ORIGINAL PAPERS

Damage Layer Evolution of a Breakwater Under Seawater Attack: Testing and Modeling

S. Cang · Y. Yang · J. Chen 1

Porosity Effects on Mechanical Properties of 3D Random Fibrous Materials at Elevated Temperatures

D. Li · W. Yu · W. Xia · Q. Fang · S. Shen 14

Crystal-Plasticity-Based Dynamic Constitutive Model of AZ31B Magnesium Alloy at Elevated Temperature and with Explicit Plastic-Strain-Rate Control

Q. Xie · Z. Zhu · G. Kang 31

Minimum Control Energy of Spatial Beam with Assumed Attitude Adjustment Target

W. Hu · L. Yu · Z. Deng 51

Damage Imaging in Mesoscale Concrete Modeling Based on the Ultrasonic Time-Reversal Technique

K. Feng · Q. Zhao · Y. Qiu 61

A Modified Symmetric and Antisymmetric Decomposition-Based Three-Dimensional Numerical Manifold Method for Finite Elastic-Plastic Deformations

J. Ke · S. Wang 71

Comparison Study of Constitutive Models for Overconsolidated Clays

Z. Wan · Y.P. Yao · Z.W. Gao 98

Hardening-Softening Constitutive Model of Hard Brittle Rocks Considering Dilatant Effects and Safety Evaluation Index

S. Huang · C. Zhang · X. Ding 121

Abstracted/Indexed in EBSCO Discovery Service, EI Compendex, Google Scholar, INSPEC, Institute of Scientific and Technical Information of China, Journal Citation Reports/Science Edition, Naver, OCLC World Cat Discovery Service, ProQuest-ExLibris Primo, ProQuest-ExLibris Summon, SCImago, SCOPUS, Science Citation Index Expanded (SciSearch)
