CONTENTS IN BRIEF

MiR-451a regulated BAP31 in colorectal cancer cells induced apoptosis	Xu Ke, Han Bing, Bo Yang, et al(171)
Determination of fourteen non-REEs elements in high pure lanthanum carbonate by ICP-MS	Jiang Yan, Jiang Ge(177)
Oxyresveratrol inhibits proliferation and migration of human hepatocellular carcinoma cell	Yang Hong-zhuan, Wu Bing-huo, Huang Jie(180)
Clinical diagnosis and treatment of 2-methyl-3-hydroxybutyryl-CoA dehydrogenase deficiency in one infant; a case report	Li Ying-ying, Cui Ya-li, Wang Xia, et al(183)
Prevention of recurrence of urinary calculi with health education according to calculus component*	Zhao Sheng-long, Cui Ru-xiang, Shi Zong-wei, et al(186)
Analysis of influencing factors of cellular immune function in cancer patients*	Yang-Wei, He-Bin-bin(188)
Comparative analysis of whole day outpatient for birth healthy care subject between pre and post in primary hospital*	Fu Tian-ming, Shu Min-si, Gao Chun-yuan(191)
Relationship between mobilization of circulating endothelial progenitor cells and time or degree of injury from PCI in ACS	Wen Xiao-qin, Huang Kui, Gao Ming-dong, et al(194)
Protective effect and mechanism of edaravone postconditioning injection on acute myocardial ischemia reperfusion injury	Zhou Jue-min(197)
Effects of hyaluronic acid on prevention pelvic adhesions of abdominal surgery via inhibiting inflammatory factors	Gao Li-juan, Li Xi-yang, Hu Xue-ji, et al(200)
Predictive value of high risk HPV detection for residual lesions or recurrence after conization of cervical intraepithelial neoplasia	Jiang Wei-li(202)
Study of Huangqi Guizhi decoction of five ingredients in the adjuvant treatment of type 2 diabetic peripheral neuritis	Qi Ping, Wang Yi, Du Guanghui, et al(204)
Effects of vitamin C combined with xiaoorganmaoling granule on pediatric viral upper respiratory tract infection	Zhou Xia(206)
Analysis of efficacy and safety of combined spinal-epidural anesthesia in cesarean section	Cui Xiao-juan(209)
Early clinical efficacy of radical extracorporeal shock wave with computer medium frequency electrotherapy instrument in the treatment of chronic soft tissue injury	Liu Xin-rong(211)
Effect of subtotal hysterectomy on ovarian function in patients with uterine fibroids	Jiang Miao(213)
Clinical effect of micro ecological therapy and traditional therapy in the prevention and treatment of genital tract inflammation	Zhang Ai-qin, Guo De-sheng(215)
Value of fine needle aspiration cytology examination in the diagnosis of thyroid carcinoma	Liu Sheng-li(216)
Clinical pathological diagnosis and differential diagnosis of gastrointestinal stromal tumors	Xu Yu-rong(218)
Clinical analysis of the treatment of cranial orbital meningiomas by transcranialorbital approach	Li Cheng, Zhang Hong, Wu Yu-ping, et al(220)
Effect of comprehensive nursing intervention on quality of life of patients with breast cancer during postoperative chemotherapy	Zhao Yi-wen(223)
Application value of meticulous nursing in improving the self efficacy of pregnant women with pregnancy induced hypertension	Zhang Jin-zhi(225)
Explore the effect of evidence-based nursing on patients with hypertension in community	Liang Wen-hua(227)
Clinical application of human-based nursing management in the physical examination	Liu Hong(228)
Application of rapid rehabilitation surgery in perioperative period of laparoscopic hysterectomy	Zhao Wei-qun(230)
Development of pharmacotherapeutics in alzheimer's disease	Yu Yang, Wan Li-hong(232)
Probe of different teaching method applied in clinical pharmaceutical English*	Fu Xiu-juan, Zhang Dan, Chen Si-wei, et al(235)
Problems and countermeasures in the cultivation of research innovation ability of medical undergraduates*	Ren Mei-ping, Wang Fang, Chen Si-wei, et al(236)
Teaching experience of physiology theory course for medical international students	Liu Xing-hai, Mai Wen-li, Wang Tao, et al(238)
Application value evaluation of leader's responsibility system in ICU nursing management	Gao Jin-ya, You Qing, Li Yi-nan(239)
