

## 目次

|                                            |                                       |
|--------------------------------------------|---------------------------------------|
| 微浸水对桩基负摩阻力影响的试验初探 .....                    | 朱彦鹏, 杨奎斌, 王海明, 杨校辉 (1)                |
| 非饱和粉砂临界状态的试验研究 .....                       | 蔡国庆, ASREAZAD Saman, 刘超, 赵成刚 (8)      |
| 压实黄土平面应变方向的主应力特性 .....                     | 陈存礼, 贾亚军, 王俊甫, 赵杰, 张洋 (16)            |
| 基于不同渗透持时的非饱和黄土渗透系数预测分析 .....               | 谌文武, 刘伟, 王娟, 孙冠平, 吴玮江, 侯小强 (22)       |
| 高庙子膨润土在高温高压下的强度特性研究 .....                  | 陈皓, 吕海波, 陈正汉 (28)                     |
| 不同初始孔隙比土体进气值及土-水特征曲线预测 .....               | 陶高梁, 孔令伟 (34)                         |
| 非饱和和结构性黄土侧限压缩和湿陷试验三维离散元分析 .....            | 李涛, 蒋明镜, 张鹏 (39)                      |
| 三轴应力条件下原状黄土的吸湿渗水特性 .....                   | 张登飞, 陈存礼, 陈惠, 刘科 (45)                 |
| 净平均应力对非饱和和重塑黄土渗水系数的影响 .....                | 高登辉, 陈正汉, 邢义川, 郭楠, 邓刚, 扈胜霞 (51)       |
| 一种新型框架预应力锚托板加固技术在高填方边坡工程中的应用及数值与监测分析 ..... | 叶帅华, 房光文, 陈长流, 张文莉 (57)               |
| 非饱和和含黏砂土的弹塑性剪胀特性研究 .....                   | 朱青青, 苗强强, 陈正汉, 姚志华, 章峻豪 (65)          |
| 人工制备湿陷性黄土地基地下连续墙浸水试验研究 .....               | 张延杰, 李建东, 王旭, 李凡, 李盛, 马学宁 (73)        |
| 冲击荷载下钢管混凝土桩林动力性能试验研究 .....                 | 冉永红, 王秀丽, 王朋, 张智江 (81)                |
| 基于正交设计的红砂岩改良土抗剪强度试验和回归分析 .....             | 朱彦鹏, 马滔, 杨校辉, 杨奎斌, 王海明 (87)           |
| 三轴应力条件下原状黄土的渗气特性 .....                     | 张登飞, 陈存礼, 陈惠, 刘科 (93)                 |
| $K_0$ 预固结对非饱和和重塑黄土强度与变形特性影响的研究 .....       | 郭楠, 陈正汉, 郭剑锋, 孙树国, 扈胜霞, 王梦南 (100)     |
| 地震作用下加筋挡土墙内部稳定性分析 .....                    | 贾亮, 贺世开, 李刚, 郭健, 梁荣 (107)             |
| 接触面滑坡滑带土吸力的滤纸法测试 .....                     | 谌文武, 刘鹏, 刘伟, 林高潮, 许贺 (112)            |
| 兰永一级公路顺层滑坡抗剪强度参数确定及应用 .....                | 马金莲, 朱彦鹏, 杨晓宇, 周欣海 (118)              |
| 基于结构性黄土联合强度的邓肯-张非线性本构模型 .....              | 刘军定, 李荣建, 孙萍, 王治军, 骆建文, 李振菲 (124)     |
| 某二级高边坡健康监测试验研究与分析 .....                    | 李京榜, 朱彦鹏, 叶帅华, 马孝瑞 (129)              |
| 饱和黄土滑坡形成中的侧压力作用——以甘肃黑方台为例 .....            | 吴玮江, 宿星, 叶伟林, 魏万鸿, 杨涛, 冯乐涛 (135)      |
| 兰州地铁某车站深基坑开挖变形特性分析 .....                   | 周勇, 叶炜钠, 高升 (141)                     |
| 基于孔隙连通-迂曲参数表征土的非饱和和渗透各向异性 .....            | 张昭, 刘奉银, 齐吉琳, 柴军瑞, 王爽, 李会勇, 高永宝 (147) |
| 框架预应力锚杆加固多级高边坡地震响应数值分析 .....               | 叶帅华, 时轶磊, 龚晓南, 陈长流 (153)              |
| 湿陷性黄土砂井浸水试验的应用研究 .....                     | 王永鑫, 邵生俊, 韩常领, 李骏 (159)               |
| 干密度对黄土渗透系数的影响 .....                        | 马亚维, 谌文武, 毕骏, 郭桂红, 焦贵德 (165)          |
| 超载作用下地表沉降偏态分布模式研究 .....                    | 李元勋, 朱彦鹏, 叶帅华, 马孝瑞 (171)              |
| 兰州某地铁车站深基坑监测与数值模拟分析 .....                  | 叶帅华, 丁盛环, 龚晓南, 高升, 陈长流 (177)          |
| 延安某工地填土的渗水和持水特性研究 .....                    | 张龙, 陈正汉, 扈胜霞, 刘争宏, 于永堂, 郑建国 (183)     |
| 黄土塬地区非饱和和结构性黄土的强度特性研究 .....                | 王腾, 周茗如, 王晋伟, 陈志超 (189)               |
| 黄土填方地基中微型钢管桩承载性状试验研究 .....                 | 朱彦鹏, 王海明, 杨奎斌, 杨校辉 (198)              |
| 冠梁标高对基坑周边环境的影响分析 .....                     | 王正振, 龚维明, 戴国亮, 周勇, 徐峰 (205)           |
| 易溶盐含量对伊犁黄土持水特性的影响研究 .....                  | 王毓国, 张爱军, 赵庆玉, 于春亮 (212)              |
| 黄土丘陵沟壑区压实回填土地基沉降计算方法 .....                 | 孔洋, 阮怀宁, 黄雪峰 (218)                    |
| 平行试样土水特征曲线及其力学性质的试验研究 .....                | 杨钢, 杨庆, 李吴刚 (224)                     |
| 非饱和和膨润土失水收缩与冻结体变关系研究 .....                 | 刘振亚, 刘建坤, 李旭, 房建宏 (229)               |
| 考虑净正应力影响的膨胀土土-水特征曲线试验研究 .....              | 王晓琪, 汪时机, 程明书, 李贤, 周超云, 何丙辉 (235)     |
| 基于颗粒级配曲线预测非饱和土持水曲线的物理方法 .....              | 张昭, 刘奉银, 齐吉琳, 柴军瑞, 李会勇, 李建军 (241)     |
| 考虑接触面厚度的桩土相互作用研究 .....                     | 周勇, 朱亚薇 (247)                         |
| 广西红黏土热物理特性及影响因素试验研究 .....                  | 曾召田, 赵艳林, 吕海波, 徐云山, 李其林, 蔡於芬 (252)    |
| 黄土地区长短组合桩的承载力及变形特性试验研究 .....               | 马天忠, 朱彦鹏, 任永忠, 令永强 (259)              |
