|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 201801 | A review on mechanisms and models for very-high-cycle fatigue of metallic materials<br><i>HONG Youshi, SUN Chengqi, LIU Xiaolong</i> ..... 1                                                                            | 1   |
| 201802 | Study on cyclic deformation and fatigue of thermal and magnetic shape memory alloys<br><i>KANG Guozheng, KAN Qianhua, YU Chao, SONG Di</i> ..... 66                                                                     | 66  |
| 201803 | Aerothermal dynamic failure of infrared window in high-speed aircraft<br><i>E Yujia, WANG Tianyu, GAO Ge, GENG Fangjuan, AI Junqiang, HAN Jiecai, ZHU Jiaqi</i> ..... 148                                               | 148 |
| 201804 | Indentation tests investigation of mechanical behavior of two-dimensional materials<br><i>ZHOU Lixin, CAO Guoxin</i> ..... 212                                                                                          | 212 |
| 201805 | Research progress on hydrodynamics of high speed vehicles in the underwater launching process<br><i>WANG Yiwei, HUANG Chenguang</i> ..... 259                                                                           | 259 |
| 201806 | Applications and developments of aeroelasticity of flexible structure in flow controls<br><i>ZHANG Jiazhong, LIU Yan, SUN Xu, CHEN Jiahui, WANG Le</i> ..... 299                                                        | 299 |
| 201807 | Engineering mechanical-electrical cell microenvironment in myocardium using advanced biomaterials<br><i>XU Feng, ZHANG Xiaohui, BAO Xuejiao, ZHAO Guoxu, LIU Fusheng, HUANG Guoyou, LI Yuhui, LU Tianjian</i> ..... 320 | 320 |
| 201808 | The mechanical problems in tumor and tumor microenvironment<br><i>SHI Xinghua, ZHANG Luyao, LI Bo, FENG Xiqiao</i> ..... 360                                                                                            | 360 |
| 201809 | Biomechanics in cartilage tissue engineering<br><i>ZHANG Chunqiu, LI Ke, GAO Lilan, ZHANG Xizheng</i> ..... 410                                                                                                         | 410 |
| 201810 | Undulation force between membranes<br><i>LI Long, SONG Fan</i> ..... 438                                                                                                                                                | 438 |
| 201811 | AFM force spectroscopy and its applications on micro biomechanics<br><i>GE Lin</i> ..... 461                                                                                                                            | 461 |
| 201812 | Measurement techniques of grain motion and inter-grain structures in dense granular materials<br><i>YANG Hui, ZHANG Guohua, WANG Yujie, SUN Qicheng</i> ..... 541                                                       | 541 |
