目 次

|                                                          |                                                                         |
|----------------------------------------------------------|-------------------------------------------------------------------------|
| 京津冀及周边地区秋冬季大气污染物排放变化因素解析 .....                           | 唐倩, 郑博, 薛文博, 张强, 雷宇, 贺克斌 (1591)                                         |
| 珠江三角洲大气光化学氧化剂( $O_3$ )与 $PM_{2.5}$ 复合超标污染特征及气象影响因素 ..... | 颜丰华, 陈伟华, 常鸣, 王伟文, 刘永林, 钟部卿, 毛敬英, 杨士士, 王雪梅, 刘婵芳 (1600)                  |
| 广州市臭氧污染溯源: 基于拉格朗日光化学轨迹模型的案例分析 .....                      | 裴成磊, 牟江山, 张英南, 申恒青, 陈玉茹, 黄杰生, 丁浩然, 李成柳 (1615)                           |
| 运城秋冬季大气细粒子化学组成特征及来源解析 .....                              | 赵清, 李杏茹, 王国选, 张兰, 杨阳, 刘水桥, 孙宁宁, 黄禹, 雷文凯, 刘新罡 (1626)                     |
| 降雪后 24 h 内大气中多环芳烃的变化规律 .....                             | 范慧泽, 祝富杰, 胡鹏转, 马万里 (1636)                                               |
| 道路扬尘中 $PM_{2.5}$ 粒度乘数的测定方法及特征 .....                      | 李冬, 陈建华, 张月帆, 高志阳, 高健, 张凯, 竹双 (1642)                                    |
| 铸造行业挥发性有机物排放成分谱及影响 .....                                 | 高爽, 李时蓓, 伯鑫, 李厚宇, 舒木水, 淡默, 屈加豹, 雷团团 (1649)                              |
| 燃煤电厂和垃圾焚烧电厂燃烧产物中卤代多环芳烃的赋存特征和毒性风险 .....                   | 倪秀峰, 王儒威, 蔡飞旋, 蔡家伟 (1660)                                               |
| 兰州市春季微生物气溶胶浓度、粒径及细菌群落结构分布特性 .....                        | 赵伟, 李杰, 谢慧娜, 张莉红, 王亚娥 (1668)                                            |
| 大气污染排放格局优化方法及案例 .....                                    | 李敏辉, 廖程浩, 常树诚, 张永波, 杨柳林, 曾武涛 (1679)                                     |
| $PM_{2.5}$ 污染对我国健康负担和经济损失的影响 .....                       | 李勇, 廖琴, 赵秀阁, 白云, 陶燕 (1688)                                              |
| 基于多同位素的不同土地利用区域水体硝酸盐源解析 .....                            | 金赞芳, 胡晶, 吴爱静, 李光耀, 张文辽, 李非里 (1696)                                      |
| 新疆叶尔羌河流域地表水水化学特征及控制因素 .....                              | 张杰, 周金龙, 曾妍妍, 涂治, 纪媛媛, 孙英, 雷米 (1706)                                    |
| 漓江流域水体中重金属污染特征及健康风险评价 .....                              | 黄宏伟, 肖河, 王敦球, 席北斗, 孙晓杰, 李洁月, 李向奎 (1714)                                 |
| 近 20 年来鄱阳湖流域泛滥平原沉积物微量元素含量与污染变化 .....                     | 李括, 杨柯, 彭敏, 刘飞, 杨峥, 赵传冬, 成杭新 (1724)                                     |
| 汾河流域浅层地下水水化学和氢氧稳定同位素特征及其指示意义 .....                       | 刘鑫, 向伟, 司炳成 (1739)                                                      |
| 会仙岩溶湿地地下水主要离子特征及成因分析 .....                               | 李军, 邹胜章, 赵一, 赵瑞科, 党志文, 潘民强, 朱丹尼, 周长松 (1750)                             |
| 贵州威宁草海流域地下水水化学特征及无机碳通量估算 .....                           | 曹星星, 吴攀, 杨诗笛, 刘闪, 廖家豪 (1761)                                            |
| 辽宁典型海域表层海水中在用化学农药浓度水平与潜在生态风险 .....                       | 杜静, 胡超魁, 解怀君, 田甲申, 李爱, 谢晴, 吴金浩, 宋伦 (1772)                               |
| 辽河流域土壤中微(中)塑料的丰度、特征及潜在来源 .....                           | 韩丽花, 徐笠, 李巧玲, 陆安祥, 殷敬伟, 田佳宇 (1781)                                      |
| 津冀辽地区典型湖泊沉积物 PAHs 污染特征及来源解析 .....                        | 吴鹏, 鲁逸人, 李慧, 郑天娇子, 程云轩, 焦立新 (1791)                                      |
| 环太湖河流及湖体中有机磷酸酯的污染特征和风险评估 .....                           | 张文萍, 张振飞, 郭昌胜, 吕佳佩, 邓洋慧, 张恒, 徐建 (1801)                                  |
| 太湖表层水体典型抗生素时空分布和生态风险评价 .....                             | 丁剑楠, 刘舒娇, 邹杰明, 石波哲, 邹华, 史红星 (1811)                                      |
| 淮河流域南四湖可挥发性有机物污染特征及风险评价 .....                            | 程云轩, 高秋生, 李捷, 李慧, 吴鹏, 焦立新 (1820)                                        |
| 三亚河沉积物 PAHs 和 PCBs 的分布、来源及风险评价 .....                     | 詹咏, 韦婷婷, 叶汇彬, 董滨, 张领军, 黄远东 (1830)                                       |
| 三峡库区非点源污染氮磷负荷时空变化及其来源解析 .....                            | 李明龙, 贾梦丹, 孙天成, 褚琳, 李朝霞 (1839)                                           |
