## 目 次

### · 研究论文 ·

靶向 PD-1 和 VEGFR 双抗在制剂初筛后的可开发性评估

..... 陈树贤,陈卫东,林 军,韩 君,罗 顺(1)

急性白血病患者 NF- $\kappa$ B1 基因单核苷酸多态性与异基因造血干细胞移植后急性肾损伤的

相关性分析 ..... 闫 薛,缪扣荣(7)

基于网络药理学和分子对接研究昆明山海棠治疗糖尿病肾病的作用机制

..... 郑 威,商海涛,庞欣欣,彭紫凝,王学艺,肖明芝,陈双琴(12)

柚皮素对肺炎链球菌诱导的肺泡上皮细胞凋亡及 MAPK/NF- $\kappa$ B 信号通路的影响

..... 陈运庭,王睿雯,麦明志,杨国通(19)

长效重组人凝血因子 VIII 细胞培养条件的优化 ..... 向雨秘,费保进,聂艳桃,胡珍霞,侯仰帅,梁 洪(25)

人促红素注射液生物学活性体外法的 ELISA 验证 ..... 陈 宁,袁利佳,吴 珊,谢天柱,

高嘉悦,王进美,陈润桦,孙 晓,张 真,李俊鹏,秦美蓉,王晓炜,王 平(32)

他克莫司软膏体外释放效率检测方法的研究 ..... 王 娟,陈宇翔,陈 群,江宁宇,陈韩彬,魏宗有(38)

六氟异丙醇在难溶性多肽圆二色谱检测中的应用 ..... 谢 锦,费 欢,张晓烟,邱 郑(42)

血栓弹力图指导个体化抗血小板治疗缺血性脑卒中的临床研究 ..... 刘 葛(45)

内消瘰疬片联合利福平粉针剂治疗肺结核合并颈淋巴结结核的临床观察 ..... 张 丹(49)

终末期维持性血液透析患者临床指标变化情况及其临床意义 ..... 潘红玲(55)

右美托咪定复合舒芬太尼对全子宫切除术后患者血流动力学、认知障碍的影响

..... 梁伟华,蒋 森(60)

脉络舒通丸治疗膝关节骨性关节炎对患者疼痛的改善效果分析

..... 张明东,林立朋,李广涛,王 飞(65)

### · 生物药物质量控制 ·

合成多肽药物质量控制研究探讨 ..... 戴 佳,赵巧君,童 玥(69)

病毒性疫苗生产过程的质量风险分析 ..... 赵嵩月,欧阳楠,韩宏昇(77)

### · 综 述 ·

慢性乙型肝炎治疗性核酸和病毒载体疫苗的研究进展 ..... 陈孟璋,林汉森(83)

间充质干细胞对 CD4<sup>+</sup>T 细胞亚群的作用研究进展

..... 张开元,杜岳城,薛蕙若,王迪,柴修奇,李 谦(90)

雌激素受体突变型乳腺癌的耐药机制及其治疗策略 ..... 吕 杨,肖易倍(97)

IgG4 抗体药物研究进展 ..... 王力景,邢莹莹(106)

