|                                                                                                                                                                                                                       |                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| Dry and Bulk Nitrogen Deposition in Suburbs of Xining City .....                                                                                                                                                      | XU Wen, JIN Xin, LUO Shao-hui, <i>et al.</i> (1279)                 |
| Day-Night Variation and Source Apportionment of Carbonaceous Aerosols in PM <sub>10</sub> During Spring and Summer of Lanzhou .....                                                                                   | MA Li, YU Ye, WANG Bo, <i>et al.</i> (1289)                         |
| Characteristics of the Size Distribution of Water Soluble Inorganic Ions in Sanya, Hainan .....                                                                                                                       | WANG Lu, LIU Zi-rui, WEN Tian-xue, <i>et al.</i> (1298)             |
| Pollution Characteristics of NH <sub>4</sub> <sup>+</sup> , NO <sub>3</sub> <sup>-</sup> , SO <sub>4</sub> <sup>2-</sup> in PM <sub>2.5</sub> and Their Precursor Gases During 2015 in an Urban Area of Beijing ..... | DING Meng-meng, ZHOU Jian-nan, LIU Bao-xian, <i>et al.</i> (1307)   |
| Pollution Characteristics of PCDD/Fs in Ambient Air and Exposure Risk Assessment Around a Municipal Solid Waste Incinerator in Beijing .....                                                                          | QI Li, REN Yue, LIU Ai-min, <i>et al.</i> (1317)                    |
| Community Characteristics of Cultivable Bacteria in Fine Particles(PM <sub>2.5</sub> ) of Beijing and Baoding .....                                                                                                   | HU Ya-dong, MA An-zhou, LÜ Peng-yi, <i>et al.</i> (1327)            |
| Emission Characteristics of Vehicle Exhaust in Artery and Collector Roads in Nanjing Based on Real-time Traffic Data .....                                                                                            | LI Xiao-yu, WU Lin, ZOU Chao, <i>et al.</i> (1340)                  |
| Catalytic Combustion of Soot Particulates over Rare Earth Pyrochlore Oxides Doped with Transition Metals .....                                                                                                        | LI Xi-feng, SUN Yu-qi, WANG Zhong-peng, <i>et al.</i> (1348)        |
| Water Quality Analysis of Beijing Segment of South-to-North Water Diversion Middle Route Project .....                                                                                                                | XU Hua-shan, ZHAO Lei, SUN Hao-su, <i>et al.</i> (1357)             |
| Hanfeng Pre-reservoir Commissioning Time Variation Feature of the Hydrology and Water Quality in Three Gorges Reservoir .....                                                                                         | YANG Bing, HE Bing-hui, WANG De-bao (1366)                          |
| Modeling of Water Quality Response to Land-use Patterns in Taiizi River Basin Based on Partial Least Squares .....                                                                                                    | LI Lin-lin, ZHANG Yi-zhang, TANG Chang-yuan, <i>et al.</i> (1376)   |
| Distribution Characteristics of Water Temperature and Water Quality of Fuxian Lake During Thermal Stratification Period in Summer .....                                                                               | WANG Lin-jie, YU Hui, NIU Yong, <i>et al.</i> (1384)                |
| Vertical Stratification Characteristics of Dissolved Oxygen and Phytoplankton in Thousand-Island Lake and Their Influencing Factors .....                                                                             | YU Yan, LIU De-fu, YANG Zheng-jian, <i>et al.</i> (1393)            |
| Community Structure Characteristics of Eukaryotic Planktonic Algae in Liaoh River Through High-throughput Sequencing .....                                                                                            | WANG Jing-qi, WANG Shu-ping, ZHANG Yuan, <i>et al.</i> (1403)       |
| Effects of Coastal Organic Pollution on Bacterioplankton Community in Sanmen Bay .....                                                                                                                                | DAI Wen-fang, GUO Yong-hao, YU Wei-na, <i>et al.</i> (1414)         |
| Nitrate Source Identification and Nitrification-denitrification at the Sediment-water Interface .....                                                                                                                 | JIN Zan-fang, GONG Jia-lin, SHI Yi-li, <i>et al.</i> (1423)         |
| Residues of Organochlorine Pesticides (OCPs) in Water and Sediments from Nansha Mangrove Wetland .....                                                                                                                | DING Yang, HUANG Huan-fang, LI Hui, <i>et al.</i> (1431)            |
