CONTENTS

Commenced in May 1980

Vol. 38 No. 1 Jan. 2017 (Monthly)

Primary resonance of traveling viscoelastic beam under internal resonance	(1)
Hu DING, Linglu HUANG, Xiaoye MAO, Liqun CHEN	
Determination of elastic moduli of composite medium containing bimaterial matrix and non-uniform inclusion concentrations	(15)
Weitao SUN	
Electric admittance analysis of quartz crystal resonator in thickness-shear mode induced by array of surface viscoelastic micro-beams	(29)
Jiemin XIE, Yuantai HU	
Quantum enigma hidden in continuum mechanics	(39)
Heng XIAO	
Matrix description of differential relations of moment functions in structural reliability sensitivity analysis.....	(57)
Tianxiao ZHANG	
Mechanical and thermal postbuckling of FGM thick circular cylindrical shells reinforced by FGM stiffener system using higher-order shear deformation theory	(73)
D. V. DUNG, H. T. THIEM	
Peridynamic modelling of impact damage in three-point bending beam with offset notch	(99)
Ning LIU, Dahsin LIU, Wu ZHOU	
Research of influence of reduced-order boundary on accuracy and solution of interior points.....	(111)
Yunlong LI, Wei CAO	
Heat transfer of nanofluids considering nanoparticle migration and second-order slip velocity	(125)
Jing ZHU, Shengnan WANG, Liancun ZHENG, Xinxin ZHANG	
Interaction between compressibility and particulate suspension on peristaltically driven flow in planar channel	(137)
I. M. ELDESOKY, S. I. ABDELSALAM, R. M. ABUMANDOUR, M. H. KAMEL, K. VAFAI	

ISSN 0253-4827
