New Energy Automobile

- Matching and Development of Power System for Plug-in Hybrid Passenger Car Zhao Min, Hu Jiancheng, et al (3)
 Analysis of the power assembly suspension system bracket structure for light-trucks based on ANSYS workbench
 Zhao Wenhui, Yang Junfeng, et al (7)
 Topology optimization design of the new energy automobile frame structure Wang Shengyong, Zhou Meijuan, et al (10)
 Research on an On-board Charger Song Wuqiang (12)

Smart Network Automobile

- Research of FCW Evaluation Method Based on V2X Technology Zhang Disi, Zu Hui, et al (14)
 Application of detection radar in license plate recognition Dong Daming (19)
 Research on Vehicle Operation Management target V2V Data Optimization Based on Vehicle tracking Yin Qian (22)

Testing and Experiment

- A McPherson Suspension Analysis Based on K&C Characteristics Huang Zhe, Zhang Tianyu, et al (27)
 Finite Element Modeling Method for Truck Leaf Spring Bracket Nie Chenggang, Bai Suqiang, et al (30)
 Heat Transfer Analysis of Gasoline Engine Piston Wang Zhanzhan, An Yuhuan, et al (33)
 Analysis of Rollover Stability of a Passenger Car Zhao Zhijun, Zhang Tianyu, et al (36)
 Research on optimization of driving fatigue prediction model based on Random Forest Ye Jianfang, Liu Qiang, et al (39)
 Limiting Seat Belt Failure Analysis and Improved Design Ji Huiyan (44)
 The heavy-duty vehicle shift synchronization process modeling and simulation analysis Wu Mingda, Hao Baolan (47)
 Experimental study on fuel consumption and emission of a GDI Engine with Twice Injection Strategy Zhang Wei, He Bo, et al (49)
 Simulation analysis of Engineering vehicle seat suspension based on MATLAB/Simulink Zhang Liping, Li Zhengpeng, et al (52)
 A distribution of automobile wiring harness and reliability research Liu Wen, Zhao Xiaoyang, et al (55)
 Estimated cost model of leaf spring Du Xiaojian, Du Li, et al (57)
 Method and Application of Static Shift Force Detection for Mechanical Transmission Bearing Han Jiang, Luo Yang, et al (60)
 Analysis of the Headwater Flooding of a Heavy Truck Headlamp and Its Solutions Hu Xiaofeng, Wang Ting, et al (62)
 Brief Discussion on Regenerative Braking Energy Recovery Technology Jin Yongyan, Zhang Wei (65)
 The Heavy Off-road Vehicle's Suspension Parameters Optimization Base on Ride Comfort And Control Stability
 Ju Gang, Wang Kaifeng, et al (68)
 Optimization Analysis of Fatigue Damaged Urea Transition Stent Shen Chengzhen, Li Lintao, et al (71)
 Analysis of Positive Factors Affecting the Return of Commercial Vehicles Wang Yin, Sun Yanxing, et al (73)
 Design of a overturning system of cross-country truck cab Wang Zhankui, Ji Huiyan (76)
 Uncertainty evaluation of steering wheel steering force angle tester for steering wheel of motor vehicle Wen Hao (80)
 Analysis of Fuel Pump Noise Deterioration and Quality Optimization SAIC MOTOR Technical Center You Huiying, Zhang Qidi (83)
 Auto defrost mist performance improvement Yu Yajie, Fang Sunmin, et al (86)
 The matching application of SCR system in commercial passenger vehicle Zhan Keju (88)
 The application research with DOE method on the heavy automobile Zhao Na, Liu Linbo (92)
 Optimized Design of Intake Manifold for a Gasoline Engine Zhou Bo, Lei Lei, et al (94)
 Design of Automobile Gateway development Platform Based on Rapid Control Prototype Cong Lina, Rong Zhiqiang (96)
 Research on The leakage of pipe plug on enging main oil gallery Han Zhen, Shen Jie, et al (99)
 An odour improvement scheme for parts of a certain vehicle Liu Kai, Wang Tianqi, et al (102)
 Dynamic Stiffness of Mount System For The VehicleInfluence and Optimization of NVH Performance
 Ren Shuang, Gong Zhenxing, et al (105)
 Applied Research of Multi-objective Lightweighting Based on RSM and RBF Zhou Ting, Li Hong, et al (108)
 A Study on Numerical Simulation of Vehicle Sunroof Buffeting Noise Xia Guangfei, Zhang Li (110)
 Improved Simulation Analysis of Oil Leakage in Combined Surface of a Transmission Peng Liyin (113)
 Optimization of automobile rearview mirror based on CFD Xia Guangfei, Zhang Li (116)
 Analysis of Passenger Vehicle Performance Requirements Based on Fuel Consumption Standards Hua Congbo, Liu Shanshan, et al (119)