| 考虑堆载和桩载施加顺序的单桩负摩阻力模型试验研究 .....             | 马学宁, 张沛云, 王旭, 王博林 (266)               |
| 新型地锚扶壁式泥石流格栅坝基础冲刷计算方法研究 .....              | 王永胜, 张岩鉴, 朱彦鹏, 闫聪 (272)               |

## CONTENTS

|                                                                                                                                                        |                                                                                                 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Preliminary exploration of tests on effect of micro-immersion on negative skin friction of pile foundation .....                                       | ZHU Yan-peng, YANG Kui-bin, WANG Hai-ming, YANG Xiao-hui (1)                                    |
| Experimental study on critical state of unsaturated silty sand ...                                                                                     | CAI Guo-qing, ASREAZAD Saman, LIU Chao, ZHAO Cheng-gang (8)                                     |
| Characteristics of principal stress of compacted loess in plane strain direction .....                                                                 | CHEN Cun-li, JIA Ya-jun, WANG Jun-fu, ZHAO Jie, ZHANG Yang (16)                                 |
| Prediction of coefficient of permeability of unsaturated loess with different seepage durations .....                                                  | CHEN Wen-wu, LIU Wei, WANG Juan, SUN Guan-ping, WU Wei-jiang, HOU Xiao-qiang (22)               |
| Strength properties of GMZ bentonite under high temperatures and pressure .....                                                                        | CHEN Hao, LU Hai-bo, CHEN Zheng-han (28)                                                        |
| Prediction of air-entry value and soil-water characteristic curve of soils with different initial void ratios .....                                    | TAO Gao-liang, KONG Ling-wei (34)                                                               |
| DEM analyses of oedometer and wetting tests on unsaturated structured loess .....                                                                      | LI Tao, JIANG Ming-jing, ZHANG Peng (39)                                                        |
| Wetting permeability of intact loess under triaxial stress conditions .....                                                                            | ZHANG Deng-fei, CHEN Cun-li, CHEN Hui, LIU Ke (45)                                              |
| Influence of net mean stress on permeability coefficient of unsaturated remolded loess .....                                                           | GAO Deng-hui, CHEN Zheng-han, XING Yi-chuan, GUO Nan, DENG Gang, HU Sheng-xia (51)              |
| Numerical and monitoring analyses of new reinforcement technology of frame with prestressed anchor-plates in high fill slope and its application ..... | YE Shuai-hua, FANG Guang-wen, CHEN Chang-liu, ZHANG Wen-li (57)                                 |
| Elastoplastic dilatancy relations of unsaturated clayey sand .....                                                                                     | ZHU Qing-qing, MIAO Qiang-qiang, CHEN Zheng-han, YAO Zhi-hua, ZHANG Jun-hao (65)                |
| Soaking test on underground diaphragm wall in artificially prepared collapsible loess foundation .....                                                 | ZHANG Yan-jie, LI Jian-dong, WANG Xu, LI Fan, LI Sheng, MA Xue-ning (73)                        |
| Experimental study on dynamic performance of concrete filled steel tubular piles under impact loads .....                                              | RAN Yong-hong, WANG Xiu-li, WANG Peng, ZHANG Zhi-jiang (81)                                     |
