## · 采矿工程 ·

|                                              |     |     |     |   |      |
|----------------------------------------------|-----|-----|-----|---|------|
| 考虑粒径分级的珲春露天矿排土场扩容稳定性分析 .....                 | 张建华 | 帅宝林 | 刘方芳 | 等 | (1)  |
| 三鑫金铜矿复杂充填体下留设护壁回采优化研究 .....                  | 李桃源 | 张聪瑞 | 帅金山 | 等 | (6)  |
| 进路式开采充填后破坏特征的相似模拟试验 .....                    | 月福财 | 陈新  | 钟文  | 等 | (13) |
| 平硐溜井系统矿石运动状态及井壁破坏数值模拟 .....                  | 叶海旺 | 赵昀  | 欧阳视 | 等 | (18) |
| 不同保载时间实验的花岗岩声发射特性研究 .....                    | 王强  | 冯夏庭 | 李元辉 |   | (23) |
| 铜绿山矿深部矿床上向分层开采采场结构参数优化 .....                 | 徐楠  | 梅志恒 | 余仁兵 | 等 | (29) |
| 麦坝矿区铝土矿采矿方法优化及应用 .....                       |     | 刘建龙 | 赵江东 |   | (33) |
| 岩体力学参数确定的 GA-FLAC <sup>3D</sup> 位移反演方法 ..... | 姜光成 | 胡乃联 | 林成浩 | 等 | (37) |
| 西藏甲玛铜矿全尾砂膏体充填料浆流变特性研究 .....                  | 马浩吉 | 王贻明 | 王元青 | 等 | (42) |
| 毛公铁矿大结构参数无底柱分段崩落法多分段放矿实验 .....               | 常贯峰 | 路增祥 | 常帅  | 等 | (48) |
| 拜什塔木铜矿破碎软岩巷道的锚喷支护技术 .....                    | 张小刚 | 于少峰 | 周发陆 | 等 | (52) |

## · 矿物工程 ·

|                                   |     |     |     |   |       |
|-----------------------------------|-----|-----|-----|---|-------|
| 低品位铁矿石内配煤球团的回转窑脱水工艺研究 .....       | 黄柱成 | 王林  | 易凌云 | 等 | (57)  |
| 餐饮废油制备 JZQ-F 捕收剂反浮选赤铁矿石试验研究 ..... | 于慧梅 | 王化军 | 孙传尧 |   | (64)  |
| 铁离子淀粉配合物在某铁矿石反浮选中的抑制行为及机理 .....   | 伍喜庆 | 王志熙 | 岳涛  |   | (70)  |
| 马钢罗河铁矿磁选铁精矿降硫试验 .....             | 吴新义 | 蔡顺贵 | 丁开振 |   | (75)  |
| 藏东某低品位铜铅矿石选矿试验 .....              |     | 练强  | 陈飞  |   | (78)  |
| 某细—微细粒嵌布的硫化铜矿石浮选试验 .....          |     | 陈水波 |     |   | (83)  |
| 广西某复杂铜铅锌多金属硫化矿石选矿试验 .....         | 徐会华 | 蔡振波 | 林榜立 |   | (87)  |
| 青海某低品位复杂难选铅锌矿石选矿试验 .....          | 翟旭东 | 李洁  | 王重阳 | 等 | (93)  |
| 提高甘肃某铅锌矿选铅回收率试验 .....             | 彭会清 | 别雪祥 | 吴迪  |   | (99)  |
| 新疆某白钨矿石选矿试验 .....                 | 左珍新 | 王洪岭 | 高玉德 |   | (103) |
| 云南某稀土矿石工艺矿物学研究 .....              | 李明晓 | 王刚  |     |   | (108) |
| 灵宝某金矿石工艺矿物学研究 .....               | 刘璐  | 王守敬 | 卞孝东 |   | (112) |
| 硫化铜矿石选矿技术进展 .....                 | 王浩林 | 王礼平 | 王强强 | 等 | (116) |
| 明矾石综合利用技术研究进展 .....               | 旷戈  | 李付杰 | 刘瑜  | 等 | (122) |

## · 地质与测量 ·

|                                 |     |     |     |   |       |
|---------------------------------|-----|-----|-----|---|-------|
| 西藏多不杂一波龙矿集区铜矿床地质特征及找矿预测模型 ..... |     | 黄德晶 |     |   | (127) |
| 矿区地表非连续变形边界提取算法 .....           | 胡晋山 | 康建荣 | 王永香 | 等 | (132) |

