# 军事运筹与评估

2023 年 6 月第 38 卷第 3 期 总第 146 期

## 目 次

### 专栏——净评估研究

|                                           |                 |    |
|-------------------------------------------|-----------------|----|
| 向马歇尔学什么：净评估与战略评估                          | 张利亭             | 5  |
| 净评估：一种高度综合与应用广泛的诊断术——浅谈净评估在军事<br>科研创新中的应用 | 易评估             | 13 |
| 基于技术净评估思想的国防科技评估框架探索                      | 郭秋怡 高云翔 李文娟 陈国玖 | 19 |

### 专栏——体系贡献率评估

|                             |                |    |
|-----------------------------|----------------|----|
| 重大项目体系贡献率评估总体设计与流程方法研究      | 陈小阳 李福荣 付勇 秦国保 | 24 |
| 装备体系贡献率的度量与评估方法             | 卜广志 毛昭军        | 29 |
| 基于 MMF-OODA 框架的体系赋能指标生成方法研究 | 姜晓辉 黄炎焱 朱江 方冰  | 34 |

### 战略评估

|                       |          |    |
|-----------------------|----------|----|
| 基于战略博弈推演的军力评估         | 郭健 王磊 柴华 | 40 |
| 运用“大数据+”提高军队战略评估的“五性” | 孙梦男 夏文祥  | 48 |

---

---

### 军事运筹方法与实践

- 面向训练能力的防空反导数字孪生系统研究 孙智勇 史春娟 52  
海警舰艇在岛礁维权中警告射击的火力运用  
孟大禹 傅学庆 胡江 余家祥 57  
基于熵权 TOPSIS-GA 方法的弹炮结合防空武器优化配置模型  
杨志宏 王凤山 高增 64
- 

### 军事建模与仿真

- 基于探索性分析的反跑道炸弹打击机场跑道仿真实验研究  
刘学 王俊 69
- 

### 军事系统工程理论与实践

- 国防工业供应链风险管理的国际经验 刘韵琦 陈波 74
- 

### 信息与动态

- 《军事运筹与评估》稿约 封二  
《军事运筹学》新书推介 封三

## CONTENTS

|                                                                                                                                 |                                                   |    |
|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|----|
| What to Learn from Marshall: Net Assessment and Strategic Assessment .....                                                      | ZHANG Liting                                      | 5  |
| Net Assessment: A Highly Comprehensive and Widely Used Diagnostic Technique .....                                               | YI Pinggu                                         | 13 |
| Exploration of National Defense Science and Technology Assessment Framework Based on Technology Net<br>Assessment Thought ..... | GUO Qiuyi, GAO Yunxiang, LI Wenjuan, CHEN Guojiu  | 19 |
| A Study on the General Design and Process of SoS Contribution Rate Assessment of Major Projects<br>.....                        | CHEN Xiaoyang, LI Furong, FU Yong, QIN Guobao     | 24 |
| A Study on the Measurement and Assessment Method of SoS Contribution Rate<br>.....                                              | BU Guangzhi, MAO Zhaojun                          | 29 |
| A Study on Indicators Generation by Systems Empowerment Based on MMF-OODA Framework<br>.....                                    | JIANG Xiaohui, HUANG Yanyan, ZHU Jiang, FANG Bing | 34 |
| Military Strength Assessment Based on Strategic Game Deduction .....                                                            | GUO Jian, WANG Lei, CHAI Hua                      | 40 |
| Using “Big Data+” Analysis to Improve the Five Aspects of the Military Strategic Assessment<br>.....                            | SUN Mengnan, XIA Wenxiang                         | 48 |
| A Study on Air Defense and Antimissile Digital Twin System for New Quality Training Capability<br>.....                         | SUN Zhiyong, SHI Chunjuan                         | 52 |
| A Study on the Fire Power Utilization Problem of the Coast Guard Vessels in the Rights Warning Shot<br>.....                    | MENG Dayu, FU Xueqing, HU Jiang, YU Jiaxiang      | 57 |
| Optimal Configuration of Air Defense Weapons Based on Entropy Weighted TOPSIS-GA Model Algorithm<br>.....                       | YANG Zhihong, WANG Fengshan, GAO Zeng             | 64 |
| A Study on Simulation Experiment of Using Anti-runway Bombs to Strike Airfield's Runway Based on<br>Exploratory Analysis .....  | LIU Xue, WANG Jun                                 | 69 |
| International Experience of Supply Chain Risk Management in National Defense Industry<br>.....                                  | LIU Yunqi, CHEN Bo                                | 74 |
