ze)
- 114 Road Surface Thin Layer Anti-sliding Materials Application in Highway Construction (WU Juan)
- 117 SMW Technique Application of Foundation Pit Support Design in Yantai Area (ZHANG Zhuo)
- 120 Construction Control of Asphalt Pavement (ZHOU Tao)
- 123 Analysis of Highway Bridge in Soft Soil Foundation Construction Technology (YI Ya-wen)
- 126 Construction Technology of Compaction Lime Soil Pile in Collapsible Loess Area (ZHAI Li-yun)
- 128 Application and Key Points of Prestress Technology in Highway Bridge Construction (WAN Wei, ZHANG Wei)

Project Management

- 131 Characteristics and Management of Service Project Bidding (WANG Jiang-jun)
- 135 Analysis on Cost Control and Management of Construction Engineering Enterprises (SONG Xiao-mei)
- 138 The Application Research of BIM Technology in Cost Management (LI Zhi-yang, ZHANG Tian-qin, SUN Zhi-xin)
- 142 NI Construction Contract Claim Management Under AP1000 NPP Self-reliance Project (LIN Miao)
- 145 WBS Application in Automotive Body Painting Line Project Management (LIU Xing-tao, WANG Yue)
- 148 Technology and Management Suggestions of Site Project Engineer (CUI Lei)
- 153 The Research on the Design and Practice of the Integrated Development Model of Metro + Property (SUN Xiao-ling)
- 156 Construction Management and Green Building Construction Management (LI Lu-jia, ZENG Zhi-yuan, XU Fang-bo, TANG Xiao-ming)
- 159 Management of Scientific and Technological Research and Development System for Water Conservancy and Hydropower Construction Enterprises (WEI Shou)
- 161 Study on the Safety Early Warning Management of Medical Construction (CHEN Bo, PENG Xiang-dong)
- 164 Discussion on the Two Phase Subcontract Management of Ethiopia Wind Power (LEI Hua-xun)
- 166 Experience on Quality Control of Design Supervision (WU Xiao-jun)