## · 安全与环保 ·

|                             |     |     |     |   |       |
|-----------------------------|-----|-----|-----|---|-------|
| 煤矿老采空区上方高速公路建设场地稳定性评价 ..... | 杨锋  | 郭广礼 | 万战胜 | 等 | (137) |
| 露天矿土地复垦考核评价方法及应用 .....      | 崔柳  | 王瑞国 | 徐立升 |   | (145) |
| 某矿地下开采对地表公路安全影响分析 .....     | 雷明  | 潘冬  | 刘杰  |   | (152) |
| 无风墙机房的有效风压测试及数值模拟 .....     | 王文才 | 赵晓坤 | 张志浩 | 等 | (156) |
| 化学活性生物法处理稀土氨氮废水中试研究 .....   | 黄万抚 | 邹志强 | 胡雪飞 | 等 | (162) |

## · 机电与自动化 ·

|                                       |     |     |     |   |       |
|---------------------------------------|-----|-----|-----|---|-------|
| 金属露天矿旋回式破碎机在线故障诊断模型构建与实时分析 .....      | 顾清华 | 田晶晶 | 卢才武 | 等 | (167) |
| 露天矿运输调度问题求解的自适应果蝇优化算法 .....           | 苏楷  | 门飞  |     |   | (172) |
| 基于 Android 操作系统的数字矿山信息管理系统开发与应用 ..... | 赵林  | 肖彩霞 |     |   | (177) |
| 甘肃小铁山矿生产数据集成系统开发与应用 .....             | 王自敏 | 何柏青 |     |   | (184) |

## · 综合利用 ·

|                                       |    |     |     |   |       |
|---------------------------------------|----|-----|-----|---|-------|
| 菱镁矿尾矿酸浸动力学研究 .....                    | 滕青 | 冯雅丽 | 马英  |   | (189) |
| 钢渣尾泥和电炉渣中磷的赋存状态 EPMA 分析 .....         | 吴乐 | 张娜  | 李宏煦 | 等 | (194) |
| 用 DL-411 改性的某含钒页岩提钒渣填充聚丙烯制备复合材料 ..... | 卢敏 | 陈铁军 | 张一敏 | 等 | (200) |
| 铜渣资源化利用技术现状 .....                     |    | 赖祥生 | 黄红军 |   | (205) |