## CONTENTS IN BRIEF

|                                                                                                                                                                                                               |                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Developability Assessment of Bispecific Antibody Targeting PD-1 and VEGFR after Preliminary Formulation Screening .....                                                                                       | CHEN Shu-xian, CHEN Wei-dong, LIN Jun, HAN Jun, LUO Shun (1)                                                                                                           |
| The Association of Single Nucleotide Polymorphisms in NF- $\kappa$ B1 Gene with the Risk of Acute Kidney Injury in Acute Leukemia Patients Receiving Allogeneic Hematopoietic Stem Cell Transplantation ..... | YAN Xue, MIAO Kou-rong (7)                                                                                                                                             |
| Study of the Mechanism of Action of Treating Diabetic Kidney Disease with Tripterygium Hypoglaucom Based on Network Pharmacology and Molecular Docking Technology .....                                       | ZHENG Wei, SHANG Hai-tao, PANG Xin-xin, PENG Zi-ning, WANG Xue-yi, XIAO Ming-zhi, CHEN Shuang-qin (12)                                                                 |
| Effects of Naringenin on Alveolar Epithelial Cell Apoptosis and MAPK/NF- $\kappa$ B Signaling Pathway Induced by <i>Streptococcus Pneumoniae</i> .....                                                        | CHEN Yun-ting, WANG Rui-wen, MAI Ming-zhi, YANG Guo-tong (19)                                                                                                          |
| Optimization of Cell Culture Conditions of Long-acting Recombinant Human Coagulation Factor VIII .....                                                                                                        | XIANG Yu-mi, FEI Bao-jin, NIE Yan-tao, HU Zhen-xia, HOU Yang-shuai, LIANG Hong (25)                                                                                    |
| ELISA Validation of <i>in vitro</i> Biological Activity of Human Erythropoietin Injection .....                                                                                                               | CHEN Ning, YUAN Li-jia, WU Shan, XIE Tian-zhu, GAO Jia-yue, WANG Jin-mei, CHEN Run-hua, SUN Xiao, ZHANG Zhen, LI Jun-peng, QIN Mei-rong, WANG Xiao-wei, WANG Ping (32) |
| Studies on the <i>in vitro</i> Release Efficiency of Tacrolimus Ointment .....                                                                                                                                | WANG Juan, CHEN Yu-xiang, CHEN Qun, JIANG Ning-yu, CHEN Wei-bin, WEI Zong-you (38)                                                                                     |
| Hexafluoroisopropanol as a Good Solvent for Hydrophobic Peptides in Circular Dichroism Measurement .....                                                                                                      | XIE Jin, FEI Huan, ZHANG Xiao-xian, QIU Zheng (42)                                                                                                                     |
| Clinical Study of Individualized Antiplatelet Therapy for Ischemic Stroke Guided by Thromboelastography .....                                                                                                 | LIU Ge (45)                                                                                                                                                            |
| Clinical Observation of Neixiao Luoli Tablets Combined with Rifampicin Powder Injection in the Treatment of Pulmonary Tuberculosis Complicated with Tuberculosis of Cervical Lymph Nodes .....                | ZHANG Dan (49)                                                                                                                                                         |
| Changes in Clinical Parameters of End-stage Maintenance Hemodialysis Patients and their Clinical Implications .....                                                                                           | PAN Hong-ling (55)                                                                                                                                                     |
| Effect of Dexmedetomidine Combined with Sufentanil on Hemodynamics and Cognitive Impairment in Patients after Total Hysterectomy .....                                                                        | LIANG Wei-hua, JIANG Miao (60)                                                                                                                                         |
| Analysis of the Effect of Mailuoshutong Pill on Improving the Pain of Patients with Knee Osteoarthritis .....                                                                                                 | ZHANG Ming-dong, LIN Li-peng, LI Guang-tao, WANG Fei (65)                                                                                                              |
| Discussion on Quality Control of Synthetic Peptide .....                                                                                                                                                      | DAI Jia, ZHAO Qiao-jun, TONG Yue (69)                                                                                                                                  |
| Quality Risk Analysis about the Production Process of Viral Vaccine .....                                                                                                                                     | ZHAO Song-yue, OUYANG Nan, HAN Hong-sheng (77)                                                                                                                         |
| Research Progress of Therapeutic Nucleic Acid and Viral Vector Vaccines against Chronic Hepatitis B .....                                                                                                     | CHEN Meng-zhang, LIN Han-sen (83)                                                                                                                                      |
| Effects of Mesenchymal Stem Cells on CD4 <sup>+</sup> T Cell .....                                                                                                                                            | ZHANG Kai-yuan, DU Yue-cheng, XUE Hui-ruo, WANG Di, CHAI Xiu-qi, LI Qian (90)                                                                                          |
| Resistance Mechanisms and Treatment Strategies of <i>ESR1</i> Mutant Breast Cancer .....                                                                                                                      | LÜ Yang, XIAO Yi-bei (97)                                                                                                                                              |
| Research Progress of IgG4 and IgG4 Fusion Protein .....                                                                                                                                                       | WANG Li-jing, XING Ying-ying (106)                                                                                                                                     |
