## 通信观察

- |                              |             |
|------------------------------|-------------|
| 1 基于 LabVIEW 的“通信原理”虚拟实验平台设计 | 王 芳,于洪泉     |
| 3 基于 UTLV 协议的通信系统设计          | 欧道杰,段元梅     |
| 5 无线电通信技术及其运用研究              | 柏会凯,姚 鹏,杜吉庆 |
| 7 传真通信技术的安全策略分析              | 许 璐         |
| 9 高速铁路“四电”系统原理与概述            | 孔繁军         |

## 无线天地

- |                           |                 |
|---------------------------|-----------------|
| 11 微带线电磁辐射的等效建模与辐射干扰分析    | 叶志红,王 溢,裴忠铭,袁艺峰 |
| 13 重庆江北机场天气雷达干扰排查与实例分析    | 皮 波,谢英伟,李柠江,刘乃和 |
| 18 高强度绝缘绳在中短波天线架设维护中的运用分析 | 李长青             |
| 20 乌鲁木齐市电磁环境现状及对策         | 王建国             |

## 网络地带

- |                         |         |
|-------------------------|---------|
| 22 计算机网络管理技术及发展趋势探析     | 陈炎龙,张 嘉 |
| 24 计算机网络安全问题的认知与思考      | 段红玉,张 嘉 |
| 26 大数据背景下数字化校园云存储安全策略研究 | 刘 雷     |
| 28 基于大数据技术的融媒体中心建设      | 彭国平     |
| 30 数据中台的数据资产管理体系研究      | 周永博,张文轩 |
| 32 基于手机定位的智慧商圈选址研究      | 胡 纯     |
| 34 风电场架空集电线路施工控制        | 杨少晨     |

## 软件透视

- |                          |     |
|--------------------------|-----|
| 36 计算机的嵌入式实时软件开发         | 马 骥 |
| 38 Flexsim 软件在物流系统仿真中的应用 | 周晓杰 |
| 40 基于对象的数字图像处理软件设计       | 吴自伟 |

## 设计分析

- |                                |                         |
|--------------------------------|-------------------------|
| 42 基于 Flutter 的“爱上西安”App 设计与实现 | 刘 琳                     |
| 44 基于 Vue 的校园活动社交平台设计          | 李 胜,段元梅                 |
| 46 基于 Python 的钋钛词库爬虫设计与分析      | 王 霞,张俊坤,陈 尧,文科历         |
| 48 基于 Vue 的音乐网站设计与实现           | 吴 波,段元梅                 |
| 50 专业技术职务评审系统设计与实现             | 谢利敏,刘 欢,柴立岩             |
| 52 网站布局设计与实现                   | 耿 海,王新宇                 |
| 54 基于 NLP 和 NLU 的智能教学系统设计      | 滑贝贝,何鸣皋                 |
| 56 基于 SpringBoot 的线上商城平台设计     | 田松涛,段元梅                 |
| 58 基于 STM32 的人体体温远距离检测系统设计     | 陈周凡,宦智杰,马玮城             |
| 60 基于 Java 的网盘系统的设计与实现         | 孙诗军,段元梅                 |
| 62 智慧校园背景下高校人事管理系统的设计          | 周荷平                     |
| 64 基于 Unity3D 的三维虚拟校园交互系统设计与实现 | 陈莹莹,张悦欣,张梓妍,郭梓锟,伍源昊,胡垂立 |
| 66 基于消费行为数据挖掘及心理量化的投资理财平台设计与研究 | 肖小美,于志强                 |
| 68 一种物联网开关电路设计                 | 陈雄海,邱少暖,吴琳欣,孙 雄,徐文豪     |
| 70 儿童卡通雾化器创新设计                 | 曹现果,汤维龙,邵存伟             |

## 技术应用

- |                   |     |
|-------------------|-----|
| 73 计算机网络云计算技术的应用  | 张 伟 |
| 75 大数据背景下物联网技术的应用 | 张兆津 |

- 77 人工智能技术在智能建筑中的应用 高红红,韩玉铭,魏磊
- 79 人脸表情识别技术在教学质量分析中的应用 李小兰,孙金瑞,冉长双,肖玲敏,李洪进
- 82 医院电气工程及其自动化技术在医院中的应用 张鑫
- 84 数据挖掘技术的应用研究 刘武萍
- 86 Python 在网络运维中的运用研究 杨泽明
- 88 移动端信息传输安全技术分析 刘虎,段元梅
- 90 计算机数据库在信息管理中的运用 杨晓明
- 92 超市购物车辅助购物与结算系统的应用研究 于剑光
- 94 分层技术在计算机软件开发中的应用 杜鹏
- 96 计算机网络技术在电子信息工程中的应用 徐婷婷
- 98 计算机网络安全中数据加密技术的运用研究 田志
- 100 基于综合监控系统的地铁消防联动应用研究 李严