| Shear strength tests and regression analysis of red sandstone-improved soils based on orthogonal design .....                                          | ZHU Yan-peng, MA Tao, YANG Xiao-hui, YANG Kui-bin, WANG Hai-ming (87)                           |
| Gas permeability of intact loess under triaxial stress conditions .....                                                                                | ZHANG Deng-fei, CHEN Cun-li, CHEN Hui, LIU Ke (93)                                              |
| Deformation and strength properties of unsaturated remolded loess under $K_0$ pre-consolidation condition .....                                        | GUO Nan, CHEN Zheng-han, GUO Jian-feng, SUN Shu-guo, HU Sheng-xia, WANG Meng-nan (100)          |
| Internal stability of reinforced retaining wall under earthquake loads ...                                                                             | JIA Liang, HE Shi-kai, LI Gang, GUO Jian, LIANG Rong (107)                                      |
| Suction tests on sliding soil in interface landslide based on filter paper method .....                                                                | CHEN Wen-wu, LIU Peng, LIU Wei, LIN Gao-chao, XU He (112)                                       |
| Determination and application of shear strength parameters of bedding landslide of Lanzou-Yongjing Highway .....                                       | MA Jin-lian, ZHU Yan-peng, YANG Xiao-yu, ZHOU Xin-hai (118)                                     |
| Duncan-Chang nonlinear constitutive model based on joint strength theory of structural loess .....                                                     | LIU Jun-ding, LI Rong-jian, SUN Ping, WANG Zhi-jun, LUO Jian-wen, LI Zhen-fei (124)             |
| Health monitoring tests on a secondary high slope .....                                                                                                | LI Jing-bang, ZHU Yan-peng, YE Shuai-hua, MA Xiao-rui (129)                                     |
| Lateral pressure in formation of saturated loess landslide—Case study of Heifangtai, Gansu Province .....                                              | WU Wei-jiang, SU Xing, YE Wei-lin, WEI Wan-hong, YANG Tao, FENG Le-tao (135)                    |
| Deformation characteristics of excavation of deep foundation pit at a metro station in Lanzhou .....                                                   | ZHOU Yong, YE Wei-na, GAO Sheng (141)                                                           |
| Representation of anisotropy in unsaturated permeabilities for soils based on pore connectivity-tortuosity parameter .....                             | ZHANG Zhao, LIU Feng-yin, QI Ji-lin, CHAI Jun-rui, WANG Shuang, LI Hui-yang, GAO Yong-bao (147) |
| Numerical analysis of earthquake response of multistage high slopes reinforced by frame structure with pre-stressed anchors .....                      | YE Shuai-hua, SHI Yi-lei, GONG Xiao-nan, CHEN Chang-liu (153)                                   |
| Application of sand drain immersion tests on collapsible loess .....                                                                                   | WANG Yong-xin, SHAO Sheng-jun, HAN Chang-ling, LI Jun (159)                                     |
| Influence of dry density on coefficient of permeability of unsaturated loess .....                                                                     | MA Ya-wei, CHEN Wen-wu, BI Jun, GUO Gui-hong, JIAO Gui-de (165)                                 |
| Skewness distribution patterns of surface settlement considering overload effect .....                                                                 | LI Yuan-xun, ZHU Yan-peng, YE Shuai-hua, MA Xiao-rui (171)                                      |
| Monitoring and numerical simulation of deep foundation pit of a subway station in Lanzhou .....                                                        | YE Shuai-hua, DING Sheng-huan, GONG Xiao-nan, GAO Sheng, CHEN Chang-liu (177)                   |
