ORIGINAL PAPERS

Statistical Characterization of the Yield Stress of Nanoparticles

L. Yang · J. Bian · W. Yuan · G. Wang 149

Direct Measurement on the Residual Stress in $\text{YBa}_2\text{Cu}_3\text{O}_{7-x}$ Bulk Superconductors Fabricated by Top-Seed Melt-Textured Method

X. Zhang · S. Qiu · Y. Wang · J. Zhou · X. Su · X. Zhang · Y. Zhou 157

Comparison of Different Excitation Schemes in Bimodal Atomic Force Microscopy in Air and Liquid Environments

Z. Huang · P. Wen · X. Zhou 163

A More Accurate Reconstruction Method for Detecting Large-Depth Defects in Plates Using SH Guided Waves

Y. Da · Q. Li · B. Wang · D. Liu · Z. Qian 174

Dynamic Mechanical Properties and Energy Dissipation Characteristics of Frozen Soil Under Passive Confined Pressure

J. Jia · H. Tang · H. Chen 184

The Exponential Law Between Dwell Time and the Strength of PBX Substitute Material

Y. Yang · H. Lv · J. Chen 204

Upper Bound Shakedown Analysis of Plates Utilizing the C^1 Natural Element Method

S. Zhou · Y. Liu · B. Ma · C. Hou · Y. Ju · B. Wu · K. Rong 221

Bending Analysis of Functionally Graded One-Dimensional Hexagonal Piezoelectric Quasicrystal Multilayered Simply Supported Nanoplates Based on Nonlocal Strain Gradient Theory

L. Zhang · J. Guo · Y. Xing 237

Determination of the Uniaxial Stress–Strain Relations of Ductile Materials by Small Disk Specimens

Y. Peng · D. Jia · L. Wang · Y. Gao · L. Wei 252

Fracture Prediction for an Advanced High-Strength Steel Sheet Using the Fully Coupled Elastoplastic Damage Model with Stress-State Dependence

K. Zhang · M. Wang · W. Liu · J. Liu 263

An Efficient Particle Subdomain Quadrature Scheme for the Material Point Method

Z. Sun · X. Zhou 274

Transient Response in a Bi-material Cylinder of Soft Ferromagnetic Material Subjected to Magnetic Shock

Z. Cheng · Q. Jiang 286

Abstracted/Indexed in EBSCO Discovery Service, EI Compendex, Google Scholar, INSPEC, Institute of Scientific and Technical Information of China, Journal Citation Reports/Science Edition, Naver, OCLC World Cat Discovery Service, ProQuest-ExLibris Primo, ProQuest-ExLibris Summon, SCImago, SCOPUS, Science Citation Index Expanded (SciSearch)
