## CONTENTS

### Road Engineering

◆ Study on Technical Management of Expressway Base Construction	YANG Yong-jie	1
◆ Anti-cracking and Waterproofing Construction Method for White+Black Pavement Polymer Stitched Coiled Materials	CHEN Shui-ping HE Cai-yun	4
◆ Application of Vertical Vibration Forming Method in Mix Ratio Design of Coarse Graded Asphalt Mixture	WANG Yan-fang	7
◆ Application Analysis of Asphalt Concrete Pavement Construction Technology	ZHANG Xue-zheng	11
◆ Reinforcement Mechanism and Effect Evaluation of Soft Foundation Compound Treatment Method in Coastal Beach Area	LI Zhi-qun	14
◆ Analysis on Differential Settlement Control Measures at the Lapping Joints of New and Old Subgrade in Expressway Expansion and Reconstruction	LI Shun-xing	19
◆ Application of Epoxy Anti-sliding Thin-layer Pavement in Guanxi Tunnel of Guangxi Liuhe Expressway	LAI Yong	22
◆ Shear Fatigue Performance Test and Construction Technology Control of Expressway SMA Asphalt Pavement	LI Chen-guang	26
◆ Discussions on Extrusion Molding Construction Technology of Small Prefabricated Components	GAO Qiang WEI Da-chuan	30
◆ Analysis on Key Technical Points for Paving Construction of Highway Asphalt Pavement	HUANG Yao-wen	34
◆ Subgrade Construction Technology and Measures in Saline-Alkali Area	LIN Hai-yan	37
◆ Analysis on Construction Technology of Roadbed Pavement and Bridge Transition Section	LU Xiao-ying	40
◆ Application Analysis of Internal Curing Technology in Cement Concrete Pavement	LU Yan-chun ZHANG Da-shuai	43
◆ Discussions on Highway Roadbed Construction Technology in Collapse and Rock-pile Section	LU Jin-long	47
◆ Discussions on Expressway Widening Construction Technology	ZHANG Du-feng	51
◆ Application Analysis of MFL Ice-melting Technology in Asphalt Pavement	XU Dong-mei	54

### Bridge and Tunnel Engineering

◆ Design and Application of Bailey Beam Steel Trestle in Mountainous Area	LI Yu-lin LIANG Qing-li	58
◆ Research on Pile Foundation Construction Strategy of Slope bridges in Mountain Area	LAN Shao-shi	61
◆ Practice of Expansion Joint Construction Technology in Road and Bridge Construction	LIANG En-quan	65
◆ Two-step Excavation Technology for IV -grade Surrounding Rock Tunnel in Horizontal Sandstone Layer	ZHENG Huan-yu	68
◆ Discussions on Bridge Tie-beam Construction by Reverse Method	LONG Hai-hui	72
◆ Study on Construction Technology and Quality Control Countermeasures of Roadbed and Bridge	ZHU Jian-fang	76
◆ Application of Slipform and Climbing Form Construction Technology in High-pier Construction of Bridge	PANG Yi	80
◆ Nonlinear Stability Analysis of Prestressed Concrete Cable-stayed Bridges	YANG Jie	84
◆ Application Study of Reinforcement Technology in Road and Bridge Construction	LI Shen-yang	87
◆ Arch Ring Construction Quality Control Analysis of Open-spandrel Stone Arch Bridge	DENG You-wen	90
◆ Study on Quality Management of Bridge Culvert Construction in Highway Engineering	HE En-quan	93
◆ Pile Foundation Construction Technology for Expressway Bridge Caves	DENG Cheng-hua	97
◆ "Zero Excavation" Hole-entering Construction Technology for Shallow-buried Unsymmetrical Loading Tunnel	ZHEGN Huan-yu	101

### Sector Management

◆ Typical Quality Problems and Countermeasures of Highway Bridge Construction Management	HUANG Chuan-zhou	104
◆ Discussion on Construction Management and Quality Control of Municipal Road Engineering	CHEN Ye	107
◆ Efficient Management Strategy of Leasing Equipment for Road and Bridge Engineering Projects	HE Xian-ming	111
◆ Discussions on Safety Management of Mechanical Equipment in Engineering Project	LU Nai-zhan	114
◆ Discussions on Contracting Management of Engineering Materials Based on Third-party Logistics Enterprises	WEI Yu-cheng	117
◆ Problems in Highway Engineering Machinery and Equipment Management and Their Improvement Measures	YIN Guo-wen	122
◆ Discussions on Subcontracting Cost Contract Management Method and Key-points of Engineering Construction Projects	HE Cai-yun CHEN Shui-ping	125