| Pollution Characteristics and Risk Assessment of Heavy Metals from River Network Sediment in Western Area of Taihu Lake .....                                                                                         | BIAN Bo, ZHOU Yan, ZHANG Qin (1442)                                 |
| Efficacy of Phoslock® on the Reduction of Sediment Phosphorus Release in West Lake, Hangzhou, China .....                                                                                                             | ZHU Guang-wei, LI Jing, ZHU Meng-yuan, <i>et al.</i> (1451)         |
| Identification and PAC Adsorption of Foulants Responsible for Irreversible Fouling During Ultrafiltration of Dongjiang River Water .....                                                                              | YANG Hai-yan, WANG Can, YAN Zhong-sen, <i>et al.</i> (1460)         |
| Efficiency and Kinetics of Triclosan Degradation in Aqueous Solution by UV/Sodium Persulfate .....                                                                                                                    | LI Qing-song, LI Xue-yan, YAO Ning-bo, <i>et al.</i> (1467)         |
| Influencing Factors on the Degradation of PFOS Through VUV-SO <sub>3</sub> <sup>2-</sup> .....                                                                                                                        | HAN Hui-li, WANG Hong-jie, DONG Wen-yi (1477)                       |
| Simultaneous Photocatalytic Reduction of Cr(VI) and Oxidation of SSA by Carbon Nitride .....                                                                                                                          | LI Li-li, CHEN Cui-bai, LAN Hua-chun, <i>et al.</i> (1483)          |
| Modification of Diatomite by Zirconium and Its Performance in Phosphate Removal from Water .....                                                                                                                      | FAN Yi, WANG Zhe, ZHAO Lian-qin, <i>et al.</i> (1490)               |
| Reducing Effect of Three Disinfection Technologies for Sulfonamides Resistance Genes .....                                                                                                                            | ZHENG Ji, ZHOU Zhen-chao, CHEN Fang, <i>et al.</i> (1497)           |
| Removal of Estrogenic Effect by Typical Domestic Wastewater Treatment Processes .....                                                                                                                                 | ZHANG Qiu-ya, MA Xiao-yan, WANG Xiao-chang, <i>et al.</i> (1506)    |
| Effect of SRT on Stability of Yeast-SBR in Treating Oil-containing Wastewater .....                                                                                                                                   | LÜ Wen-zhou, ZHANG Shu-lia, QIAO Yu-xiang, <i>et al.</i> (1513)     |
| Degradation of the Disperse Dye Neocron Black(NB) by Biological Treatment .....                                                                                                                                       | YANG Bo, DING Feng-you, XU Hui, <i>et al.</i> (1520)                |
| Function of Polyphosphate Kinase Gene in Biological Phosphate Removal During the Wastewater Treatment Process .....                                                                                                   | NAN Ya-ping, ZHOU Guo-biao, YUAN Lin-jiang (1529)                   |
| Short-cut Nitrification Recovery and Its Transformation into CANON Process in a Biofilm Reactor .....                                                                                                                 | FU Kun-ming, ZHOU Hou-tian, SU Xue-ying, <i>et al.</i> (1536)       |
| Nitrogen Removal Characteristics and Diversity of Microbial Community in ANAMMOX Reactor .....                                                                                                                        | CAO Yan, WANG Tong-yu, QIN Yu-jie, <i>et al.</i> (1544)             |
| Effect of Environment Adjustment Layers on Nitrogen Transformation in Anaerobic Bioreactor Landfills .....                                                                                                            | HE Zheng-kun, SONG Bo-yu, ZHU Nan-wen, <i>et al.</i> (1551)         |
| Characteristics of Anaerobic Methane Removal Coupled to Fe(III) Reduction in Aged Refuse .....                                                                                                                        | WANG Li-li, HE Ting, LONG Yan, <i>et al.</i> (1558)                 |
| Assessment of Heavy Metal Pollution and Tracing Sources by Pb & Sr Isotope in the Soil Profile of Woodland in Quanzhou .....                                                                                          | SUN Jing-wei, YU Rui-lian, HU Gong-ren, <i>et al.</i> (1566)        |
