## Technology and Practice

- 146 Analysis of the Safety Fault Diagnosis Technology for Chemical Machinery Equipment (WANG Ze-sheng, LIANG Gui-hong)
- 148 The Improvement of the Hook Push Wrap Bar of YB55 Transparent Paper Packing Machine (XIAO Wen-rui, ZENG Ying)
- 150 The Solidification Treatment Technology of Waste Mud of Pile Foundation in Municipal Engineering (YANG Jun)
- 152 The Role of Calculation and Analysis of Line Loss in Reducing Line Loss (FENG Cai-ying)
- 154 Research on the Application of Information Technology in College Physical Education Teaching (ZHU Yan-guang)
- 156 Exploration on the Maintenance and Construction Technology of Bridge Engineering (WEI Hao-liang)
- 158 Application of BIM in the Cantilever Pouring Construction of Prestressed Continuous Beam (FU Ting-da)
- 160 Analysis of the Prevention and Control Technology of the Vault Hollowing in High Speed Railway Tunnel (YUAN Zhong-hui, ZHOU Guang-shu)
- 162 Discussion on the Temperature Control Technology of Mass Concrete Construction of Railway Pier (LI Ze-jun)
- 164 Application of VR Technology in Accounting Practice Teaching (TANG Li-li)
- 166 Analysis of the Change of Computer Remote Network Communication Technology in Big Data Era (LIU Dong, GAO Yu)
- 168 Application Strategy of Building Electrical Technology in Intelligent Buildings (LI Yang)
- 170 Application of the Quality Inspection of Anchor Pipe and Anchor in Subway Construction (ZHANG Cong-li)
- 172 Discussion on the Application of HVAC Technology in Green Building (TIAN Rui-peng)
- 174 Research on the Design of College Freshmen Pre-Registration System Based on the WeChat Mini Program (JIANG Yi-fei)
- 176 Monitoring Methods of Aeroengine State Trend (WU Yun-feng, CHEN Jie)
- 178 Research and Application Analysis of Carbon Fiber Continuous Sucker Rod (WANG Rui-xing, LIU Bo, YU Hai-hua, LI Qiang, CHEN Yong-qiang)
- 180 The Practice of Mechanized Transformation Project of Xingpeng Coal Mine in Weiyuan County (SHI Bin, HUANG Yong-chao, WANG Cheng-zhong, TANG Ding-zhong, LV Li-you)
- 182 Application of Concentrated Energy Hydraulic Blasting Technology in Horizontal Strata Tunnel Construction (LIU Yun-long)
- 184 Research on the Demolition Process of the Enclosure Structure at the Intersection of the Main Structure and the Subsidiary Structure of the Subway Project Station (ZHOU Hu)
- 187 Optimal Design of Multi-Layer Thermal Protective Clothing (SUN Ruo-xin)
- 191 Construction Practice of Water Prevention and Control Project in Xingpeng Coal Mine of Weiyuan County (ZHANG Dong-dong, SHI Bin, KONG Fan-guo, LI Hong-hua, WANG Wen-xiang)
- 194 Mechanical Calculation Analysis of Large Cantilever Cover Beam with No-Floor Support (YOU Rong-zhuo)
