CONTENTS

Research and Monograph

Hybrid Control Configuration AVC System for District Power Grid Based on EMS	Li Bing (1)
Research on Ecological Effect of Electric Field of HV AC Transmission Line	
..... Zhang Gehong Yu Jin Wei Shuiping etc. (6)	
The Research on Automatic Transfer Switching Equipment of Double Power Source	Huang Kun Yu Jun (9)
The Technical Difficulties and its Solutions of Conventional Substation Digital Renovation	Zhang Yinhuai (12)

Technology Improving and Innovation

Discussion on 220 kV Transformer Preventive Testing without Disconnecting the Lead-wire	Li Sunrao (15)
The Influence on Protections Caused by Inrush Current when Switching on AC Filter and Its Improvement Suggestions	Luo Zheng Zhu Taoxi (19)
The Finite Element Analysis of the Main Transformer's Pile Raft Foundation and Reinforcement Suggestion for Design	Yang Xueping (22)

Practical Technology and Management

A Brief on the Substation DC Power Source Configuration	Luo Wenjie (26)
Three-dimensional Simulation Analysis of Obliquely Inserted Excavation Pile Foundation	Wang Haiqiao (29)
The Conductor Disposition of HVDC ± 500 kV Double Circuit Tower	
..... Ma Wenchao Wu Xinqiao Liao Minchuan (32)	
The Analysis and Control of HV Transmission Line Construction Cost	Zeng Ruorong (34)
The Side-scan Sonar Application in Qiongzhou Channel Submarine Electric Power Cable Routes Surveying	Jia Yuming (37)
Analysis on an Reclosure Mis-operation of 500 kV Circuit Breaker	He Guohua (39)
Discuss on GIS Equipment Full-process Management	Lian Jing (41)
Analysis and Suppression on Low Frequency Power Swing in Power System	Zhang Qingli (44)
Analysis on 500 kV Arrestor Defects and its Counter-measure	Guo Xiaoyou (47)
The Analysis of Insulator Self-shattering of 500 kV Yanxi Power Transmission Line and Introduction of a Insulator Replacing Measures	Liu Shuangwu (50)
Comprehensive Analysis on Despatch Mis-operation of Power Grid	Zhong Huifeng (52)
The Construction of 500 kV Transmission Line Overcrossing of ± 800 kV HVDC Yunguang circuit	Li Defu (56)
Discussion on Distribution Network Planning and Construction in Jieyang	Lu Daoyuan (59)
Analysis and Counter-measures of Abnormal Sound of GIS	Wu Huanke Cheng Xiaohua (62)

Planning and Design

Introduction of Structural Design for 500 kV Compact Type Transmission Line in Guangdong	Li Haiyan (64)
Selection of Power Supply Schemes for Shantou Xunzhou Island	Zhang Xiaohu (67)
Approach on the Metallic Sheath Grounding Schemes of Single-core Cables	Cui Yuyong (69)

News in Brief

The Parallel-in-Grid of Largest Membrane Solar Energy Power Station in Asia	(18)
The New-energy Industry will Become a Leading and Supporting Industry	(28)
The Energy Consumpt of unit GDP will Reduce by 17.3% in "12 th Five-year-plan"	(63)
