目 次

论 著

宫腔止血囊放置时机对阴道分娩后宫缩乏力性产后出血输血治疗的影响 ..... 周 燕 顾 宁 史晓红,等(881)

沉默 KDM5A 基因对卵巢上皮癌顺铂耐药细胞 SKOV3/DDP 耐药性的影响 ..... 冯同富 刘玉兰 王 波,等(886)

子宫腺肌病 DTI 成像特征与 CA125 相关研究 ..... 杨 燕 程启超 邵铜珠,等(892)

术前血清鳞状细胞癌抗原水平对早期宫颈鳞癌淋巴结转移的预测价值 ..... 朱成功 姜继勇 张文清,等(896)

初治卵巢子宫内膜异位症恶变的危险因素研究 ..... 徐 婷 姜 旖 袁 琳,等(901)

子宫内膜吸取活检失败风险因素分析 ..... 陈守真 李卫珍 谢冰莹,等(905)

LEEP 术后孕妇胎膜早破预测模型的建立和验证 ..... 楼叶琳 胡 洋 周一波(910)

短篇论著

高强度聚焦超声消融术联合清宫术治疗不同分型剖宫产瘢痕妊娠临床疗效与安全性分析  
..... 戴 宇 彭 艳 金 平,等(914)

输卵管妊娠腹腔镜切除术后组织病理学阴性 58 例临床分析 ..... 时娟娟 崔秀娟 刘培淑(918)

孕中期血脂 LDL/HDL 及 TG/HDL 比值与妊娠期糖尿病的相关性研究 ..... 赵雅萍 凌 莉(921)

体外受精-胚胎移植早期稽留流产方式对下次冻胚移植结局的比较 ..... 高欣艳 卢少明 颜 磊(925)

|                                              |                    |
|----------------------------------------------|--------------------|
| 山东德州地区女性 HPV 感染状况分析 .....                    | 郑淑敏 李洪雷 李 营,等(928) |
| microRNA-205 靶向抑制 PHLPP2 促进子宫内膜癌细胞增殖侵袭 ..... | 马永静 马 洁(931)       |
| 综 述                                          |                    |
| ASCCP 2019 共识指南子宫颈癌前病变管理解读 .....             | 茅娅男 尤志学(936)       |
| 美国妇产科医师学会关于女性性功能障碍临床管理指南的解读 .....            | 王 玉 刘朝晖(942)       |
| 卵巢透明细胞癌研究进展 .....                            | 靳成文 苏荣家(947)       |
| 宫颈子宫内膜异位症诊治进展 .....                          | 陈思思 金海红 王慧芳(950)   |
| 胎儿肾积水的研究进展 .....                             | 于彦超 金 镇(953)       |
| 长链非编码 RNA 在卵巢癌转移中的研究进展 .....                 | 韦欣仪 程晓东 吕卫国(956)   |
| 病例报告                                         |                    |
| 胎儿脐动脉栓塞期待治疗 2 例 .....                        | 韩彩霞 董 坤 贾宗洋,等(959) |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
