Influence of Freeze–thaw Cycles on Physical Characteristics of Air–foam Treated Lightweight Soil	ZHOU Yundong et al(198)
Consolidation of Gravel Pile Composite Foundation Considering the Soil Nonlinearity under Variable Load	LI Yucheng(204)
Influence Factors of Secondary Consolidation Coefficient on Soft Clay	YUAN Mingyue et al(210)
High Gravity Similar Material of Triaxial Compression Test Based on Orthogonal Design	
.....	MA Rongrong et al(215)
Finite Element Analysis for Seismic Behavior of Steel Columns	HU Xinyu WANG Bin(222)
Evolution of Pore Structure and Mechanical Properties of Cement Paste under Freeze–thaw Cycles	QIN Sainan et al(227)

• Transportation Science and Environmental Science •

Application of AHP–fuzzy Comprehensive Evaluation Method to Slope Risk Assessment of Mountain and Hilly Highway	LIU Yangyang et al(237)
Train Driving Resistance in the Tunnel in Permafrost Region	GOU Shengrong WU Yaping(245)
Grain Size Characteristics of Floodplain Sediments in Lower Lishui River and Its Environmental Implication	FENG Wanzhu et al(251)
Air Pollution Characteristics During Winter Heating Period in Northern Shaanxi Province	
.....	YANG Fei et al(257)

• Management Science •

Evaluation of the Agricultural Circular Economy in Henan Province	MA Qiaoyun et al(264)
Dynamic Game and Equilibrium Analysis of Carbon Trading	SONG Jiekun et al(270)
Approach on Open and Cooperation of the Zheng–Luo–Xin National Innovation Demonstration Area	SHEN Xiangdong et al(278)
Risk Assessment of Equity–based Crowdfunding Based on Random Forests	
.....	WANG Wenyin GUO Pengbo(283)
Analysis of Industrial Development Network of West Coast New Area Based on RAA Model	
.....	ZHANG Zaixu et al(290)
