

## 目 次

## · 道路工程 ·

- 考虑老化作用的沥青-集料界面黏附性评价 ..... 孙吉书 于 水 许宁乾 李宁利 (1)
- 基于离散元法的荷载作用下排水沥青路面细观分析 ..... 孙 爽 张铁志 周群华 (8)
- 多级嵌挤型水性环氧树脂微表处的路用耐久性研究 ..... 李秀君 王 晨 毕伟林 拾方治 (17)
- 基于尖点突变理论的路基下伏溶洞顶板稳定性分析 ..... 张成良 刘维正 曾奕珺 (24)
- 基于有限元的地基-路堤-路面协同变形机理分析 ..... 涂慕溪 陈礼彪 曾俊斌 黄晓明 肖光书 (33)

## · 桥梁工程 ·

- 基于失效模式的双联塔非对称 PC 斜拉桥弹塑性极限承载力分析 ..... 侯 炜 贺拴海 吴礼杰 闫 磊 (40)
- 车辆荷载对正交异性钢桥面疲劳细节应力影响研究 ..... 杨永清 程楚云 张 勇 蒲黔辉 (50)
- V 型墩连续刚构桥 0 号块空间应力分析及优化设计 ..... 张 飞 黄福云 王 燕 (59)
- 斜拉桥组合索-塔锚固箱格式连接受力机理试验研究 ..... 黄运林 刘明虎 刘玉擎 李修坤 贾 伟 (68)

## · 城市交通 ·

- 基于公交优先的单点交叉口车道信号协同配置模型 ..... 窦慧丽 马万经 王国华 (75)
- 交叉口逆向可变车道与信号配时协同优化方法 ..... 孙 锋 焦方通 马晓龙 张 倩 赵 菲 (83)
- 城市公交车停靠时间特征的观测试验与实证研究 ..... 吕 伟 李志红 赵彩虹 刘 丹 姜昭宇 (90)

## · 交通规划 ·

- 基于节点重要度的旅游公路规划方法研究 ..... 史焕杰 曾钰宸 许薛军 (97)

## · 汽车工程 ·

- 呼和浩特市轻型汽车运行工况构建研究 ..... 张 宏 姚延钢 张 露 (104)
- 基于 ANSYS 的子午线轮胎力学特性研究 ..... 李 磊 (111)
- 基于投影寻踪与模糊聚类的车辆工况构建 ..... 吴 微 张宏立 (119)
- 公路路面平整度对汽车振动的影响分析 ..... 张建莉 陈榕峰 姚 奇 (129)
- 基于 SOC 参考斜率优化的 PHEV 能量管理控制策略 ..... 孙 蕾 林歆悠 (134)
- 乘用车城市行驶工况构建方法研究 ..... 胡正云 (142)

## · 物流工程 ·

- 基于客户重要度的混合时间窗车辆路径问题研究 ..... 王 勇 黄秋彬 刘 永 许茂增 (151)

|                                                                                                                                              |                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|
| Evaluation of Adhesion of Asphalt-aggregate Interface Considering Aging effect .....                                                         | SUN Ji-shu, YU Shui, XU Ning-qian, LI Ning-li (1)                            |
| Mesoscopic Analysis on Porous Asphalt Pavement under Load Based on Discrete Element Method<br>.....                                          | SUN Shuang, ZHANG Tie-zhi, ZHOU Qun-hua (8)                                  |
| Study on Road Durability of Multilevel Built-in Waterborne Epoxy Micro-surfacing ...                                                         | LI Xiu-jun, WANG Chen, BI Wei-lin, SHI Fang-zhi (17)                         |
| Analysis on Stability of Karst Cave Roof under Subgrade Based on Cusp Catastrophe Theory<br>.....                                            | ZHANG Cheng-liang, LIU Wei-zheng, ZENG Yi-jun (24)                           |
| Analysis on Mechanism of Foundation-embankment-pavement Cooperative Deformation Based on FEM<br>.....                                        | TU Mu-xi, CHEN Li-biao, ZENG Jun-cheng, HUANG Xiao-ming, XIAO Guang-shu (33) |
| Analysis on Elasto-plastic Ultimate Bearing Capacity of United Twin-pylon Asymmetrical PC Cable-stayed Bridge Based on<br>Failure Mode ..... | HOU Wei, HE Shuan-hai, WU Li-jie, YAN Lei (40)                               |
| Study on Influence of Vehicle Loads on Fatigue Detail Stress of Orthotropic Steel Bridge Deck<br>.....                                       | YANG Yong-qing, CHENG Chu-yun, ZHANG Yong, PU Qian-hui (50)                  |
| Analysis on Spatial Stress and Optimal Design of Block No. 0 of Continuous Rigid Frame Bridge with V-shaped Piers<br>.....                   | ZHANG Fei, HUANG Fu-yun, WANG Yan (59)                                       |
| Experimental Study on Stress Mechanism of Steel Box Joint in Cable-pylon Composite Anchorage of Cable-stayed Bridge<br>.....                 | HUANG Yun-lin, LIU Ming-hu, LIU Yu-qing, LI Xiu-kun, JIA Wei (68)            |
| An Integrated Lane-marking and Signal Timing Model for Isolated Intersection Based on Transit Priority<br>.....                              | DOU Hui-li, MA Wan-jing, WANG Guo-hua (75)                                   |
| A Collaborative Optimization Method for Reversible Lanes and Signal Timing at Intersection<br>.....                                          | SUN Feng, JIAO Fang-tong, MA Xiao-long, ZHANG Qian, ZHAO Fei (83)            |
| Observation Experiment and Empirical Study on Parking Time Characteristics of City Buses<br>.....                                            | LÜ Wei, LI Zhi-hong, ZHAO Cai-hong, LIU Dan, JIANG Zhao-yu (90)              |
| Study on Tourism Highway Planning Method Based on Node Importance .....                                                                      | SHI Huan-jie, ZENG Yu-chen, XU Xue-jun (97)                                  |
| Study on Construction of Light-duty Vehicle Driving Cycle in Hohhot City .....                                                               | ZHANG Hong, YAO Yan-gang, ZHANG Lu (104)                                     |
| Analysis on Mechanical Characteristics of Radial Tire Based on ANSYS .....                                                                   | LI Lei (111)                                                                 |
| Construction of Driving Cycle Based on Projection Pursuit and Fuzzy Clustering .....                                                         | WU Wei, ZHANG Hong-li (119)                                                  |
| Analysis on Influence of Road Pavement Roughness on Vehicle Vibration .....                                                                  | ZHANG Jian-li, CHEN Rong-feng, YAO Ke (129)                                  |
| Energy Management Control Strategy for PHEV Based on Optimal Reference SOC Gradient .....                                                    | SUN Lei, LIN Xin-you (134)                                                   |
| Study on Construction Method of Urban Driving Cycle of Passenger Vehicles .....                                                              | HU Zheng-yun (142)                                                           |
| Study on Vehicle Routing Problem with Mixed Time Windows Based on Importance of Customers<br>.....                                           | WANG Yong, HUANG Qiu-bin, LIU Yong, XU Mao-zeng (151)                        |
