 **Springer**

CONTENTS

Commenced in May 1980 Vol. 37 No. 12 Dec. 2016 (Monthly)

Heat transfer characteristics of thin power-law liquid films over horizontal stretching
sheet with internal heating and variable thermal coefficient.....(1587)
Yanhai LIN, Liancun ZHENG, Lianxi MA

Exact solution for capillary interactions between two particles with
fixed liquid volume (1597)
Fengxi ZHOU, Qiang MA

Effect of surface tension and viscosity on bubble growth of single mode
Rayleigh-Taylor instability (1607)
Mingjun LI, Qiaofeng ZHU, Guibo LI

Interpretation of gas-film cooling against aero-thermal heating for
high-speed vehicles (1615)
Ming DONG

Numerical simulation of magnetic drug targeting with Eulerian-Lagrangian
model and effect of viscosity modification due to diabetics.....(1631)
M. M. LARIMI, A. RAMIAR, A. A. RANJBAR

Dynamic stability of axially accelerating viscoelastic plates with
longitudinally varying tensions.....(1647)
Youqi TANG, Dengbo ZHANG, Mohan RUI, Xin WANG, Dicheng ZHU

Frame-invariance in finite element formulations of geometrically exact rods..... (1669)
Peinan ZHONG, Guojun HUANG, Guowei YANG

Closed form solution of stress intensity factors for cracks emanating from surface
semi-spherical cavity in finite body with energy release rate method.....(1689)
Hualiang WAN, Qizhi WANG, Xing ZHANG

Strong-form framework for solving boundary value problems
with geometric nonlinearity (1707)
J. P. YANG, W. T. SU

Synchronization of two coupled pendula in absence of escapement (1721)
F. TALAMUCCI

ISSN 0253-4827
CN 31-1650/O1

ISSN 0253-4827

9 770253 482168 12>
