| Research progress and recommendations on reactor pressure vessel integrity under hypothetical core melt down accident ..... | YAO Yangui NING Dong WU Zhiwei CAO Ming XIE Yongcheng HE Yinbiao YAO Weida (040615) |
| Analysis on the fluid and structure interaction in the control rod drop process .....                                       | LI Peng LIU Tong ZHOU Yuemin YANG Yiren LU Li GUO Yan (040616)                      |
| Influence of steam generator tube gaps on the dynamic characteristics of tubes .....                                        | ZHANG Kai (040617)                                                                  |
| Development of leak rate calculation model and code in piping .....                                                         | YIN Haifeng LIANG Bingbing XU Ning (040618)                                         |
| Research on crack-opening displacement and leak rate prediction of the through-wall crack in LBB design .....               | QIAO Hongwei LI Qi LIU Zhiwei LI Xihua (040619)                                     |
| Simulation of AP1000 reactor coolant pump flow field CFD .....                                                              | XIA Shuan FENG Bin ZHANG Haijun (040620)                                            |
| Numerical study on the valve acoustic resonance behaviors .....                                                             | ZU Hongbiao ZHANG Kai (040621)                                                      |
| Research on acoustic fatigue experimental models of the dryer in steam generators .....                                     | LI Qi ZHANG Kai ZU Hongbiao (040622)                                                |
| Influence of the Taylor vortex on heat transfer of the flow in gaps .....                                                   | QIN Jie (040623)                                                                    |
| CAP1000 integrated head package airflow system fluid field analysis .....                                                   | YU Hao ZHANG Ming FENG Shaodong HAO Guofeng WENG Yu (040624)                        |

Fracture Mechanics and Defect Evaluation

Calculation and evaluation mythology of the flawed pipe and the compute program development .....  
..... LIU Chang LIANG Xingyun QIAN Hao YAO Weida (040625)

Fracture assessment for reactor pressure vessel flaw ..... ZHENG Bin (040626)

Initial plastic failure analysis for nuclear pipeline with internal surface crack .....  
..... LI Tieping ZHANG Chunming MA Shuai (040627)

Local fracture behavior in an Alloy 52M dissimilar metal welded joint in nuclear power plants .....  
..... WANG Haitao WANG Guozhen XUAN Fuzhen TU Shandong LIU Changjun (040628)

Research on structural integral assessment of cylinders with circumference cracks under pressurized thermal shock based on  
probabilistic fracture mechanics ..... LI Yuebing JIN Weiya BAO Shiyi GAO Zengliang LEI Yuebao (040629)

Structure integrity evaluation of AP1000 RPV under PTS .....  
..... WANG Donghui ZHANG Yaping ZHONG Zhimin LI Kai ZHANG Jing (040630)

Influence on off-center TWC on LBB applicability ..... LIANG Bingbing SHI Wang LI Gang (040631)

Off-center crack growth analysis of inner-surface crack pipe ..... QI Tao (040632)

Calculation research of fracture mechanics parameters *KJ* of cracks in elbows .....  
..... ZHOU Jiyun ZHANG Wei LUAN Xingfeng ZHU Guangqiang (040633)

Probability fracture mechanics analysis of plates with surface cracks .....  
..... ZHAO Lei LI Yuebing LEI Yuebao GAO Zengliang (040634)

Remaining strength assessment methodology of cylindrical tubing containing local wall thinning defect .....  
..... TANG Yi WANG Qi SUN Haitao LI Pingren QIAO Wei GUI Chun (040635)

Fatigue Assessment and Monitoring System

Analysis of thermal output of high temperature strain gauge by different measurement methods .....  
..... LIU Zicai YU Danping LI Xihua LU Yanyan CHEN Xuede LI Pengzhou (040636)

Study on the thermal fatigue of tee in the first loop of nuclear reactor ..... HU Lina YU Huajin WANG Yueying (040637)

Fatigue reliability analysis on the interface of the plane head and the barrel .....  
..... CHEN Huiliang YAO Weida CAO Ming HUANG Qing XUE Guohong (040638)

High cycle fatigue analysis of vortex suppression plate and secondary core support structures .....  
..... XUE Guohong LI Yuan ZHAO Feiyun FENG Shadong YU Hao (040639)

Environmentally assistant fatigue analysis for LWR reactor vessel nozzle .....  
..... SHEN Rui CAO Ming HE Yinbiao TAO Hongxin CHEN Meng (040640)

Fatigue status assessment for reactor pressure vessel based on actual operational transient .....  
..... ZHU Guangqiang LIAO Changbin DAI Bing GUI Chun (040641)