| Seepage and water retention characteristics of fill in a construction site in Yan'an .....                                                             | ZHANG Long, CHEN Zheng-han, HU Sheng-xia, LIU Zheng-hong, YU Yong-tong, ZHENG Jian-guo (183)    |
| Experimental study on strength properties of unsaturated intact loess in loess tableland regions .....                                                 | WANG Teng, ZHOU Ming-ru, WANG Jin-wei, CHEN Zhi-chao (189)                                      |
| Experimental study on bearing characteristics of micro steel tube piles in loess fill foundation .....                                                 | ZHU Yan-peng, WANG Hai-ming, YANG Kui-bin, YANG Xiao-hui (198)                                  |
| Influence analysis of top beam elevation on surroundings around deep pits .....                                                                        | WANG Zheng-zhen, GONG Wei-ming, DAI Guo-liang, ZHOU Yong, XU Feng (205)                         |
| Effect of soluble salt content on water-holding characteristics of li loess .....                                                                      | WANG Yu-guo, ZHANG Ai-jun, ZHAO Qing-yu, YU Chun-liang (212)                                    |
| Method for calculating foundation settlement of compacted backfill in hilly and gully regions of loess .....                                           | KONG Yang, RUAN Huai-ning, HUANG Xue-feng (218)                                                 |
| Experimental research on soil water characteristic curve of parallel specimens and its influence on mechanical behavior .....                          | YANG Gang, YANG Qing, LI Wu-gang (224)                                                          |
| Experimental study on air-dried shrinkage and frozen deformation characteristics of unsaturated bentonite .....                                        | LIU Zhen-ya, LIU Jian-kun, LI Xu, FANG Jian-hong (229)                                          |
| Experimental study on soil-water characteristic curve of expensive soil considering net normal stress .....                                            | WANG Xiao-qi, WANG Shi-ji, CHENG Ming-shu, LI Xian, ZHOU Chao-yun, HE Bing-hui (235)            |
| Physical approach to predict water retention curves for unsaturated soils based on particle-size distribution .....                                    | ZHANG Zhao, LIU Feng-yin, QI Ji-lin, CHAI Jun-rui, LI Hui-yong, LI Jian-jun (241)               |
| Pile-soil interaction considering thickness of contact surface .....                                                                                   | ZHOU Yong, ZHU Ya-wei (247)                                                                     |
| Experimental study on thermal properties of red clay in Guangxi province and its influence factors .....                                               | ZENG Zhao-tian, ZHAO Yan-lin, LU Hai-bo, XU Yun-shan, LI Qi-lin, CAI Yu-fen (252)               |
| Bearing capacity and displacement characteristics of long-short composite piles in loess areas .....                                                   | MA Tian-zhong, ZHU Yan-peng, REN Yong-zhong, LING Yong-qiang (259)                              |
| Model tests on negative skin friction of single pile considering applying sequence of pile load and surcharge loading .....                            | MA Xue-ning, ZHANG Pei-yun, WANG Xu, WANG Bo-lin (266)                                          |
| Calculation of foundation scour for new debris flow grille dam with ground anchor and counterfort .....                                                | WANG Yong-sheng, ZHANG Yan-jian, ZHU Yan-peng, YAN Cong (272)                                   |
