14 双循环：探寻中国经济发展新空间

疫情导致的国际局势震荡，以及不平衡复苏给全球经济带来的隐患，使得加快“向内”调整经济成为应对外部环境不确定性的必要之举。

69 反思“第三部门”理论

在基层的扶贫实践中，政府、市场与社会在公益领域存在广泛结盟，超越了既有的国家、市场与社会的三分框架。

133 什么是中亚？

基于独特的历史语境与传统，中国的周边区域正在扮演越来越立体而丰富的角色，其中，中亚的历史与当下定位尤其值得关注。

115 被架空的援助领导者

日本虽提出了发展型国家的援助理念，但相应的知识体系构建和维持能力却远不及传统援助国，因此可说是一个被“架空”了的援助大国。

- 16 ● Building a "Consumption-Innovation" Cycle: 2035 New Economy Mission
Zhang Ping
To deal with the pressure brought by COVID-19 and the uncertainty of future consumption and export, the Chinese government turned its economic strategy to "dual-circulation" in which domestic economic cycle plays a leading role while international economic cycle remains its extension and supplement. The key to realize this vision is to replace the old investment-driven macro resources distribution system with a new consumption-innovation cycle.

- 35 ● Nurture the Manufacturing Ecosystem: Dual Circulation from the Perspective of Industrial History
Yan Peng
To cope with the worldwide de-globalization process under the pandemic, the Chinese government has brought up a new scheme called "dual circulation". From a industrial history and industrial culture perspective, this article argues that nurturing a healthy ecosystem for manufacturing is a possible solution for building this "dual circulation" economic system.

Zhang Chuanhong
Li Xiaoyun
With well self-adjustment according to the global power structure change throughout its history, WHO has gained a unique advantage on commanding and coordinating in global public health emergencies. Due to its limited funding structure, however, WHO has only a strategy that lacks harmony and consistency. Currently, WHO has been actively taking on innovations in management and technology to resume its authority and independence, in the hope of keeping its international position and influence.

- 69 ● Rethinking the "Third Sector" Theory: Roles of the Government and Non-Governmental Organizations in Poverty Alleviation Activities
Wang Xiaoyi
In the practice of Chinese poverty alleviation activities, the government departments had been closely interacting with non-governmental organizations. They collaborate and communicate with each other and created many productive patterns. In this sense, the "third sector" theory brings unnecessary obstacles due to its over emphasizing on sectors' distinguishing.

- 78 ● Social Organizations with No Roots Chen Feng
In the interaction between the social organizations and the grass root communities, it's noticed that there's a problem of the services provide could not reach the people. As for the reasons are two: firstly, the government services tend to be marketized, bureaucratic and preference-directed; secondly, the voices of small groups of elites usually veil the true needs of people. Therefore, the writer argues that the organizations should engage with people, and create virtuous circles in local community governance.

87 ● "American Experiment" and "American Crisis" – the Presidential Election System behind the "Trump Phenomenon" Wang Xi
This article analyses the history of American presidential election system, and reveals the reason why a "Frankenstein's monster" like Trump could win the election and remain untamed under the state's power system. Meanwhile, it reminds us that the American political mechanism and its democratic system still has the elasticity and hope for a better future.
