Contents

Design of invasion tracking system in large bank management system ……GONG Shangfu, ZHANG Ke (1)
Smart card remote security certification scheme based on mutual authentication and key negotiation mechanism
……REN Xiaofang, CHEN Weidong, LI Guizhen (5)
Research on network intrusion detection technology based on data mining technology
……ZHOU Lijun, ZHANG Jie, LÜ Haiyan (10)
Research on risk web information mining technology based on improved association rules ……HUANG Hongben (14)
Overall design of smart campus supporting platform based on cloud technology……WANG Xin, JING Bo (18)
Research on key technologies for big data cloud storage system……LIU Ruobing (21)
Research on optimization technology of Hadoop cluster job scheduling algorithm
……SHAN Donghong, GUO Jingbo, ZHAO Weiting (25)
Design of authentication mechanism on dependable computing platform ……SUN Jianghui, DU cheng, MA long (30)
Application of improved quantum genetic algorithm in control of network congestion ……WANG Fei (33)
Analog software development of frequency standard unit of timing system
……YANG Chao, ZHONG Li, LIU Yunfei, ZHAO Ruiqing (37)
Implementation of network fault data fast positioning method based on fuzzy closeness algorithm ……WANG Junyu (41)
A logistics network optimization algorithm based on community similarity analysis ……YU Lei, WU Qiang (45)
Research and design of unstable data mining system in cloud server
……WANG Shuxia, HU Ruimin, LIANG Yiwen, XIONG Zenggang (49)
Research of malicious post detection system based on account credit evaluation
……YANG Xiaolan, LIU Kegang, QIAN Cheng, ZHU Fuxi (53)
Methods of unstructured big data stability retrieval in cloud computing……CHEN Zhihua, LIU Xiaoyong (58)
Design and improvement of balanced scheduling platform for big data network……JIANG Benli, ZHANG Xiaoping (62)
Design of large warehouse logistics monitoring system based on workflow ……LI Zhimin, ZHAO Yiding (66)
Design of indoor temperature intelligent wireless control based on temperature sensor and FPGA……CONG Zilin (70)
Traffic light recognition in auxiliary driving and its implementation by FPGA
……ZHAI Sheping ,LI Wei, MA Mengyu (73)
A RFID technology based visualization method of equipment location
……LIAO Xingxing, JING Gang, CHEN Xiaoguang (77)
Design of remote control system based on smart phone service menu ……CHEN Chonghui, DENG Jun (82)
Building environmental monitoring system based on WiFi
……ZHANG Xiuzai, FAN Jiangqi, CHEN Pengxin, WU Huajuan, ZHAO Yibo (86)
Mesh-based anonymous multicast security routing protocol in Ad Hoc network……CAO Hai, CHENG Xinwen (89)
Optimization design of traffic intelligent monitoring system in large-scale IOT ……LI Wenjuan, CHEN Yan (95)
Research and simulation of dynamic image tracking and optimization algorithm ……SUI Dan, HOU Deheng (98)
Design of image detection and control circuit for light-source illumination system according to illumination defect
……LI Jiaxian (101)
Three-dimensional CT image reconstruction based on accelerated splitting algorithm of ordered subsets
……CHEN Xiangqian, MA Shaohui, XU Wenbo (104)
Simulation of wedge interference based on Matlab ……REN Zhihao, MA Kun (108)

Research and analysis of image proofreading method for size rationality of high-precision miniature parts
……WEI Xing, ZHO Yulong, ZHOU You (110)
Design and implementation of real-time video teaching system based on WebRTC
……LI Xiangju, XIE Xiujuan, ZHENG Ying (114)
Design of real-time big-window median filter based on FPGA ……WU Jirui, LIU Ze (117)
Design and implementation of an embedded fingerprint identification system ……DENG Jianghong, ZHAO Ling (120)
Design of multifunctional single chip microcomputer and CPLD experimental board
……ZHU Xiangqing, ZHENG Jingyang, CHEN Wenlong, QIU Richun, LU Haopei (123)
Design and implementation of traceable real-name bills anti-counterfeiting system
……WANG Hong, KONG Jie, WANG Kuisheng, WANG Xuelong, QIANG Beibei (127)
Research on river water regimen real-time remote monitoring system based on GPRS and Internet ……JIA Jianke (132)
Design and implementation of green energy saving system for base station
……SUI Junjie, SHAO Weiheng, WU Shangquan (136)
Design of multi-function LED dot-matrix display screen based on LabVIEW and SCM …SUN Lihui, WANG Hai (140)
Design of air mouse based on interface technology of air motion and gesture control
……ZHANG Jiatian, XU Kai, YAN Zhengguo (143)
Underground personnel positioning system based on ZigBee technology ……ZHU Qinghao (147)
Design and implementation of energy consumption automatic monitoring module for large-scale power grid
……ZHANG Jianwei, HAN Lu, YANG Hao, ZHAO Yonghui (150)
Simulation analysis of electric energy loss prediction model based on big data analysis ……ZHANG Mingming (153)
Optimization design and implementation of earth fault location system for power distribution network
……GAO Haibo (157)
Design of programmable controller based on microcomputer ……WANG Qingzhen, SHAO Jie (161)
Signal detection and type recognition of transformer partial discharge
……ZHAO Jianli, LIU Haifeng, LIU Ting, YUE Guoliang, SUN Yi, FU Longming (166)
