

璀璨之星

2011 年度中国工程机械服务 50 强
评选活动榜单

一份榜单、50家企业，
呈献的是中国工程机械
服务领域最具实力的群体，
他们身上寄托着和承载着
无数工程机械用户的信任。

BICES/IVEX 2011 Equipment Feast in Golden Autumn

2011 is the first year of “Twelfth Five” plan and this year is bound to the highly expected. In 2011, China’s construction machinery industry is doomed to be mentally disturbed. After two years of careful preparation, BICES/IVEX 2011 held in Beijing as scheduled in October 2011. As the largest and most influential construction machinery exhibition in Asia-Pacific region this year, there were 1 200 exhibitors in all. This has made the BICES/IVEX 2011 become the pageant, with the maximum exhibitors, most comprehensive and largest one. The BICES/IVEX 2011 hold the concept of “Green Revolution, Lifting Future” exhibitors from the international giants to the national vanguard, exhibits from the whole series machine to full spare parts, regardless of the type of product or product technology. In response to the trend of energy saving, at the same time, it also has shown the latest trends and development results of global construction machinery industry market.

The Dazzling Star

——2011 Top 50 Serve Company in Chinese Construction Machinery

This contest about “2011 Top 50 Serve Company in Chinese Construction Machinery” has received strong support from industry departments, industry associations, companies, experts, users and medias. The award-winning list has been announced in 9th Marketing Summit Forum of China Construction Machinery and Annual Meeting of DCCCM 2011 held on October 2011 in Beijing. One list and fifty faces, what they present are the most powerful groups of China construction machinery services. They are carrying the trust of countless users of construction machinery. The Chinese construction machinery market can’t be dazzling like today without their dedication. In the largest construction machinery market worldwide, everyone on the chain is describing a sincere, motive and inviting story between people and between enterprises.

Lend You Bright Eyes to Distinguish the Types of Breaker

Breaker models generally consist of letters and numbers, which agents and users are very concerned with. What can it tell us exactly? And what does the figure of model mean? All these issues, even if the manufacturers themselves have not describe it clearly in the manual, and many sales staff and agents also do not know the meaning. Now, let’s take it first about the Breaker’s model number and the meaning of the figures involved, and also to rediscover the indispensable partner in construction machinery industry.