| 反硝化细菌、硝酸钙和锆改性沸石联用对底泥中氮磷迁移转化的影响及硝态氮释放风险评估 .....           | 辛慧敏, 林建伟, 詹艳慧 (1847)                                                    |
| 锁磷剂联合好氧反硝化菌修复富营养化水体 .....                                | 李炳堂, 周志勤, Ravi Naidu, 胡智泉, 郭大滨, 陈嘉鑫 (1861)                              |
| 太湖蓝藻胞内有机质的微生物降解 .....                                    | 张巧颖, 孙伟, 杜瑛珣, 巩小丽 (1870)                                                |
| 青藏高原拉萨河流域附生藻类群落结构特征及其驱动因子分析 .....                        | 魏俊伟, 李鸿然, 汪兴中, 齐文华, 汪洋, 赵彬洁, 谭香, 张全发 (1879)                             |
| 基于 EEMs 与 UV-vis 分析苏州汛期景观河道中 DOM 光谱特性与来源 .....           | 何杰, 朱学惠, 魏彬, 李学艳, 汤如涛, 林欣, 周飞, 司壮壮 (1889)                               |
| 老化前后轮胎磨损微粒与聚氨酯微颗粒对抗生素的吸附-解吸行为 .....                      | 范秀磊, 邹晔峰, 刘加强, 李莹, 刘强, 侯俊 (1901)                                        |
| 磁性铁基改性生物炭去除水中氨氮 .....                                    | 王芳君, 桑倩倩, 邓颖, 赵元添, 杨娅, 陈永志, 马娟 (1913)                                   |
| 城市污水处理厂进水氨氧化菌对活性污泥系统的季节性影响 .....                         | 于莉芳, 汪宇, 滑思思, 李韧, 张兴秀, 惠晓飞 (1923)                                       |
| 基于粒径分化的厌氧氨氧化污泥性能与微生物多样性分析 .....                          | 王晓瞳, 杨宏 (1930)                                                          |
| $ClO_2$ 消毒工艺对污水处理厂出水超级耐药基因的影响 .....                      | 程春燕, 李海北, 梁永兵, 师丹阳, 陈郑珊, 杨栋, 焦巧瑞, 耶一帆, 李君文, 金敏 (1939)                   |
| 微塑料 PES 与 2,4-DCP 复合污染对厌氧污泥胞外聚合物与微生物群落的影响 .....          | 林旭萌, 宿程远, 吴淑敏, 黄嫒, 邓雪, 林香凤, 黄尊, 魏佳林 (1946)                              |
| 城镇污水处理厂污泥泥质监测及资源化风险评价 .....                              | 李娟, 李金香, 杨妍妍 (1956)                                                     |
| 气候变暖对冻结期黑土碳氮循环关键过程及指标的影响 .....                           | 王子龙, 刘传兴, 姜秋香, 李世强, 柴迅 (1967)                                           |
| 沼液秸秆联用对滨海围垦田土壤重金属迁移及形态变化的影响 .....                        | 王伟, 周珺楠, 汤逸帆, 申建华, 韩建刚 (1979)                                           |
| 地块尺度城市土地质量地球化学调查方法: 以雄安新区起步区为例 .....                     | 周亚龙, 郭志娟, 刘飞, 韩伟, 孔牧, 赵传冬, 刘爱涛, 彭敏, 王乔林, 王成文 (1989)                     |
| 雄安新区农田土壤-农作物系统重金属潜在生态风险评估及其源解析 .....                     | 周亚龙, 杨志斌, 王乔林, 王成文, 刘飞, 宋云涛, 郭志娟 (2003)                                 |
| 地质高背景农田土壤下不同水稻品种对 Cd 的累积特征及影响因素 .....                    | 代子雯, 方成, 孙斌, 魏志敏, 胡锋, 李辉信, 徐莉 (2016)                                    |
| 不同外源硒对镉污染土壤中小白菜生长及镉吸收的影响 .....                           | 刘杨, 齐明星, 王敏, 刘娜娜, Pornpimol Kleawsampanjai, 周菲, 翟辉, 王梦柯, 任蕊, 梁东丽 (2024) |
| 影响不同农作物富镉系数的土壤因素 .....                                   | 陈洁, 王娟, 王怡雯, 姚启星, 苏德纯 (2031)                                            |
| Cd 胁迫下不同外源植物激素对水稻幼苗抗氧化系统及 Cd 吸收积累的影响 .....               | 张盛楠, 黄益宗, 李颜, 保琼莉, 黄永春 (2040)                                           |
| 不同有机物料对水稻根表铁膜及砷镉吸收转运的影响 .....                            | 李开叶, 赵婷婷, 陈佳, 赵秀兰 (2047)                                                |
| 铜尾矿坝及其周边土壤真菌群落结构与功能多样性 .....                             | 陈建文, 张红, 李君剑, 刘勇 (2056)                                                 |
| 微生物群落驱动 AM 真菌、生物炭及联合改良沙化土壤作用潜力 .....                     | 张哲超, 杨久扬, 郝百惠, 郝利君, 罗俊清, 李雪, 刁风伟, 张璟霞, 郭伟 (2066)                        |
| 动物粪便施肥措施促进耐药基因在粪便-土壤-蔬菜之间的散播 .....                       | 张红娜, 董梦洁, 周玉法, 孙佳欣, 常美洁, 翟真真 (2080)                                     |
| 区域水生态文明建设绩效评价及障碍诊断模型的建立与应用 .....                         | 万炳彤, 鲍学英, 赵建昌, 李爱春 (2089)                                               |
| 《环境科学》征订启事(1738) 《环境科学》征稿简则(1790) 信息(1860, 1878, 1900)   |                                                                         |

|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| Contributors to Air Pollutant Emission Changes in Autumn and Winter in Beijing-Tianjin-Hebei and Surrounding Areas .....                                                                                                     | TANG Qian, ZHENG Bo, XUE Wen-bo, <i>et al.</i> (1591)                 |
