RAILWAY ENGINEERING

ISSN 1003-1995

中国铁道科学研究院集团有限公司 主办

CONTENTS

Bridge and Structural Engineering

- Causes and Control Index Analysis of Periodic Track Vertical Irregularities on
Simply-supported Girder Bridge of High Speed Railway *SONG Guohua, et al*(1)
- Coupling Dynamic Response of Ultra-high Speed Magnetic Levitation Vehicle and
Simply-supported Girder Bridge *WANG Bin, et al*(5)
- Vehicle-Bridge Resonance Analysis Based on Long-term Monitoring *XIAO Xin, et al*(11)
- Analysis on Vehicle-Bridge Coupling Vibration Considering Foundation Settlement *LI Zhiqiang, et al*(16)
- Design on 48 m Span UHPC Simply-supported Girder of High Speed Railway and
Experimental Study on Its Flexural Behavior *LIU Chen*(19)
- Design Research of High Speed Railway Sliced Trough Girder *HE Tao*(24)
- Optimum Study on Calculation Method of Theoretical Elongation of
Post-tensioned Prestressed T-girder Steel Bundle *QIN Faxiang, et al*(29)
- Optimization of Structural Parameters in Orthotropic Steel Bridge Deck *TIAN Kang, et al*(34)
- Research on Epoxy Joint Thickness for Precast Segmental Members *LU Wenliang, et al*(39)
- Technical Requirements and Structural Selection of Sidewalk Walking Board of
Railway Concrete Girder *ZENG Zhibin*(42)
- Dynamic Characteristics of Large Span Railway Single Pylon Hybrid Girder
Cable-stayed Bridge *KANG Juntao, et al*(45)
- Dynamic Simulation Analysis and Test Verification of Nanqiuhe River Bridge *ZHENG Xiaolong, et al*(50)
- Experimental Study on Strengthening and Testing of Through Bridge with
Simply-supported Steel Truss Beam *KONG Lingzong*(54)
- Influential Factor Analysis of Prestressing Reinforcement for 64-type
Military Railway Beam *MA Yao, et al*(57)
- Study on Construction State of Long-span Suspension Bridge by Wind Tunnel Test *SUN Xiuli*(61)
- Key Technologies for Erection of Steel Truss Girder of Zhengzhou-Jiaozuo Intercity
Yellow River Bridge *MA Yongqiang*(65)
- Key Technologies of Installation and Tension Construction for Whole Bundle
Extrusion Suspender *ZHOU Weiming*(68)

Tunnel and Underground Works

- Applicability of Drilling Jumbo in Different Construction Methods of Railway Tunnel *HU Wei, et al*(71)
- Applicability of Rapid Hardening Shotcrete and Its Application in Xiaoshan Tunnel
..... *HUANG Mingli, et al*(75)

Construction Safety Analysis of Earth Pressure Balanced Shield Tunnel Under-crossing Waterway in Deep Buried Fractured Rock Stratum	<i>WU Wenbiao, et al</i> (81)
Analysis on Development Characteristics and Project Influence of Shallow Karst in Haide Tunnel	<i>HUANG Bin, et al</i> (84)
Analysis of Water Content Change and Deformation Characteristics of Surrounding Rock of Red Clay Tunnel	<i>ZHAO Yonghu, et al</i> (89)
Inversion Analysis of Tunnel Surrounding Rock Parameters Based on Three-dimensional Laser Scanning Technology	<i>YANG Jianqun, et al</i> (92)

Subgrade·Foundation

Experimental Study on Disturbing Deformation of Adjacent Sites by Group Pile Construction	<i>WANG Jiquan</i> (96)
Preliminary Judgment Method for Stability of Bedding Cutting Slope in Geological Survey	<i>GAO Fangfang, et al</i> (103)
Study on Stability of Changgeluo Old Landslide in Shangrila-Lijiang Expressway	<i>WEI Jiayu, et al</i> (108)

Track and Its Maintenance

Feature Extraction Method of Railway Line for Earthquake Early Warning of High Speed Railway	<i>JIANG Wenxiang, et al</i> (113)
Research on Segmental Cracking Remedial Technology of Bi-block Sleeper of Ballastless Track	<i>XU Lingyan</i> (117)
Common Quality Problems and Key Control Techniques During Construction of CRTS III Slab Ballastless Track	<i>WU Lina</i> (121)
Treatment Technology of Lifting and Inclination Rectification in End-spine Zone of CRTS II Slab Ballastless Track	<i>SONG Guoliang</i> (125)
Cause Analysis and Treatment of Abnormal Sound of EMU on Shimen-Changsha Railway	<i>GONG Jijun</i> (129)
Application of the Wheel-rail Force in Track Short Wave Irregularity Detection	<i>NIU Liubin, et al</i> (133)
Discussion on Management Standard of Track Twist for Normal Speed Railway	<i>YANG Fei, et al</i> (140)
Toe Load Testing Method for Fastener Elastic Rod Based on Modal Analysis	<i>WANG Shaohua, et al</i> (145)
Analysis and Treatment of Fastener Defects Caused by Metro Rail Corrugation	<i>HEI Yongjin</i> (150)
Influence of Periodic Rail Profile Grinding on Life of Small Radius Curve	<i>LI Jinliang</i> (154)