| Accumulation and Migration Characteristics in Soil Profiles and Bioavailability of Heavy Metals from Livestock Manure .....                                                                                           | HE Meng-yuan, DONG Tong-xi, RU Shu-hua, <i>et al.</i> (1576)        |
| Pollution Characteristics and Source Analysis of Polycyclic Aromatic Hydrocarbons in Agricultural Soils from Shandong .....                                                                                           | GE Wei, CHENG Qi-qi, CHAI Chao, <i>et al.</i> (1587)                |
| Distribution Characteristics and Influencing Factors of Organophosphorus Pesticides in Typical Soil Environment of Jiangnan Plain .....                                                                               | WANG Jian-wei, ZHANG Cai-xiang, PAN Zhen-zhen, <i>et al.</i> (1597) |
| Characteristics and Influencing Factors of Biologically-based Phosphorus Fractions in the Farmland Soil .....                                                                                                         | CAI Guan, HU Ya-jun, WANG Ting-ting, <i>et al.</i> (1606)           |
| Effect of Straw Application on the Dynamics of Exogenous Nitrogen and Microbial Activity in Paddy Soil .....                                                                                                          | CHEN Shan, DING Xian-qing, ZHU Zhen-ke, <i>et al.</i> (1613)        |
| Effects of Biochar on Surface Albedo and Soil Respiration in Suburban Agricultural Soil .....                                                                                                                         | ZHANG Yang-yang, HU Xue-yu, ZOU Juan, <i>et al.</i> (1622)          |
| N <sub>2</sub> O Consumption Ability of Submerged Paddy Soil and the Regulatory Mechanism .....                                                                                                                       | WANG Ling, XING Xiao-yi, QIN Hong-ling, <i>et al.</i> (1633)        |
| Non-CO <sub>2</sub> Greenhouse Gas Release from Different Biological Wastewater Treatment Processes .....                                                                                                             | LI Hui-juan, PENG Dang-cong, LIU Wen-bo, <i>et al.</i> (1640)       |
| Effect of Application of Sewage Sludge Composts on Greenhouse Gas Emissions in Soil .....                                                                                                                             | YANG Yu-han, YI Jian-ting, ZHANG Cheng, <i>et al.</i> (1647)        |
| Effect of Nano Zeolites on pH, CEC in Soil and Cd Fractions in Plant and Soil at Different Cadmium Levels .....                                                                                                       | CHI Sun-lin, XU Wei-hong, XIONG Shi-juan, <i>et al.</i> (1654)      |
| Dynamic Differences of Uptake and Translocation of Exogenous Selenium by Different Crops and Its Mechanism .....                                                                                                      | PENG Qin, LI Zhe, LIANG Dong-li, <i>et al.</i> (1667)               |
| Alleviation Effects of Exogenous Melatonin on Ni Toxicity in Rice Seedlings .....                                                                                                                                     | LIU Shi-xiang, HUANG Yi-zong, LUO Ze-jiao, <i>et al.</i> (1675)     |
| Forms Distribution and Ecotoxicity of Three Forms of Sulfonamides in Root-Soil Interface of Maize .....                                                                                                               | JIN Cai-xia, SI Xiao-wei, WANG Wan-feng, <i>et al.</i> (1683)       |
| Effect of Sediments on Bioaccumulation of Mercury in Fish Body in the Water-Level-Fluctuating Zone of the Three Gorges Reservoir Area .....                                                                           | SUN Song, LI Chu-xian, ZHANG Cheng, <i>et al.</i> (1689)            |
| Bioaccumulation and Correlation of Heavy Metals in Human Hairs From Urban and Rural Areas of Chongqing .....                                                                                                          | HE Ming-jing, LI Qi, WANG Deng-xiang, <i>et al.</i> (1697)          |
| Microbial Community Structure and Diversity in Cellar Water by 16S rRNA High-throughput Sequencing .....                                                                                                              | YANG Hao, ZHANG Guo-zhen, YANG Xiao-ni, <i>et al.</i> (1704)        |
| Performance Improvement of Microbial Fuel Cell with Polyaniline Doped Graphene Anode .....                                                                                                                            | HUANG Li-hua, LI Xiu-fen, REN Yue-ping, <i>et al.</i> (1717)        |
| Brief Introduction of Pollution Sites Remediation and Risk Assessment and Its Policy Making in United States .....                                                                                                    | RONG Yue (1726)                                                     |