| Characteristics and Meteorological Factors of Complex Nonattainment Pollution of Atmospheric Photochemical Oxidant ( $O_3$ ) and $PM_{2.5}$ in the Pearl River Delta Region, China .....                                     | YAN Feng-hua, CHEN Wei-hua, CHANG Ming, <i>et al.</i> (1600)          |
| Source Apportionment of Ozone Pollution in Guangzhou: Case Study with the Application of Lagrangian Photochemical Trajectory Model .....                                                                                     | PEI Cheng-lei, MU Jiang-shan, ZHANG Ying-nan, <i>et al.</i> (1615)    |
| Chemical Composition and Source Analysis of $PM_{2.5}$ in Yuncheng, Shanxi Province in Autumn and Winter .....                                                                                                               | ZHAO Qing, LI Xing-ru, WANG Guo-xuan, <i>et al.</i> (1626)            |
| Temporal Trend of Polycyclic Aromatic Hydrocarbons in Atmosphere Within 24 Hours After Snowfall .....                                                                                                                        | FAN Hui-ze, ZHU Fu-jie, HU Peng-tuan, <i>et al.</i> (1636)            |
| Determination Method and Characteristics of Particle Size Multiplier of $PM_{2.5}$ in Road Dust .....                                                                                                                        | LI Dong, CHEN Jian-hua, ZHANG Yue-fan, <i>et al.</i> (1642)           |
| Source Profiles and Impact of VOCs Based on Production Processes in Foundry Industries .....                                                                                                                                 | GAO Shuang, LI Shi-bei, BO Xin, <i>et al.</i> (1649)                  |
| Emission Characteristics and Toxicity Effects of Halogenated Polycyclic Aromatic Hydrocarbons from Coal-Fired and Waste Incineration Power Plants .....                                                                      | NI Xiu-feng, WANG Ru-wei, CAI Fei-xuan, <i>et al.</i> (1660)          |
| Concentration and Particle Size Distribution Characteristics of Microbial Aerosol and Bacterial Community Structure During Spring in Lanzhou City, China .....                                                               | ZHAO Wei, LI Jie, XIE Hui-na, <i>et al.</i> (1668)                    |
| Optimization Method and Case Study of Air Pollution Emission Spatial Pattern .....                                                                                                                                           | LI Min-hui, LIAO Cheng-hao, CHANG Shu-cheng, <i>et al.</i> (1679)     |
| Influence of $PM_{2.5}$ Pollution on Health Burden and Economic Loss in China .....                                                                                                                                          | LI Yong, LIAO Qin, ZHAO Xiu-ge, <i>et al.</i> (1688)                  |
| Identify the Nitrate Sources in Different Land Use Areas Based on Multiple Isotopes .....                                                                                                                                    | JIN Zan-fang, HU Jing, WU Ai-jing, <i>et al.</i> (1696)               |
| Hydrochemical Characteristic and Their Controlling Factors in the Yarkant River Basin of Xinjiang .....                                                                                                                      | ZHANG Jie, ZHOU Jin-long, ZENG Yan-yan, <i>et al.</i> (1706)          |