## 实验研究

- 102 脑卒中临床数据管理与分析系统构建方法研究 熊刚,黄辉
- 104 基于 PSO-AFSA 的非线性地学模型参数估计 施颢
- 106 PLC 编程过程中触点竞争问题的解决策略研究 乔智
- 108 基于数据化技术的高校虚拟仿真实验室利用效率提升探究 周栋延,李敬敬
- 110 一种用于降低开关电路电磁噪声的装置设计 祝福,姜竹楠,张哲,王栋祺

## 数字教育

- 112 基于云环境的计算机实验教学平台分析 陆海峰,李慢慢,张雅娟,顾逢润
- 114 基于机器学习和大数据技术的高校学生在线学习行为探讨 韩树河,陈镇江,牛旭航
- 117 基于翻转课堂模式的高职院校计算机课程教学研究 陈幸如
- 119 大数据环境下高校教育管理信息化创新与发展研究 陈培芬
- 121 基于大数据技术高职“六面定位”培养创新型技能人才专业课程体系探究 吴进
- 123 “互联网+”背景下应用型人才培养研究——以“空间定位技术基础”为例 宋倩,申景贇,梁林杰
- 126 “1+X”证书制度下通信技术专业群人才培养评价体系的探索与实践 王文轩,汤昕怡,胡峰
- 130 工业机器人系统集成企业实践教学探索 林景山
- 132 微课教学在高职数学信息化教学中的应用 刘萍
- 134 基于大学计算机课程的微课设计 于秦玉,庄天宝
- 136 “互联网+”时代高职院校泛在化教学研究 张菊
- 139 基于效果导向的电商类课程线上教学方式研究 吴清燕
- 141 “双一流”背景下高校图书馆智慧化学科服务研究 陈冬冬
- 143 高校教学资料档案信息化管理的研究与应用 孙佳亮,刘鸿沅,寻博文,张思远
- 145 基于大数据技术的“C 语言程序设计”课程教学模式创新研究 张秀
- 147 高职院校“通信原理”教学改革探索 朱晨
- 149 基于评价结果分析的“移动网络规划与优化”实训项目改革探索 王杨,李秀,蔡俊
- 152 职业素养在“Photoshop”课程教学中的实践研究 周静燕
- 154 新工科驱动的“机器人编程与应用”课程改革与实践 仲训果,杨贵志,付荣
- 156 “工业机器人维修维护实训”课程教学研究 杨莫庸
- 158 基于 CDIO 的“高级交换与路由网络”课程教学改革与实践 夏栋梁,赵伟艇
- 161 新工科背景下“C 语言程序设计”课程教学改革探索——以信阳农林学院为例 骆魁永,王思霖
- 163 基于智慧职教平台的实验实训在线课程建设管理——以“数据备份与恢复”课程为例 姜晓武
- 166 基于智慧课堂的线上教学设计——以“现代教育技术”课程为例 高雪

