

(He Jishu)

目次

同步辐射技术及应用

上海光源储存环束流位置监测系统 ..... 冷用斌 周伟民 袁任贤 叶恺容 陈永忠 等 (401)

储存环束流丢失信号检测电路设计 ..... 封晨霞 周伟民 冷用斌 (405)

EPICS 控制系统的 Callback 机制 ..... 米清茹 刘松强 (411)

光束线站 EPICS 数据采集系统研究 ..... 刘平 周永年 米清茹 张招红 胡纯 等 (415)

上海深紫外自由电子激光束流截面诊断系统 ..... 徐轶超 韩利峰 陈永忠 (420)

新型定时系统设计 ..... 刘鸣 殷重先 赵黎颖 刘德康 (425)

SSRF 电子枪控制系统的设计与实现 ..... 周大勇 林国强 刘德康 沈立人 (429)

无根萍 *Wolffia globosa* 中砷及其它元素的分布特点 ..... 张华 黄青 陈保冬 罗磊 朱永官 (434)

磷脂体系的同步辐射 SXAS 研究 ..... 王莉萍 戴聪莹 王瑾晔 (439)

Sn-Pb 合金枝晶生长的同步辐射 X 射线衍射增强成像研究 ..... 王同敏 许菁菁 黄万霞 刘晟初 曹志强 等 (443)

Sn-12%Bi 合金二次枝晶生长行为的实时成像 ..... 许菁菁 王同敏 谢红兰 朱晶 肖体乔 等 (447)

低能加速器技术、射线技术及应用

HHT 变换联合人工神经网络的核信号时频特征分析与识别 ..... 金晶 魏彪 冯鹏 唐跃林 周密 等 (451)

离子注入制备  $\text{Si}_x\text{Mn}_{1-x}$  稀磁半导体的 X 射线衍射 ..... 彭国良 李铁成 张文勇 彭挺 艾志伟 等 (457)

零功率微堆的蒙特卡罗数值模拟计算 ..... 江新标 朱养妮 高集奎 李义国 周永茂 (461)

三端稳压器的总剂量效应 ..... 王义元 陆妩 任迪远 郑玉展 高博 等 (465)

Ce:YAG 闪烁晶体的  $\gamma$  射线相对能量响应研究 ..... 张建华 张传飞 胡孟春 彭太平 王振通 等 (469)

氩的溶解与析出的试验研究 ..... 陈翔 徐文平 李广悦 丁德馨 (473)

核电子学与仪器

BES III 飞行时间电子学在线刻度电路 ..... 封常青 刘树彬 黄亚齐 安琪 (477)

### SYNCHROTRON TECHNOLOGY AND APPLICATIONS

|                                                                                                              |                                                     |
|--------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| Beam position monitor system for SSRF storage ring .....                                                     |                                                     |
| ..... LENG Yongbin ZHOU Weimin YUAN Renxian YE Kairong CHEN Yongzhong <i>et al</i> (401)                     |                                                     |
| Beam abort detection of SSRF .....                                                                           | FENG Chenxia ZHOU Weimin LENG Yongbin (405)         |
| The callback mechanism in EPICS at SSRF .....                                                                | MI Qingru LIU Songqiang (411)                       |
| The EPICS-based data acquisition system on beamlines at SSRF .....                                           |                                                     |
| ..... LIU Ping ZHOU Yongnian MI Qingru ZHANG Zhaohong HU Chun <i>et al</i> (415)                             |                                                     |
| Beam profile diagnostics system for SDUV-FEL .....                                                           | XU Yichao HAN Lifeng CHEN Yongzhong (420)           |
| Design of a novel timing system .....                                                                        | LIU Ming YIN Chongxian ZHAO Liying LIU Dekang (425) |
| Development of the electron gun control system of SSRF .....                                                 |                                                     |
| ..... ZHOU Dayong LIN Guoqiang LIU Dekang SHEN Liren (429)                                                   |                                                     |
| Elemental mapping of As and other elements in rootless duckweed <i>Wolffia globosa</i> .....                 |                                                     |
| ..... ZHANG Xin HUANG Qing CHEN Baodong LUO Lei ZHU Yongguan (434)                                           |                                                     |
| Synchrotron SAXS measurements of phospholipids containing phosphatidylethanolamine and linoleic chains ..... |                                                     |
| ..... WANG Liping DAI Congying WANG Jinye (439)                                                              |                                                     |
| Sn-Pb alloy dendritic growth by XRD-enhanced imaging at BSRF .....                                           |                                                     |
| ..... WANG Tongmin XU Jingjing HUANG Wanxia LIU Chengchu CAO Zhiqiang <i>et al</i> (443)                     |                                                     |
| Real-time imaging on secondary dendritic growth behavior of Sn-12%Bi alloy .....                             |                                                     |
| ..... XU Jingjing WANG Tongmin XIE Honglan ZHU Jing XIAO Tiqiao <i>et al</i> (447)                           |                                                     |

### LOW ENERGY ACCELERATOR AND RADIATION APPLICATIONS

|                                                                                                              |                                                                     |
|--------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| Time-frequency feature analysis and recognition of nuclear signals based on HHT and ANN .....                |                                                                     |
| ..... JIN Jing WEI Biao FENG Peng TANG Yuelin ZHOU Mi <i>et al</i> (451)                                     |                                                                     |
| XRD study on $\text{Si}_x\text{Mn}_{1-x}$ diluted magnetic semiconductors prepared by ion implantation ..... |                                                                     |
| ..... PENG Guoliang LI Tiecheng ZHANG Wenyong PENG Ting AI Zhiwei <i>et al</i> (457)                         |                                                                     |
| Numerical calculation for a mini power reactor using MCNP/4B .....                                           |                                                                     |
| ..... JIANG Xinbiao ZHU Yangni GAO Jijin LI Yiguo ZHOU Yongmao (461)                                         |                                                                     |
| Total dose effect of three-terminal regulators .....                                                         | WANG Yiyuan LU Wu REN Diyuan ZHENG Yuzhan GAO Bo <i>et al</i> (465) |
| Gamma-ray relative energy response of Ce:YAG crystal .....                                                   |                                                                     |
| ..... ZHANG Jianhua ZHANG Chuanfei HU Mengchun PENG Taiping WANG Zhentong <i>et al</i> (469)                 |                                                                     |
| Experimental studies on radon dissolution and emission .....                                                 | CHEN Xiang XU Wenping LI Guangyue DING Dexin (473)                  |

### NUCLEAR ELECTRONICS AND INSTRUMENTATION

|                                                                   |                                                  |
|-------------------------------------------------------------------|--------------------------------------------------|
| Calibration circuit for TOF read-out electronics of BES III ..... | FENG Changqing LIU Shubin HUANG Yaqi AN Qi (477) |
|-------------------------------------------------------------------|--------------------------------------------------|
