## Invasive Species and Global Change

- Predicting the dynamics of local adaptation in invasive species..... Erin K ESPELAND (268)
- Invasion syndromes: hypotheses on relationships among invasive species attributes and characteristics of invaded sites..... Lora B PERKINS, Robert S NOWAK (275)
- Fluctuating resources, disturbance and plant strategies: diverse mechanisms underlying plant invasions..... Ian J RADFORD (284)
- Annual-perennial plant relationships and species selection for desert restoration..... Scott R ABELLA, Stanley D SMITH (298)
- Diaspore characteristics and ecological adaptation of *Bromus tectorum* L. from different distribution regions..... YaoBin LIU, YuanMing ZHANG, Robert S NOWAK, Liliya DIMEYEVA (310)
- Chemical composition and phytotoxic activity of the volatile oil of invasive *Xanthium italicum* Moretti from Xinjiang, China..... Hua SHAO, YuanMing ZHANG, Peng NAN, XiaoLi HUANG, Chi ZHANG (324)

## Carbon Cycle and Global Change

- Persistence of four dominant psammophyte species in central Inner Mongolia of China under continual drought..... YuanRun ZHENG, LianHe JIANG, Yong GAO, Xi CHEN, GePing LUO, XianWei FENG, YunJiang YU, Ping AN, Yi YU, Hideyuki SHIMIZU (331)
- Detecting soil salinity with arid fraction integrated index and salinity index in feature space using Landsat TM imagery..... Fei WANG, Xi CHEN, GePing LUO, JianLi DING, XianFeng CHEN (340)
- Modeling grassland net primary productivity and water-use efficiency along an elevational gradient of the Northern Tianshan Mountains..... QiFei HANG, GePing LUO, ChaoFan LI, Hui YE, YaoLiang CHEN (354)

## Others

- Understanding the impact of mountain landscapes on water balance in the upper Heihe River watershed in north-western China..... Jia QIN, YongJian DING, JinKui WU, MingJie GAO, ShuHua YI, ChuanCheng ZHAO, BaiSheng YE, Man LI, ShengXia WANG (366)
- Estimation of water balance in the source region of the Yellow River based on GRACE satellite data..... Min XU, BaiSheng YE, QiuDong ZHAO, ShiQing ZHANG, Jiang WANG (384)
- Patterns, magnitude, and controlling factors of hydraulic redistribution of soil water by *Tamarix ramosissima* roots..... TengFei YU, Qi FENG, JianHua SI, HaiYang XI, Wei LI (396)
- Optimization of reed-specific degrading bacteria by response surfaces for remediation of crude oil-polluted soil in Xinjiang, China..... YaMing DONG, ChaoCheng ZHAO, Yun CAI, DongFeng ZHAO (408)
