## 目 次

|                                                                                   |                                  |
|-----------------------------------------------------------------------------------|----------------------------------|
| 大熊猫取食竹笋期间的昼夜活动节律和强度·····                                                          | 张晋东, Vanessa HULL, 黄金燕, 等 (2655) |
| 高枝假木贼的胎生萌发特性及其生态适应·····                                                           | 韩建欣, 魏 岩, 严 成, 等 (2662)          |
| 准噶尔盆地典型地段植物群落及其与环境因子的关系·····                                                      | 赵从举, 康慕谊, 雷加强 (2669)             |
| 喀斯特山地典型植被恢复过程中表土孢粉与植被的关系·····                                                     | 郝秀东, 欧阳绪红, 谢世友, 等 (2678)         |
| 青藏高原高寒草甸土壤 CO <sub>2</sub> 排放对模拟氮沉降的早期响应·····                                     | 朱天鸿, 程淑兰, 方华军, 等 (2687)          |
| 毛乌素沙地南缘沙漠化临界区域土壤水分和植被空间格局·····                                                    | 邱开阳, 谢应忠, 许冬梅, 等 (2697)          |
| 雪灾后粤北山地常绿阔叶林优势树种幼苗更新动态·····                                                       | 区余端, 苏志尧, 解丹丹, 等 (2708)          |
| 四川盆地四种柏木林分类型的水文效应·····                                                            | 龚固堂, 陈俊华, 黎燕琼, 等 (2716)          |
| 平茬对半干旱黄土丘陵区柠条林地土壤水分的影响·····                                                       | 李耀林, 郭忠升 (2727)                  |
| 连栽杉木林林下植被生物量动态格局·····                                                             | 杨 超, 田大伦, 胡日利, 等 (2737)          |
| 近 48a 华北区太阳辐射量时空格局的变化特征·····                                                      | 杨建堂, 刘 勤, 严昌荣, 等 (2748)          |
| 中型景观尺度下杨树人工林林分特征对树干病害发生的影响——以河南省清丰县为例·····                                        | 王 静, 崔令军, 梁 军, 等 (2757)          |
| 耕作措施对冬小麦田杂草生物多样性及产量的影响·····                                                       | 田欣欣, 薄存瑶, 李 丽, 等 (2768)          |
| 官山保护区白颈长尾雉栖息地适宜性评价·····                                                           | 陈俊豪, 黄晓凤, 鲁长虎, 等 (2776)          |
| 花椒园节肢动物群落特征与气象因子的关系·····                                                          | 高 鑫, 张晓明, 杨 洁, 等 (2788)          |
| 沙漠前沿不同植被恢复模式的生态服务功能差异·····                                                        | 周志强, 黎 明, 侯建国, 等 (2797)          |
| 大豆出苗期和苗期对盐胁迫的响应及耐盐指标评价·····                                                       | 张海波, 崔继哲, 曹甜甜, 等 (2805)          |
| 不同耐盐植物根际土壤盐分的动态变化·····                                                            | 董利苹, 曹 靖, 李先婷, 等 (2813)          |
| 短期 NaCl 胁迫对不同小麦品种幼苗 K <sup>+</sup> 吸收和 Na <sup>+</sup> 、K <sup>+</sup> 积累的影响····· | 王晓冬, 王 成, 马智宏, 等 (2822)          |
| 套袋微域环境对富士苹果果皮结构的影响·····                                                           | 郝燕燕, 赵旗峰, 刘群龙, 等 (2831)          |
| 畜禽粪便施用对稻麦轮作土壤质量的影响·····                                                           | 李江涛, 钟晓兰, 赵其国 (2837)             |
| 土霉素胁迫下拟南芥基因组 DNA 甲基化的 MSAP 分析·····                                                | 杜亚琼, 王子成, 李 霞 (2846)             |
| 甲藻孢囊在长山群岛海域表层沉积物中的分布·····                                                         | 邵魁双, 巩 宁, 杨 青, 等 (2854)          |
| 湖南省城市群生态网络构建与优化·····                                                              | 尹海伟, 孔繁花, 祈 毅, 等 (2863)          |
| 基于多智能体与元胞自动机的上海城市扩展动态模拟·····                                                      | 全 泉, 田光进, 沙默泉 (2875)             |
| 城市道路绿化带“微峡谷效应”及其对非机动车道污染物浓度的影响·····                                               | 李 萍, 王 松, 王亚英, 等 (2888)          |
| <b>专论与综述</b>                                                                      |                                  |
| 北冰洋微型浮游生物分布及其多样性·····                                                             | 郭超颖, 王桂忠, 张 芳, 等 (2897)          |
| 种子微生物生态学研究进展·····                                                                 | 邹媛媛, 刘 洋, 王建华, 等 (2906)          |
| 条件价值评估的有效性与可靠性改善——理论、方法与应用·····                                                   | 蔡志坚, 杜丽永, 蒋 瞻 (2915)             |
| <b>问题讨论</b>                                                                       |                                  |
| 中国生态学期刊现状分析·····                                                                  | 刘天星, 孔红梅, 段 靖 (2924)             |
| <b>研究简报</b>                                                                       |                                  |
| 四季竹耐盐能力的季节性差异·····                                                                | 顾大彤, 郭子武, 李迎春, 等 (2932)          |
| 新疆乌恰泉地震前后泉水细菌群落的变化·····                                                           | 杨红梅, 欧提库尔·玛合木提, 曾 军, 等 (2940)    |
| 两种猎物对南方小花蝽种群增长的影响及其对二斑叶螨的控害潜能·····                                                | 黄增玉, 黄林茂, 黄寿山 (2947)             |
