## “电信业务与运营”专题

- |                         |               |
|-------------------------|---------------|
| 1 决策树算法在客户流失建模中的应用      | 朱正键 胡芬芬 梅嘉玲   |
| 7 一种提高 LTE 基站用户资源利用率的方法 | 颜志凌 黄巧芸 王贻先   |
| 14 移动互联网应用用户体验质量评价      | 李稳            |
| 18 Diameter 信令消息模型优化    | 卜忠贵 牛芳 宋小明 何涛 |
| 25 边缘计算技术在企业专网中的应用      | 程淑荣 刘洁 林奕琳    |

## 研究与探讨

- |                                |                 |
|--------------------------------|-----------------|
| 30 一种适用于卫星光交换网络的汇聚算法           | 王雨琦 周钠 陈特 白博 辛宁 |
| 37 基于深度置信网络的网络安全态势感知与预测        | 高泽芳 胡娜          |
| 44 一种新的阵列天线波束重构算法              | 刘重军 区洋 邓单       |
| 50 气象辅助系统与静止轨道卫星移动通信系统间的兼容共用分析 | 韩朝晖 聂晶 林源       |
| 56 大气湍流中涡旋电波传输的螺旋谱特性           | 张华杰 赵恒凯         |
| 62 5G 前传传输解决方案对比及综合造价分析        | 施家骅             |

## 网规网优

- |                        |              |
|------------------------|--------------|
| 66 不同厂家的 LTE 切换算法差异性分析 | 彭恋恋          |
| 72 5G 基站架构及部署策略        | 吕婷 曹亘 张涛 李轶群 |

## 设计与实现

- |                        |    |
|------------------------|----|
| 78 电压型多相级联 BUCK 变换器的研制 | 肖化 |
|------------------------|----|

## 业务与运营

- |                              |                  |
|------------------------------|------------------|
| 84 NB-IoT 技术在消防物联网中的应用       | 储浩 王勇 王栋         |
| 91 基于集团 V 网的“短号管家”APP 的开发与应用 | 孟青 郭鹏伟 苏承启 董严 许超 |

# **MOBILE COMMUNICATIONS**

Vol.42 No.11 (Sum No.465) November 15th, 2018 Monthly Started in 1977

## **CONTENTS**

### **Telecommunication Business and Operation**

- |  |   |
|--|---|
| 1 Application of Decision Tree Algorithm in Customer Churn Modeling          | ZHU Zhengjian HU Fenfen MEI Jialing       |
| 7 A Method to Improve User Resource Utilization of LTE Base Station          | YAN Zhiling HUANG Qiaoyun WANG Yixian     |
| 14 Evaluation of User Experience Quality of Mobile Internet Application      | LI Wen                                    |
| 18 Optimization of Diameter Signaling Message Model                          | BU Zhonggui NIU Fang SONG Xiaoming HE Tao |
| 25 Application of Multi-access Edge Computing in Enterprise Private Networks | CHENG Shurong LIU Jie LIN Yilin           |
- 

### **Research and Discussion**

- |   |   |
|---|---|
| 30 Burst Assembly Algorithm for Satellite Optical Switching Networks  | WANG Yuqi ZHOU Na CHEN Te BAI Bo XIN Ning |
| 37 Network Security Situation Awareness and Prediction Based on Deep Belief Network                                       | GAO Zefang HU Na                          |
| 44 A New Array Antenna Beam Reconstruction Algorithm  | LIU Zhongjun OU Yang DENG Dan             |
| 50 Electromagnetic Compatibility Analysis between Meteorological Aid System and GEO Satellite Mobile Communication System | HAN Zhaojun NIE Jing LIN Yuan             |
| 56 Spiral Spectrum Characteristics of Vortex Waves Propagating in Atmospheric Turbulence                                  | ZHANG Huajie ZHAO Hengkai                 |
| 62 Comparison of 5G Fronthaul Transmission Solutions and Analysis of Comprehensive Cost                                   | SHI Jiahua                                |
- 

### **Network Planning and Optimization**

- |  |                                    |
|--|------------------------------------|
| 66 Analysis on the Difference of LTE Handover Algorithms for Different Manufacturers | PENG Lianlian                      |
| 72 The Architecture and Deployment Strategy of 5G Base Stations                      | LV Ting CAO Gen ZHANG Tao LI Yiqun |
- 

### **Design and Implementation**

- |   |          |
|---|----------|
| 78 Design of Voltage-mode Multiphase Cascade BUCK Converter | XIAO Hua |
|---|----------|
- 

### **Business and Operation**

- |   |   |
|---|---|
| 84 Application of NB-IoT Technology in Fire Protection Internet of Things         | CHU Hao WANG Yong WANG Dong                       |
| 91 Development and Application of "cornet assistant" APP based on Group V network | MENG Qing GUO Pengwei SU Chengqi DONG Yan XU Chao |
