

CONTENTS

TESTING & RESEARCH

- | | | |
|---|--|----------------|
| 1 | Research on the test technology for low voltage power supply line loss in oil well | Liang Haiyang |
| 3 | Analysis on low temperature gathering & transportation technology in Daqing Sazhong oilfield | Han Guozhi |
| 6 | Analysis of influencing factors on energy-consumption for intermittent pumping well | Meng Xiangning |

TECHNOLOGY & APPLICATION

- | | | |
|----|---|-------------------------------------|
| 8 | Research and application on oil well optimizing and diagnosis system | Zhou Bin |
| 11 | Application of balance adjusting technology for pumping unit in Putaohua oilfield | Sun Xiaoli |
| 14 | Energy-saving practice of pressure-reducing and injecting-increasing on multi-hydracid acidizing technology | Guo Dong, Dou Qingguang and Li Ming |
| 16 | Application of fine filtration technology in Nanya natural gas cryogenic plant | Xing Jie and Dai Yong |
| 18 | Application of 5 energy-saving technologies in oil pumping well | Yang Shujuan |

MANAGEMENT & PRACTICE

- | | | |
|----|---|---------------|
| 21 | Analysis on viscosity loss of polymer reduced by flushing pipeline | Qin Duguo |
| 24 | Analysis and application examples on resonance influence factors for oil pumping rod of screw pump well | Xu Lili |
| 27 | Study on increasing pump efficiency for oil pumping unit | Fang Xuesheng |

EQUIPMENT & PRODUCT

- | | | |
|----|---|--|
| 29 | Collecting device for associated gas from oil-well casing | Liu Tao |
| 31 | Screw compressor procurement strategy | Wang Yongchao, Li Chengjian and Li Xinping |

ENVIRONMENT PROTECTION & SECURITY

- | | | |
|----|---|----------------|
| 33 | Problems and suggestions on safety management of long distance natural gas pipeline | Feng Xiangling |
|----|---|----------------|

ENERGY CONSERVATION ECONOMY

- | | | |
|----|--|-----------|
| 35 | Analysis on energy-saving benefits for high voltage local reactive power compensation device | Zong Ping |
|----|--|-----------|

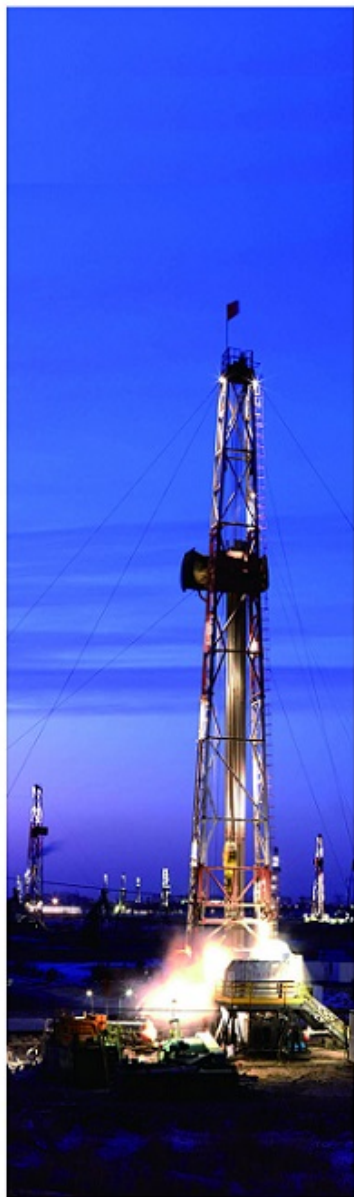

ENERGY CONSERVATION STANDARD

- | | | |
|----|--|--------------------------------------|
| 37 | Analysis on energy consumption index and influencing factors for oilfield water-injecting system | Liang Jing, Ma Jianguo and Lu Bolong |
| 40 | Energy consumption evaluation for water-injecting system based on fuzzy analytic hierarchy process | Zhang Yi and Zhang Haoran |

NEW ENERGY

- | | | |
|----|--|------------|
| 44 | Application of solar-thermal technology in offshore oilfield | Li Renxing |
|----|--|------------|

试验·研究

- | | |
|-----------------------|-----|
| 1 油井低压配电线路损耗测试技术的研究应用 | 梁海洋 |
| 3 大庆萨中油田低温集输工艺分析 | 韩国志 |
| 6 间抽井耗能影响因素分析 | 孟祥宁 |

技术·应用

- | | |
|-----------------------|-----------|
| 8 油井优化与诊断系统研究及应用 | 周兵 |
| 11 葡萄花油田抽油机平衡调整技术应用 | 孙晓丽 |
| 14 多氨酸酸化技术降压增注节能实践 | 郭栋 窦勤光 李明 |
| 16 精细过滤技术在南压深冷装置的应用试验 | 邢杰 代勇 |
| 18 抽油机井节能“五项技术”的推广应用 | 杨淑娟 |

管理·实践

- | | |
|-----------------------|-----|
| 21 冲洗管线降低聚合物黏损的效果分析 | 秦笃国 |
| 24 螺杆泵井抽油杆共振影响因素分析及应用 | 徐丽丽 |
| 27 提高抽油机泵效的方法 | 方学生 |

设备·产品

- | | |
|-----------------|-------------|
| 29 油井套管伴生气收集装置 | 刘涛 |
| 31 螺杆式空气压缩机采购策略 | 王永朝 李成建 李新萍 |

环保·安全

- | | |
|-------------------------|-----|
| 33 天然气长输管道安全管理存在问题及对策分析 | 冯香玲 |
|-------------------------|-----|

节能经济

- | | |
|---------------------|----|
| 35 高压就地无功补偿装置节能效益分析 | 曾萍 |
|---------------------|----|

节能标准

- | | |
|-----------------------|------------|
| 37 油田注水系统能耗指标及其影响因素分析 | 梁晶 马建国 吕毫龙 |
| 40 基于模糊层次分析法的注水系统能耗评价 | 张意 张浩然 |

新能源

- | | |
|----------------------|-----|
| 44 太阳能集热技术在油田终端的应用研究 | 李仁兴 |
|----------------------|-----|
