审视平台垄断

思考如何从现实条件出发，对大型平台的公共运用、公共管理、公共监督做出有益探索，必将成为社会主义市场经济继续发展的重要一环。

10 重塑建制派：拜登智囊的美国方案

拜登的重要智囊沙利文的政策立场并非回归传统的建制派，而是在特朗普政府所导致的全球政治混乱中寻求一种更切实可行的路径。

18 审视平台垄断

平台既是参与公共治理的主体，又是公共治理的对象；它们的技术创新既为公共治理提供了新的技术条件，又给公共治理提出了巨大挑战。

136 大湾区中的小港湾

深港双城陆域相连、交通便利，粤港两地方言文化相同，两地之间民间交往、社会维护的紧密程度超乎想象。

120 在物质主义和后物质主义之间

虽然疫情在国内得到了有效的控制，但由于前期疫情的持续影响，很多中小企业的用工需求大幅度缩减，这给大学毕业生的就业带来了巨大的压力。

20	● Taming the Big Techs: National Logic in Antitrust Actions	Fan Peng Li Yan
	<i>This is a discussion on the logic of political operations targeting big techs, based on the new tech antitrust operation experience from the past two years. For the government, there are four main key points to keep their own power: ability to maintain administrative jurisdiction and regime; defending against “creative damage”; preserving order for a just, competing market; and fighting tech-politic “revolving door”.</i>	
31	● Logic of Platform Power - The Recentralization Mechanism of Online Society	Liu Han
	<i>Power of Internet platform enterprises is more of a practical situation, rather than a legal status. It formed during the decentralization and recentralization of the internet system: holding user information gives them the power to grant market access, allocate resources, and implement regulations. Platforms have feudalized and become “walled gardens” with users as property within their territory when users are trapped in “information cocoons” due to path dependence.</i>

65	● Reciprocal Opening: The Only Way to Become A Developed Country	Gao Bai
	<i>The reciprocal reduction of trade-investment barriers has been the principle for the US construction of the postwar multilateral trade regime and the deep integration of the European economies. It has led to the development of intra-industry trade that serves to reduce trade conflicts. The lack of it has led to the US-Japan and US-China trade wars. China should graduate from its developing country status and engage in reciprocal opening.</i>

92	●	Special: Governance in Traditional China	
93	●	Diverse Governance Experiences in Traditional China <i>The Chinese territory was formed dynamically and continuously throughout its history. The three different natural geographic sections have their own ethics and ways of life, hence need differentiated governance. Unification is not only the combination of the three sections, but also the integration of diverse nations and their own governance experiences. In today's industrialized and market-oriented world, while the influence from the past still remains, our new tasks should focus on the function of local departments.</i>	Cao Jinqing

While the post pandemic age rose negative expectation on terms of job hunting for many, the hope for a better pay remained their major concern.</i>	Li Xiumei Xiang Ganyezi Gui Yong

144	●	Macao's Story of "One Country, Two Systems" <i>Since its return in 1999, Macao has been rather quiet practicing "one country, two systems" policy. Looking back, great achievements are noticed: a growth of GDP from 519 MOP to 4447 MOP; and healthy economy and livelihood have been reached. And these are only true now because the local government stuck to this policy and cooperated with Beijing closely on promoting the economy. In the future, Macao has an even greater opportunity as a channel between China and Portuguese-speaking countries with brighter paths.</i>	Sun Mingxia
