Journal of the Chinese Ceramic Society (English Edition)

Call for Paper

The Journal of the Chinese Ceramic Society (English Edition) is a premier archival journal devoted to publishing top quality original research that advances the fundamental and applied science of ceramic materials. Today's ceramic science is an interdisciplinary field that has expanded beyond its traditional core to areas as diverse as electronics and energy materials, and bio- and nano-technology. Published quarterly, the journal aims to provide a continuous forum for the dissemination of peer-reviewed international research into the preparation, properties, and applications of ceramic materials, as well as systematic studies of processes, structures, properties and function of materials by experimental, computational and theoretical tools that are critical to the development of new and improved materials beyond ceramics.

How to submit a manuscript

Manuscripts should be submitted by E-mail to jccs_en@vip.163.com in PDF or doc format, but the accepted manuscripts must be doc format. Figures contained in the manuscripts should be clear, easy to read, and of the best possible quality, and could be colorful.
