SPLENDOR GAUGE

国际领先激光测径仪制造商

更精确 更稳定 更适用

激光外径测试仪

内径孔径测试仪

超细线材高精度外径测试仪

线材表面缺陷测试仪

异形线材测量仪

高频火花机

温度传感器系列

LMDD-50A 模具孔径测量仪

- 1 Numerical simulation of wheel and rail contact based on the vector form analysis method SHEN Ying-ying, WEN Ze-feng, WANG Heng-yu
- 6 Research on the impactor's modal analysis based on FEA SUN Yong-fei, JING Zuo-jun
- 9 Strength assessment for bogie frame based on UIC standard LI Bao-ru, ZHAO Yong-xiang
- 13 Five-axis nc machining simulation and optimize based on VERICUT SUN Hui-feng, CAI An-jiang, ZHAO Liang, et al.
- 17 Theoretical calculation of initial pressure of MT-2 draft gear MA Lei, WANG Zi-li
- 21 Research on model of tapered roller bearing based on FEA CHEN Zhen
- 25 The Temperature Acquisition System of ethernet based on LABVIEW and ARM ZHOU Jian, ZHANG Yan-rong
- 29 Research on configuration of screw conveyor for earth pressure balance shield LI Wen-rong
- 34 Evaluation of organizational structure for centralized control of hydropower station cluster based on wavelet neural network SHI Tao
- 39 Research and application on BSC based strategic performance evaluation of hydroelectric enterprises QIU Hong-zhi, LIU Sheng, KANG Shuang-xi
- 44 Research on evaluation of training effect for the trainee with rough set theory WEN Ying, LIU Sheng
- 50 Simulation analysis of forming process and spring-back for automotive B-column structural reinforcement panel based on AutoForm software SHAO Shi-chao, XIE Feng
- 54 Top-down design of high temperature muffler based on the Pro/E YIN Guo-mu, SHEN Jing-hu, LI Jian-peng, et al.
- 58 Based on the ANSYS gantry machine finite element analysis ZHAO Ya-nan, GENG Qing-bo, WANG Shao-wei
- 62 Modeling and simulation of MacPherson suspension based on ADAMS/CAR LIU Wei, LI Jian, WANG Jin-yang
- 65 The design of hydraulic system for device for rail derusting GENG Xiao-ming, TAN Liang, GONG Bang-ming
- 68 Theory of new double acting variable vane pump WANG Ma-lin, TANG Kun, HAO Yue-yue, et al.
- 71 Design and application of the control system for laser shock forming WANG Wen
- 75 The research and simulation of the position control of bending line based on CCD and Fuzzy PID SHAO Fei, WANG Jie, FU Xian-wu, et al.
- 78 Design of roundness measuring instrument auxiliary tooling ZHANG Qi-lian, WANG Jie, Pu Jing-qiu