## CONTENTS

|                                                                                                                                                   |                                                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| Design of “Communication Principle” virtual experimental platform based on LabVIEW .....                                                          | Wang Fang, Yu Hongquan(1)                                                       |
| Design of communication system based on UTLV protocol .....                                                                                       | Ou Daojie, Duan Yuanmei(3)                                                      |
| Research on radio communication technology and its application .....                                                                              | Bai Huikai, Yao Peng, Du Jiqing(5)                                              |
| Analysis of the security strategy of fax communication technology .....                                                                           | Xu Lu(7)                                                                        |
| Principle and overview of “four electricity” system for high speed railway .....                                                                  | Kong Fanjun(9)                                                                  |
| Equivalent modeling and radiation interference analysis of microstrip electromagnetic radiation .....                                             | Ye Zhihong, Wang Yi, Pei Zhongming, Yuan Yifeng(11)                             |
| Interference investigation and case analysis of weather radar at Chongqing Jiangbei Airport .....                                                 | Pi Bo, Xie Yingwei, Li Ningjiang, Liu Naihe(13)                                 |
| Analysis on application of high strength insulating rope in erection and maintenance of medium and short wave antenna .....                       | Li Changqing(18)                                                                |
| Current situation and countermeasures of electromagnetic environment in Urumqi .....                                                              | Wang Jianguo(20)                                                                |
| Analysis of computer network management technology and development trend .....                                                                    | Chen Yanlong, Zhang Jia(22)                                                     |
| Cognition and thinking of computer network security problems .....                                                                                | Duan Hongyu, Zhang Jia(24)                                                      |
| Research on security strategy of digital campus cloud storage under big data .....                                                                | Liu Lei(26)                                                                     |
| Analysis on the construction of financial media center based on big data technology .....                                                         | Peng Guoping(28)                                                                |
| Research on the data asset management system of the data center .....                                                                             | Zhou Yongbo, Zhang Wenxuan(30)                                                  |
| Research on smart business district location based on mobile location .....                                                                       | Hu Chun(32)                                                                     |
| Construction control of the overhead power gathering line of the wind farm .....                                                                  | Yang Shaochen(34)                                                               |
| Embedded real-time software development of computer .....                                                                                         | Ma Ji(36)                                                                       |
| Application of Flexsim software in logistics system simulation .....                                                                              | Zhou Xiaojie(38)                                                                |
| Design of object-based digital image processing software .....                                                                                    | Wu Ziwei(40)                                                                    |
| Design and implementation of “falling in love with Xi’an” App based on Flutter .....                                                              | Liu Lin(42)                                                                     |
| Design of social platform for campus activities based on Vue .....                                                                                | Li Sheng, Duan Yuanmei(44)                                                      |
| Design and analysis of vanadium titanium thesaurus crawler based on Python .....                                                                  | Wang Xia, Zhang Junkun, Chen Yao, Wen Keli(46)                                  |
| Design and implementation of music website based on VUE .....                                                                                     | Wu Bo, Duan Yuanmei(48)                                                         |
| Design and implementation of professional and technical job evaluation system .....                                                               | Xie Limin, Liu Huan, Chai Liyan(50)                                             |
| Website layout design and implementation .....                                                                                                    | Geng Hai, Wang Xinyu(52)                                                        |
| Design of intelligent teaching system based on NLP and NLU .....                                                                                  | Hua Beibei, He Minggao(54)                                                      |
| Design of online mall platform based on SpringBoot .....                                                                                          | Tian Songtao, Duan Yuanmei(56)                                                  |
| Design of human body temperature remote detection system based on STM32 .....                                                                     | Chen Zhoufan, Huan Zhijie, Ma Weicheng(58)                                      |
| Design and implementation of network disk system based on Java .....                                                                              | Sun Shijun, Duan Yuanmei(60)                                                    |
| Design of college personnel management system under the background of smart campus .....                                                          | Zhou Heping(62)                                                                 |
| Design and implementation of 3D virtual campus interactive system based on Unity3D .....                                                          | Chen Yingying, Zhang Yuexin, Zhang Ziyang, Guo Zikun, Wu Yuanhao, Hu Chuili(64) |
| Design and research of investment and financial management platform based on consumer behavior data mining and psychological quantification ..... | Xiao Xiaomei, Yu Zhiqiang(66)                                                   |
| Design of an Internet of Things switch circuit .....                                                                                              | Chen Xionghai, Qiu Shaoai, Wu Linxin, Sun Xiong, Xu Wenhao(68)                  |
| Innovative design of children’s cartoon atomizer .....                                                                                            | Cao Xianguo, Tang Weilong, Zou Cunwei(70)                                       |
| Discussion on the application and development of cloud computing technology in computer networks .....                                            | Zhang Wei(73)                                                                   |
| Application of the Internet of Things technology in the background of big data .....                                                              | Zhang Zhaojin(75)                                                               |
| Application of artificial intelligence technology in intelligent architecture .....                                                               | Gao Honghong, Han Yuming, Wei Lei(77)                                           |
| Application of facial expression recognition technology in teaching quality analysis .....                                                        | Li Xiaolan, Sun Jinrui, Ran Changshuang, Xiao Limin, Li Hongjin(79)             |
| Application of hospital electrical engineering and its intelligent technology in hospital .....                                                   | Zhang Xin(82)                                                                   |