| Pollution Characteristics and Health Risk Assessment of Heavy Metals in the Water of Lijiang River Basin .....                                                                                                               | HUANG Hong-wei, XIAO He, WANG Dun-qiu, <i>et al.</i> (1714)           |
| Changes in Concentrations and Pollution Levels of Trace Elements of Floodplain Sediments of Poyang Lake Basin in Recent Twenty Years .....                                                                                   | LI Kuo, YANG Ke, PENG Min, <i>et al.</i> (1724)                       |
| Hydrochemical and Isotopic Characteristics in the Shallow Groundwater of the Fenhe River Basin and Indicative Significance .....                                                                                             | LIU Xin, XIANG Wei, SI Bing-cheng (1739)                              |
| Major Ionic Characteristics and Factors of Karst Groundwater at Huixian Karst Wetland, China .....                                                                                                                           | LI Jun, ZOU Sheng-zhang, ZHAO Yi, <i>et al.</i> (1750)                |
| Hydrochemistry Characteristics and Estimation of the Dissolved Inorganic Carbon Flux in the Caohai Lake Wetland Catchment of Guizhou Province .....                                                                          | CAO Xing-xing, WU Pan, YANG Shi-di, <i>et al.</i> (1761)              |
| Concentration Levels and Potential Ecological Risks of Current Use Pesticides in the Surface Seawater of Typical Liaoning Sea Areas .....                                                                                    | DU Jing, HU Chao-kui, XIE Huai-jun, <i>et al.</i> (1772)              |
| Levels, Characteristics, and Potential Source of Micro(meso)plastic Pollution of Soil in Liaohe River Basin .....                                                                                                            | HAN Li-hua, XU Li, LI Qiao-ling, <i>et al.</i> (1781)                 |
| PAHs Pollution Characteristics and Source Analysis of Typical Lake and Reservoir Sediments in Jin-Ji-Liao Area .....                                                                                                         | WU Peng, LU Yi-ren, LI Hui, <i>et al.</i> (1791)                      |
| Pollution Characteristics and Risk Assessment of Organophosphate Esters in Rivers and Water Body Around Taihu Lake .....                                                                                                     | ZHANG Wen-ping, ZHANG Zhen-fei, GUO Chang-sheng, <i>et al.</i> (1801) |
| Spatiotemporal Distributions and Ecological Risk Assessments of Typical Antibiotics in Surface Water of Taihu Lake .....                                                                                                     | DING Jian-nan, LIU Shu-jiao, ZOU Jie-ming, <i>et al.</i> (1811)       |
| Characteristics of Volatile Organic Compounds Pollution and Risk Assessment of Nansi Lake in Huaihe River Basin .....                                                                                                        | CHENG Yun-xuan, GAO Qiu-sheng, LI Jie, <i>et al.</i> (1820)           |
| Distribution, Source, and Ecological Risk Evaluation of the PAHs and PCBs in the Sediments from Sanya River .....                                                                                                            | ZHAN Yong, WEI Ting-ting, YE Hui-bin, <i>et al.</i> (1830)            |
| Spatiotemporal Change and Source Apportionment of Non-point Source Nitrogen and Phosphorus Pollution Loads in the Three Gorges Reservoir Area .....                                                                          | LI Ming-long, JIA Meng-dan, SUN Tian-cheng, <i>et al.</i> (1839)      |