# CONTENTS

|                                                                                                                                     |                                                      |       |
|-------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|-------|
| Stability Analysis of the Expanded Dump of Hunchun Open-pit Mine in Considering the Size Grading                                    | <i>Zhang Jianhua Shuai Baolin Liu Fangfang et al</i> | (1)   |
| Optimization Study of Retaining Wall Mining Scheme Under the Complex Back-fill in Sanxin Gold and Copper Mine                       | <i>Li Taoyuan Zhang Congrui Shuai Jinshan et al</i>  | (6)   |
| Failure Characteristics of Filling Body in Roadway Drift Stoping Method Based on Similar Simulation Test                            | <i>Yue Fucui Chen Xin Zhong Wen et al</i>            | (13)  |
| Numerical Simulation on the Motion of Ore and the Damage of Shaft Wall in Chute System of an Adit                                   | <i>Ye Haiwang Zhao Yun Ouyang Jian et al</i>         | (18)  |
| Study on the Acoustic Emission Characteristics of Granite in Different Holding Time                                                 | <i>Wang Qiang Feng Xiating Li Yuanhui</i>            | (23)  |
| Optimization of Stope Structural Parameters of Upward Layered Mining in Deep Mineral Deposits in Tonglushan Mine                    | <i>Xu Nan Mei Zhiheng Yu Renbing et al</i>           | (29)  |
| Mining Method Optimization and Application of Bauxite in Maiba Mining Area                                                          | <i>Liu Jianlong Zhao Jiangdong</i>                   | (33)  |
| Determination of Rock Mass Mechanical Parameters Based on GA-FLAC <sup>3D</sup> Displacement Back Analysis                          | <i>Kang Kuangsong Hu Nailian Rim Songho et al</i>    | (37)  |
| Research of Rheological Properties of Unclassified Tailings Paste Slurry in Tibet Jiama Copper Mine                                 | <i>Ma Haoji Wang Yiming Wang Yuanqing et al</i>      | (42)  |
| Multi-sublevel Ore Drawing Test of Non-pillar Sublevel Caving Method with Large Structural Parameters in Maogong Iron Mine          | <i>Chang Guanfeng Lu Zengxiang Chang Shuai et al</i> | (48)  |
| Bolting and Shotcreting Technique for Fractured-soft Roadway Support Technology in Baishitamou Copper Mine                          | <i>Zhang Xiaogang Yu Shaofeng Zhou Falu et al</i>    | (52)  |
| Rotary Kiln Dehydration Process of Carbon Pellets of Low Grade Iron Ore                                                             | <i>Huang Zhucheng Wang Lin Yi Lingyun et al</i>      | (57)  |
| Preparation of JZQ-F Collector with Hogwash Oil in Reverse Flotation Tests of Hematite                                              | <i>Yu Huimei Wang Huajun Sun Chuanyao</i>            | (64)  |
| Study on Depressing Effect and Mechanism of Ferric-starch Complex in Reverse Flotation of an Iron Mine                              | <i>Wu Xiqing Wang Zhixi Yue Tao</i>                  | (70)  |
| Sulfur Reduction Test of Magnetite Concentrate in Masteel Luohe Iron Mine                                                           | <i>Wu Xinyi Cai Shungui Ding Kaizhen</i>             | (75)  |
| Experimental Study on Beneficiation Test of Low-grade Copper-molybdenum Ore in Eastern Tibet                                        | <i>Lian Qiang Chen Fei</i>                           | (78)  |
| Flotation Test for a Copper Sulphide Ore with Fine and Micro-fine Dissemination                                                     | <i>Chen Shuibo</i>                                   | (83)  |
| Experimental Research on Beneficiation Technology of a Complex Copper-lead-zinc Ore in Guangxi                                      | <i>Xu Huihua Cai Zhenbo Lin Bangli</i>               | (87)  |
| Experimental Research on Beneficiation of a Low Grade Complex Lead-zinc Ore in Qinghai                                              | <i>Zhai Xudong Li Jie Wang Chongyang et al</i>       | (93)  |
| Test of Lead Recovery Improvement for a Lead-zinc Mine in Gansu                                                                     | <i>Peng Huiqing Bie Xuexiang Wu Di</i>               | (99)  |
| Mineral Processing Experiments on a Scheelite Ore in Xinjiang                                                                       | <i>Zuo Zhenxin Wang Hongling, Gao Yude</i>           | (103) |
| Study on the Processing Mineralogy of Rare Earth Ore in Yunnan                                                                      | <i>Li Mingxiao Wang Gang</i>                         | (108) |
| Study on Process Mineralogy of a Gold Ore From Lingbao                                                                              | <i>LiuLu Wang Shoujing Bian Xiaodong</i>             | (112) |
| Advances in Beneficiation Technology of Copper Sulfide Ore                                                                          | <i>Wang Haolin Wang Liping Wang Qiangqiang et al</i> | (116) |
| Research Progress on the Comprehensive Utilization of Alunite                                                                       | <i>Kuang Ge Li Fujie Liu Yu et al</i>                | (122) |
| Prospecting Prediction Model and Geological Characteristics of the Copper Deposit in Duobuza-Bolong Ore Concentration Area in Tibet | <i>Huang Dejing</i>                                  | (127) |
| Extraction Algorithm of the Surface Discontinuous Deformation Boundary in Mining Area                                               | <i>Hu Jinshan Kang Jianrong Wang Yongxiang et al</i> | (132) |
| Stability Evaluation of the Expressway Construction Site on the Old Goaf of Coal Mine                                               | <i>Yang Feng Guo Guangli Wan Zhansheng et al</i>     | (137) |
| Assessment Method and Application for Land Reclamation in Open Pit Mine                                                             | <i>Cui Liu Wang Ruiguo Xu Lisheng</i>                | (145) |
| Safety Impact Analysis of Underground Mining in a Mine on the Surface Highway                                                       | <i>Lei Ming Pan Dong Liu Jie</i>                     | (152) |
| Effective Pressure Test and Numerical Simulation of Ventilation Station without Wind Wall                                           | <i>Wang Wencai Zhao Xiaokun Zhang Zhihao et al</i>   | (156) |
| Pilot-scale Study of Rare-earth Ammonia-nitrogen Wastewater Treatment by Chemical Reactivity of Biological Process                  | <i>Huang Wanfu Zou Zhiqiang Hu Xuefei et al</i>      | (162) |
| On-line Fault Diagnosis Model Construction and Real-time Analysis of Rotary Crusher in Metal Open-pit Mine                          | <i>Gu Qinghua Tian Jingjing Lu Caiwu et al</i>       | (167) |
| Adaptive Fruit Fly Optimization Algorithm for Solving Open-pit Hauling Dispatching Optimization Problem                             | <i>Su Kai Men Fei</i>                                | (172) |
| Development and Application of Digital Mine Information Management System Based on Android Operating System                         | <i>Zhao Lin Xiao Caixia</i>                          | (177) |
| Design and Application of Integration System of Production Data in Xiaotieshan Copper Mine in Gansu                                 | <i>Wang Zimin He Baiqing</i>                         | (184) |
| Acid Leaching Kinetics of Magnesite Tailings                                                                                        | <i>Teng Qing Feng Yali Ma Ying</i>                   | (189) |
| Electron Probe Micro Analysis (EPMA) on Occurrence Mode of Phosphorus in Steel Slag Mud and Electric Furnace Slag                   | <i>Wu Le Zhang Na Li Hongxu et al</i>                | (194) |
| Preparation of Polypropylene Composites by Filling with Vanadium Tailing Modified by DL-411 from a Vanadium Shale                   | <i>Lu Min Chen Tiejun Zhang Yimin et al</i>          | (200) |
| Current Status of the Comprehensive Utilization Technology of Copper Slag                                                           | <i>Lai Xiangsheng Huang Hongjun</i>                  | (205) |