Reliability and Failure Analysis

Experimental investigation and ASME code study of creep-fatigue interaction correlation for 316 stainless steel .....  
..... TAN Xiaohui MA Jianzhong LIU Yujie DAI Zhenyu (040642)

Study on the unified constraint parameter for characterizing in-plane and out-of-plane constraint based on the equivalent plastic strain  
..... YANG Jie WANG Guozhen XUAN Fuzhen TU Shandong (040643)

Failure cases of welds between pressure vessel nozzle and main pipe safe-end in high temperature water environments and relevant  
research ..... LI Guangfu (040644)

Study of small sample's high temperature creep behaviors under argon's protection .....  
..... XIE Qingyu LU Daogang QIAN Xin HONG Yang DANG Junjie (040645)

## Computational Mechanics and Stress Analysis

- Study on non-linear analysis technology of reactor internals core barrel alignment plate ..... ZHU Kun CHEN Huiliang YU Hao (040646)
- Stress analysis of passive hydrogen autocatalytic recombiner ..... TANG Yujian NING Qingkun GONG Zhenbang LIU Shubin (040647)
- Finite element analysis of the flange sealing structure in the reactor system ..... LI Yuan HE Yinbiao LIAO Jianhui HUANG Qing SHEN Rui (040648)
- Research on thermal and mechanical behaviour of a Freeze-Valve for molten salt reactor ..... LI Qiming TANG Zhongfeng FU Yuan WANG Naxiu (040649)
- Analysis of temperature field of direct action solenoid valve ..... LIU Qianfeng BO Hanliang WANG Luo (040650)
- Analysis of bearing capacity of CA corner wall in AP1000 nuclear power plant ..... HUO Changsheng LIU Jianwei LI Shaoping (040651)
- Research on the improvement design for the attachment of supports to AP1000 module wall ..... LI Cheng LIU Jianwei SHAN Ying (040652)
- Study on the interaction between embedment and concrete in AP1000 nuclear power plant ..... CHU Yanchun ZUO Shaobing LI Cheng (040653)
- Research of weld residual stress analysis technology of CRDM adapter ..... JIN Ting XU Xiao XIONG Guangming HUANG Tengfei DENG Xiaoyun (040654)
- Assessment method of secondary loop pipe wall thinning due to flow accelerated corrosion in nuclear power plants ..... SHI Shaobo ZHNANG Wei LUAN Xingfeng SUN Yu (040655)
- Optimization design of emergency decay heat removal system for CEFR ..... TANG Long QI Ming YU Huajin LIU Jia (040656)
- Research on definition of hard rock shear wave velocity of site for nuclear power plant ..... DING Zhenkun XIA Zufeng (040657)
- Research on working property and early age mechanical property of self-compacting concrete used in steel-concrete structure ..... ZHAO Yongguang (040658)
- Stress analysis and assessment of RPV core support pads and surround bottom head ..... GAO Yongjian HE Yinbiao CAO Ming SHEN Rui TAO Hongxin (040659)
- Analysis program for SCV penetration ..... SONG Yu TIAN Zhenqiang CAI Kun (040660)
- Finite element analysis of irradiation-induced dilation of the fuel subassembly duct in LMFBR ..... GAO Fuhai FU Hao LI Nan YANG Kongli WANG Mingzheng (040661)
- Study on the temperature and stress field of steel concrete modular wall ..... YE Zhiyan LIU Jianwei GE Honghui (040662)
- OLP embedment design method research for AP1000 nuclear plant ..... LI Cheng LI Shaoping LIU Jianwei (040663)
- Study on lifting of large structure module in AP1000 nuclear power plant ..... ZUO Shaobing CHU Yanchun YE Zhiyan (040664)

## Structural Dynamics Analysis

- Drop impact analysis method of radioactive material container ..... LI Hailong SUN Zaozhan SUN Shuhai XU Yu (040665)
- Stepping movement analysis of control rod drive mechanism ..... XU Yantao ZU Hongbiao (040666)
- Analysis of effect to reactor cavity structure by steam explosion outside the reactor ..... GOU Hongliang (040667)
- Dynamic analysis of the DN350 squib valve shear cap ..... ZHOU Shaochong (040668)
- Acoustic-structure coupling scaling laws for model test based steam dryer acoustic fatigue derivations ..... ZHANG Kai (040669)
- Evaluation of reactor structural function during core drop accident ..... FENG Shaodong ZHANG Ming ZHU Kun XUE Guohong LI Yuan CHEN Huiliang (040670)