| <b>学术信息与动态</b>                                                                    |                                  |
| 全球变化下的国际水文学研究进展: 特点与启示——2011 年欧洲地球科学联合会会员大会述评·····                                | 卫 伟, 陈利顶 (2953)                  |

**封面图说:** 藏酋猴 (*Macaca thibetana*) 属猴科 (*Cercopithecidae*) 猕猴属 (*Macaca*) 又名四川短尾猴、大青猴, 为我国特有灵长类之一, 被列为国家二级保护野生动物; 近年来, 由于人类活动加剧, 栖息环境恶化, 导致藏酋猴种群数量和分布日趋缩小; 本照片摄于四川卧龙国家级自然保护区 (拍摄时间: 2010 年 3 月)。

## CONTENTS

|                                                                                                                                                                                   |                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|
| Circadian activity pattern of giant pandas during the bamboo growing season .....                                                                                                 | ZHANG Jindong, Vanessa HULL, HUANG Jinyan, et al (2655) |
| The vivipary characteristic of <i>Anabasis elatior</i> and its ecological adaptation .....                                                                                        | HAN Jianxin, WEI Yan, YAN Cheng, et al (2662)           |
| Relationships between plant community characteristics and environmental factors in the typical profiles from Dzungaria Basin .....                                                | ZHAO Congju, KANG Muyi, LEI Jiaqiang (2669)             |
| The relationship between pollen assemblage in topsoil and vegetation in karst mountain during different restoration period of typical vegetation community .....                  | HAO Xiudong, OUYANG Xuhong, XIE Shiyong, et al (2678)   |
| Early responses of soil CO <sub>2</sub> emission to simulating atmospheric nitrogen deposition in an alpine meadow on the Qinghai Tibetan Plateau .....                           | ZHU Tianhong, CHENG Shulan, FANG Huajun, et al (2687)   |
| Spatial pattern of soil moisture and vegetation attributes along the critical area of desertification in Southern Mu Us Sandy Land .....                                          | QIU Kaiyang, XIE Yingzhong, XU Dongmei, et al (2697)    |
| Dynamics of dominant tree seedlings in montane evergreen broadleaved forest following a snow disaster in North Guangdong .....                                                    | OU Yudian, SU Zhiyao, XIE Dandan, et al (2708)          |
| A comparative analysis of the hydrological effects of the four cypress stand types in Sichuan Basin .....                                                                         | GONG Gutang, CHEN Junhua, LI Yanqiong, et al (2716)     |
| Effect of cutting management on soil moisture in semi-arid Loess Hilly region .....                                                                                               | LI Yaolin, GUO Zhongsheng (2727)                        |
| Dynamics of understory vegetation biomass in successive rotations of Chinese fir ( <i>Cunninghamia lanceolata</i> ) plantations .....                                             | YANG Chao, TIAN Dalun, HU Yueli, et al (2737)           |
| Spatial and temporal variation of solar radiation in recent 48 years in North China .....                                                                                         | YANG Jianying, LIU Qin, YAN Changrong, et al (2748)     |
| Impact of stand features of short-rotation poplar plantations on canker disease incidence at a mesoscale landscape: a case study in Qingfeng County, Henan Province, China .....  | WANG Jing, CUI Lingjun, LIANG Jun, et al (2757)         |
| Effects of different soil tillage systems on weed biodiversity and wheat yield in winter wheat ( <i>Triticum aestivum</i> L.) field .....                                         | TIAN Xinxin, BO Cunyao, LI Li, et al (2768)             |
| Habitat suitability evaluation of Elliot's pheasant ( <i>Syrnaticus ellioti</i> ) in Guanshan Nature Reserve .....                                                                | CHEN Junhao, HUANG Xiaofeng, LU Changhu, et al (2776)   |
| Relationships between arthropod community characteristic and meteorological factors in <i>Zanthoxylum bungeanum</i> gardens .....                                                 | GAO Xin, ZHANG Xiaoming, YANG Jie, et al (2788)         |
| The differences of ecosystem services between vegetation restoration models at desert front .....                                                                                 | ZHOU Zhiqiang, LI Ming, HOU Jianguo, et al (2797)       |
| Response to salt stresses and assessment of salt tolerability of soybean varieties in emergence and seedling stages .....                                                         | ZHANG Haibo, CUI Jizhe, CAO Tiantian, et al (2805)      |