| Effect of the Combined Use of Denitrifying Bacteria, Calcium Nitrate, and Zirconium-Modified Zeolite on the Mobilization of Nitrogen and Phosphorus in Sediments and Evaluation of Its Nitrate-Nitrogen Releasing Risk ..... | XIN Hui-min, LIN Jian-wei, ZHAN Yan-hui (1847)                        |
| Combined Remediation of Eutrophic Water by Phoslock® and Aerobic Denitrifying Bacteria .....                                                                                                                                 | LI Bing-tang, ZHOU Zhi-qin, Ravi Naidu, <i>et al.</i> (1861)          |
| Biodegradation of Algae-derived Organic Matter (I-DOM) from Lake Taihu .....                                                                                                                                                 | ZHANG Qiao-ying, SUN Wei, DU Ying-xun, <i>et al.</i> (1870)           |
| Structure Characteristics and Driving Variables of Epilithic Algae Community in Lhasa River Basin of Qinghai-Tibet Plateau .....                                                                                             | WEI Jun-wei, LI Hong-ran, WANG Xing-zhong, <i>et al.</i> (1879)       |
| Spectral Characteristics and Sources of Dissolved Organic Matter from Landscape River During Flood Season in Suzhou Based on EEMs and UV-vis .....                                                                           | HE Jie, ZHU Xue-hui, WEI Bin, <i>et al.</i> (1889)                    |
| Adsorption and Desorption Behaviors of Antibiotics on TWP and PVC Particles Before and After Aging .....                                                                                                                     | FAN Xiu-lei, ZOU Ye-feng, LIU Jia-qiang, <i>et al.</i> (1901)         |
| Synthesis of Magnetic Iron Modifying Biochar for Ammonia Nitrogen Removal from Water .....                                                                                                                                   | WANG Fang-jun, SANG Qian-qian, DENG Ying, <i>et al.</i> (1913)        |
| Seasonal Effects of Influent Ammonia Oxidizing Bacteria of Municipal Wastewater Treatment Plants on Activated Sludge System .....                                                                                            | YU Li-fang, WANG Yu, HUA Si-si, <i>et al.</i> (1923)                  |
| Analysis of Performance and Microbial Diversity of ANAMMOX Sludge Based on Particle Size Differentiation .....                                                                                                               | WANG Xiao-tong, YANG Hong (1930)                                      |
| Effects of Chlorine Dioxide Disinfection on the Profile of the Super Antibiotic Resistance Genes in a Wastewater Treatment Plant .....                                                                                       | CHENG Chun-yan, LI Hai-bei, LIANG Yong-bing, <i>et al.</i> (1939)     |
| Effects of PES and 2,4-DCP on the Extracellular Polymeric Substances and Microbial Community of Anaerobic Granular Sludge .....                                                                                              | LIN Xu-meng, SU Cheng-yuan, WU Shu-min, <i>et al.</i> (1946)          |
| Characteristics of Sludge and Associated Risk Assessment of Urban Sewage Treatment Plants .....                                                                                                                              | LI Juan, LI Jin-xiang, YANG Yan-yan (1956)                            |
