## 目 次

### 雷达微多普勒分析技术专题

专题主编: 张 群 李 刚

- 微动目标雷达特征提取、成像与识别研究进展..... 张 群, 胡 健, 罗 迎, 陈怡君 (531)
- 基于RID序列的微动目标高分辨三维成像方法..... 惠 叶, 白雪茹 (548)
- 基于双雷达微动特征融合的无人机分类识别..... 章鹏飞, 李 刚, 霍超颖, 殷红成 (557)
- 基于卷积神经网络的海上微动目标检测与分类方法..... 苏宁远, 陈小龙, 关 键, 牟效乾, 刘宁波 (565)
- 基于跟踪脉冲的MIMO雷达多目标微动特征提取..... 罗 迎, 龚逸帅, 陈怡君, 张 群 (575)
- 数字电视外辐射源雷达多旋翼无人机微多普勒效应实验研究.....  
..... 刘玉琪, 易建新, 万显荣, 程 丰, 饶云华, 龚子平 (585)
- 正弦调频Fourier-Bessel变换及其在微动目标特征提取中的应用.....  
..... 何其芳, 张 群, 罗 迎, 李开明 (593)

### 论 文

- 用于SAR与通信一体化系统的滤波器组多载波波形..... 朱柯弘, 王 杰, 梁兴东, 吴一戎 (602)
- 一种基于Dropout约束深度极限学习机的雷达目标分类算法..... 赵飞翔, 刘永祥, 霍 凯 (613)
- 基于FCNN和ICAE的SAR图像目标识别方法..... 喻玲娟, 王亚东, 谢晓春, 林 赟, 洪 文 (622)

### 学术信息

- “雷达海上目标探测”专题征文通知..... (632)
- “微波光子雷达”专题征文通知..... (632)
- 《雷达学报》“2015 年度高被引论文、2017-2018 年度优秀审稿专家”发布..... (封二)
- 第二届“地面雷达复杂电磁环境效应研究”培训研讨班通知..... (封三)

# JOURNAL OF RADARS

## CONTENTS

### Special Topic Papers: Radar Micro-Doppler Analysis Technology

Guest Editor: Zhang Qun Li Gang

|                                                                                                                          |       |
|--------------------------------------------------------------------------------------------------------------------------|-------|
| Research Progresses in Radar Feature Extraction, Imaging, and Recognition of Target with Micro-motions. ....             |       |
| ..... Zhang Qun, Hu Jian, Luo Ying, Chen Yijun                                                                           | (531) |
| RID Image Series-based High-resolution Three-dimensional Imaging of Micromotion Targets. ....                            |       |
| ..... Hui Ye, Bai Xueru                                                                                                  | (548) |
| Classification of Drones Based on Micro-Doppler Radar Signatures Using Dual Radar Sensors. ....                          |       |
| ..... Zhang Pengfei, Li Gang, Huo chaoying, Yin hongcheng                                                                | (557) |
| Detection and Classification of Maritime Target with Micro-motion Based on CNNs. ....                                    |       |
| ..... Su Ningyuan, Chen Xiaolong, Guan Jian, Mou Xiaoqian, Liu Ningbo                                                    | (565) |
| Multi-target Micro-motion Feature Extraction Based on Tracking Pulses in MIMO Radar. ....                                |       |
| ..... Luo Ying, Gong Yishuai, Chen Yijun, Zhang Qun                                                                      | (575) |
| Experimental Research on Micro-Doppler Effect of Multi-rotor Drone with Digital Television Based Passive Radar. ....     |       |
| ..... Liu Yuqi, Yi Jianxin, Wan Xianrong, Cheng Feng, Rao Yunhua, Gong Ziping                                            | (585) |
| A Sinusoidal Frequency Modulation Fourier-Bessel Transform and its Application to Micro-Doppler Feature Extraction. .... |       |
| ..... He Qifang, Zhang Qun, Luo Ying, Li Kaiming                                                                         | (593) |

### Papers

|                                                                                                          |       |
|----------------------------------------------------------------------------------------------------------|-------|
| Filter Bank Multicarrier Waveform Used for Integrated SAR and Communication Systems. ....                |       |
| ..... Zhu Kehong, Wang Jie, Liang Xingdong, Wu Yirong                                                    | (602) |
| A Radar Target Classification Algorithm Based on Dropout Constrained Deep Extreme Learning Machine. .... |       |
| ..... Zhao Feixiang, Liu Yongxiang, Huo Kai                                                              | (613) |
| SAR ATR Based on FCNN and ICAE. ....                                                                     |       |
| ..... Yu Lingjuan, Wang Yadong, Xie Xiaochun, Lin Yun, Hong Wen                                          | (622) |

### Academic Information

|                                                                                            |                      |
|--------------------------------------------------------------------------------------------|----------------------|
| Call for Papers of Radar Marine Target Detection. ....                                     | (632)                |
| Call for Papers of Microwave Photonics Radar. ....                                         | (632)                |
| Highly Cited Papers Published in 2015, and Excellent Peer Reviewer from 2017 to 2018. .... | (Inside Front Cover) |
| Call for Papers of 2018 National Symposium on Complex Electromagnetic Environment. ....    | (Inside Back Cover)  |