| Dynamic change of salt contents in rhizosphere soil of salt-tolerant plants .....                                                                                                 | DONG Liping, CAO Jing, LI Xianting, et al (2813)        |
| Effect of short-term salt stress on the absorption of K <sup>+</sup> and accumulation of Na <sup>+</sup> , K <sup>+</sup> in seedlings of different wheat varieties .....         | WANG Xiaodong, WANG Cheng, MA Zhihong, et al (2822)     |
| Effects of the micro-environment inside fruit bags on the structure of fruit peel in 'Fuji' apple .....                                                                           | HAO Yanyan, ZHAO Qifeng, LIU Qunlong, et al (2831)      |
| Enhancement of soil quality in a rice-wheat rotation after long-term application of poultry litter and livestock manure .....                                                     | LI Jiangtao, ZHONG Xiaolan, ZHAO Qiguo (2837)           |
| MSAP analysis of DNA methylation in <i>Arabidopsis</i> ( <i>Arabidopsis thaliana</i> ) under Oxytetracycline Stress .....                                                         | DU Yaqiong, WANG Zicheng, LI Xia (2846)                 |
| Distribution of dinoflagellate cysts in surface sediments from Changshan Archipelago in the North Yellow Sea .....                                                                | SHAO Kuishuang, GONG Ning, YANG Qing, et al (2854)      |
| Developing and optimizing ecological networks in urban agglomeration of Hunan Province, China .....                                                                               | YIN Haiwei, KONG Fanhua, QI Yi, et al (2863)            |
| Dynamic simulation of Shanghai urban expansion based on multi-agent system and cellular automata models .....                                                                     | QUAN Quan, TIAN Guangjin, SHA Moquan (2875)             |
| "Micro-canyon effect" of city road green belt and its effect on the pollutant concentration above roads for non-motorized vehicles .....                                          | LI Ping, WANG Song, WANG Yaying, et al (2888)           |
| <b>Review and Monograph</b>                                                                                                                                                       |                                                         |
| The abundance and diversity of nanoplankton in Arctic Ocean .....                                                                                                                 | GUO Chaoying, WANG Guizhong, ZHANG Fang, et al (2897)   |
| Advances in plant seed-associated microbial ecology .....                                                                                                                         | ZOU Yuanyuan, LIU Yang, WANG Jianhua, et al (2906)      |
| Improving validity and reliability of contingent valuation method through reducing biases and errors: theory, method and application .....                                        | CAI Zhijian, DU Liyong, JIANG Zhan (2915)               |
| <b>Discussion</b>                                                                                                                                                                 |                                                         |
| The analysis of Chinese ecological academic journals .....                                                                                                                        | LIU Tianxing, KONG Hongmei, DUAN Jing (2924)            |
| <b>Scientific Note</b>                                                                                                                                                            |                                                         |
| Seasonal variations in salt tolerance of <i>Oligostachyum lubricum</i> .....                                                                                                      | GU Daxing, GUO Ziwu, LI Yingchun, et al (2932)          |
| Variation of a spring bacterial community from Wuqia Sinter in Xinjiang during the pre- and post-earthquake period .....                                                          | YANG Hongmei, OTKUR Mahmut, ZENG Jun, et al (2940)      |
| Comparison of the effect of two prey species on the population growth of <i>Orius similis</i> Zheng and the implications for the control of <i>Tetranychus urticae</i> Koch ..... | HUANG Zengyu, HUANG Linmao, HUANG Shoushan (2947)       |