|                                                                                                                                                                                                         |                                                          |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------|
| Application research of data mining technology .....                                                                                                                                                    | Liu Wuping(84)                                           |
| Application of Python in network operation and maintenance .....                                                                                                                                        | Yang Zeming(86)                                          |
| Analysis of mobile terminal information transmission security technology .....                                                                                                                          | Liu Hu,Duan Yuanmei(88)                                  |
| Application of computer database in information management .....                                                                                                                                        | Yang Xiaoming(90)                                        |
| Application research of supermarket shopping cart assisted shopping and settlement system .....                                                                                                         | Yu Janguang(92)                                          |
| Application of layered technology in computer software development .....                                                                                                                                | Du Peng(94)                                              |
| Application of computer network technology in electronic information engineering .....                                                                                                                  | Xu Tingting(96)                                          |
| Research on application of data encryption technology in computer network security .....                                                                                                                | Tian Zhi(98)                                             |
| Linkage application of metro fire protection based on integrated monitoring system .....                                                                                                                | Li Yan(100)                                              |
| Study on the construction method of stroke clinical data management and analysis system .....                                                                                                           | Xiong Gang, Huang Hui(102)                               |
| PSO-AFSA and its application on parameter estimates of nonlinear geographical model .....                                                                                                               | Shi Hao(104)                                             |
| Research on the solution strategy of contact competition in the process of PLC programming .....                                                                                                        | Qiao Zhi(106)                                            |
| Research on the utilization efficiency of college virtual simulation laboratory based on data technology .....                                                                                          | Zhou Dongxian, Li Sansan(108)                            |
| A device designed for reducing the electromagnetic noise of a switching circuit .....                                                                                                                   | Zhu Fu, Jiang Zhunan, Zhang Zhe, Wang Dongqi(110)        |
| Analysis of computer experiment teaching platform based on cloud environment .....                                                                                                                      | Lu Haifeng, Li Manman, Zhang Yajuan, Gu Fengrun(112)     |
| Discussion on online learning behavior of college students based on machine learning and big data technology .....                                                                                      | Han Shuhe, Chen Zhenjiang, Niu Xuhang(114)               |
| Research on computer course teaching in higher vocational colleges based on flip classroom mode .....                                                                                                   | Chen Xingru(117)                                         |
| Research on information innovation and development of college education management based on big data .....                                                                                              | Chen Peifen(119)                                         |
| Research on the curriculum system of cultivating innovative skilled talents based on big data technology .....                                                                                          | Wu Jin(121)                                              |
| Research on application oriented talents training under the background of “Internet+”:<br>taking “Space Positioning Technology Foundation” as an example .....                                          | Song Qian, Shen Jingyun, Liang Linjie(123)               |
| Exploration and practice of talent cultivation evaluation system of communication technology specialty group under<br>“1+X” certificate system .....                                                    | Wang Wenxuan, Tang Xinyi, Hu Feng(126)                   |
| Exploration of practical teaching in industrial robot system integration enterprises .....                                                                                                              | Lin Jingshan(130)                                        |
| Application of micro-course teaching in Mathematics informatization teaching in higher vocational college .....                                                                                         | Liu Ping(132)                                            |
| Research on micro-course design based on university computer course .....                                                                                                                               | Yu Qinyu, Zhuang Tianbao(134)                            |
| Research on ubiquitous teaching in higher vocational colleges in the era of “Internet+” .....                                                                                                           | Zhang Ju(136)                                            |
| Research on the online teaching methods of e-commerce courses based on effect orientation .....                                                                                                         | Wu Qingyan(139)                                          |
| Research on intelligent subject service of university library under the background of “Double First-Class” .....                                                                                        | Chen Dongdong(141)                                       |
| Research and application of information management of teaching materials and archives in colleges and universities .....                                                                                | Sun Jialiang, Liu Hongshen, Xun Bowen, Zhang Siyuan(143) |
| Teaching model of “C Language Programming Design” based on big data technology .....                                                                                                                    | Zhang Xiu(145)                                           |
| Exploration on the teaching reform of “Communication Principle” in higher vocational colleges .....                                                                                                     | Zhu Chen(147)                                            |
| Reform of “Mobile Network Planning and Optimization” based on the analysis of evaluation results .....                                                                                                  | Wang Yang, Li Xiu, Cai Jun(149)                          |
| Practical research on professional quality in “Photoshop” course teaching .....                                                                                                                         | Zhou Jingyan(152)                                        |
| Reformation and practice of the teaching of “Robot Programming and Application” driven by emerging engineering .....                                                                                    | Zhong Xungao, Yang Guizhi, Fu Rong(154)                  |
| Research on the teaching of practical training course of “Industrial Robot Repair and Maintenance” .....                                                                                                | Yang Moyong(156)                                         |
| Teaching reform and practice of “Advanced Switching and Routing Network” course based on CDIO .....                                                                                                     | Xia Dongliang, Zhao Weiting(158)                         |
| Exploration of “C Language Programming” course teaching reform under the background of new engineering:<br>taking Xinyang Agriculture and Forestry University as an example .....                       | Luo Kuiyong, Wang Silin(161)                             |
| Online course construction and management of experimental and practical training based on the intelligent<br>vocational education platform;taking “Data Backup and Recovery course” as an example ..... | Jiang Xiaowu(163)                                        |
| Online teaching design based on smart classroom;taking “Modern Educational Technology” course for example .....                                                                                         | Gao Xue(166)                                             |