Design Research

- Research on Design of SUV Fu Yongna, Lu Shengjun, et al (122)
 Structure design of car carrier with centre axle Gu Qi, Geng Longwei, et al (124)
 The design scheme of automobile LED headlamp driving circuit Liu Pan, Lei Xu, et al (128)
 Design Research Of The Door Glass Wang Bingfei, Li Chaoshuai, et al (131)

- Research on automatic sprinkler system of infrared automobile brake Hou Tao, Wang Zhengrong (134)
- Design of Throttle Opening Control System Based on 51 Single Chip Computer Jing Luxia, Li Xiaoshan, et al (137)
- Optimization design of rear door mechanism of self-unloading vehicle Mu Peijuan, Dong Miao, et al (139)
- Design of Image Acquisition System based on stm32f407 & OV2640 Yang Caisheng, Wu Zhuangfei, et al (142)
- Analysis of light weight improvement design for bus body frame Li Xianglian (145)

Process Equipment

- Flexible design application of closed loop trolley Wang Yongan, Wang Weigang, et al (148)
- DRF Application of Tool Orientation in 5-Axis Gantry Milling Machine Guan Weiqun (150)
- Brief Discussion on Metallographic Examination of Carburizing Gears Fan Chao, Han Jiang (155)
- A measurement method for calibrating gauge's M of cross-ball distance submit Liu Wanli, Lv Jingjie, et al (157)
- Frame connecting plate production process improvement Lv Longzhou, Tian Ce, et al (159)
- New Energy Vehicles Cavity Injection Wax with Tilting Roll Bed Design Quan Dongdong, Feng Wei, et al (161)
- Application of machine vision in tightening process Mao Yang, Liu Jun, et al (164)
- Kawasaki oil industry DP800/500 Hydraulic press Cooling and filtering system reform Ren Xipeng (167)
- Preparation method and skill of cast aluminum alloys metallographic specimen Shi Xiaolong, Wu Panpan (170)
- OES analysis of incomplete whiten cast iron Wu Panpan, Zheng Jian, et al (172)
- The Technology Improvement from a Car Door Yu Yaxin, He Danmeng, et al (174)
- Design of oil injection process in the overturn system of heavy-duty truck Zhang Yan, Zhao Xiaoyang (177)
- The surface anticorrosion of automobile transmission aluminum alloy shell and it's parts Zheng Jian, Shi Xiaolong (179)

Vehicle Materials and Coating

- Design and planning for the paintshop of commercial light-bus Lu Jiawei (181)
- Application of Air Recycling Techniques of Spray Booth in Vehicle Paintshop Dong Danyi (184)
- Design and Research of the Flexible Skid Transportation System for Commercial Vehicle Xiong Lei, Chen Liang (188)

Use and Maintenance

- Analysis of routine maintenance for family cars Lu Yi, Zhu Yan (191)
- Analysis and structural optimization of passenger vehicle airbag fault indicator Changliang Zheng Jianming (194)
- The Composition of Electronic brake System for a Truck Li Jiang, Kong Dexing, et al (196)
- Fixed displacement compressor assembly car air-conditioning odor problem solving Wang Cuiyan, Hu Jiancheng, et al (198)
- Application of Maintenance-Free Wheels on a Medium Dump Truck Wang Qia, Du Xiaopeng, et al (200)

Automobile Education

- Practice and Reflection on The Training Mode of Modern Apprentice System Yang Jinfeng (203)
- Practice and Exploration of Combination of Engineering and Learning Based on Competency Liu Zhen (206)
- Discussion on the Application of Mind Guide Diagram in E-Commerce Teaching Hu Yanwei (209)

Industry Overview

- An Analysis of Current Situation and Future Trend of heavy truck Dang Ying, Zhao Hao, et al (212)
- The strategy of project management in the new product development process of automobile enterprises Du Li, Cheng Liu (215)
- The Difference and Relations between The Appraisal and Evaluation of The Used BEV and The Fuel used Vehicle Jiang Xiaoqin (218)
- Current status and research progress of the composition theory of the mechanical power system in hybrid engineering
..... Zheng Xuotong, Zhao Juntao (221)
- Industrial opportunity Analysis of New Energy Automobile Industry chain Liu Shaoli, Li Xin (224)

Industry Dynamics

- The state council's three-year action plan for winning the blue sky defense war: the production and sales of new energy vehicles will reach about 2 million by 2020 for 10 news (1)
