Sponsored by Sinosteel Luoyang Institute of Refractories Research Co., Ltd. (LIRR), established in 1966, Naihuo Cailiao (Refractories) is the only technical journal in Chinese in China's refractories industry that reports current situations of the R & D, production and application of refractories in China together with the development status and trend of refractories science and technology abroad. Naihuo Cailiao is published bimonthly and distributed both at home and abroad with the annual distribution circulation of about 20 thousand copies.

Naihuo Cailiao also affords space for advertisement which is beneficial to the manufacturers and users home and abroad to establish connection between them, to promote production and sales and especially help foreign companies share China's market.