| Effects of Climate Warming on the Key Process and Index of Black Soil Carbon and Nitrogen Cycle During Freezing Period .....                                                                                                 | WANG Zi-long, LIU Chuan-xing, JIANG Qiu-xiang, <i>et al.</i> (1967)   |
| Effects of Combined Application of Biogas Slurry and Straw on the Migration and Fractions of Soil Heavy Metals in Rice-wheat Rotation System in Coastal Reclamation Areas .....                                              | WANG Wei, ZHOU Jun-nan, TANG Yi-fan, <i>et al.</i> (1979)             |
| Geochemical Survey Method of Land Quality in Land Parcel Scale City: A Case Study of the Initial Area of the Xiong'an New District .....                                                                                     | ZHOU Ya-long, GUO Zhi-juan, LIU Fei, <i>et al.</i> (1989)             |
| Potential Ecological Risk Assessment and Source Analysis of Heavy Metals in Soil-crop System in Xiong'an New District .....                                                                                                  | ZHOU Ya-long, YANG Zhi-bin, WANG Qiao-lin, <i>et al.</i> (2003)       |
| Cadmium Accumulation Characteristics and Impacting Factors of Different Rice Varieties Under Paddy Soils with High Geological Backgrounds .....                                                                              | DAI Zi-wen, FANG Cheng, SUN Bin, <i>et al.</i> (2016)                 |
| Effects of Different Exogenous Selenium Species Application on Growth and Cadmium Uptake of Pak Choi in Cadmium Contaminated Soil .....                                                                                      | LIU Yang, QI Ming-xing, WANG Min, <i>et al.</i> (2024)                |
| Influencing Factors of Cadmium Bioaccumulation Factor in Crops .....                                                                                                                                                         | CHEN Jie, WANG Juan, WANG Yi-wen, <i>et al.</i> (2031)                |
| Effects of Different Exogenous Plant Hormones on the Antioxidant System and Cd Absorption and Accumulation of Rice Seedlings Under Cd Stress .....                                                                           | ZHANG Sheng-nan, HUANG Yi-zong, LI Yan, <i>et al.</i> (2040)          |
| Effects of Different Organic Materials on Absorption and Translocation of Arsenic and Cadmium in Rice .....                                                                                                                  | LI Kai-ye, ZHAO Ting-ting, CHEN Jia, <i>et al.</i> (2047)             |
| Soil Fungal Community Structure and Functional Diversity in a Copper Tailing Dam and Its Surrounding Areas .....                                                                                                             | CHEN Jian-wen, ZHANG Hong, LI Jun-jian, <i>et al.</i> (2056)          |
| Potential of Arbuscular Mycorrhizal Fungi, Biochar, and Combined Amendment on Sandy Soil Improvement Driven by Microbial Community .....                                                                                     | ZHANG Zhe-chao, YANG Jiu-yang, HAO Bai-hui, <i>et al.</i> (2066)      |
| Animal Manure Fertilization Promotes Antibiotic Resistance Gene Dissemination Among Manure, Soil, and Vegetables .....                                                                                                       | ZHANG Hong-na, DONG Meng-jie, ZHOU Yu-fa, <i>et al.</i> (2080)        |
| Establishment and Application of Performance Evaluation and Obstacle Diagnosis Model for Regional Water Ecological Civilization Construction .....                                                                           | WAN Bing-tong, BAO Xue-ying, ZHAO Jian-chang, <i>et al.</i> (2089)    |
