CONTENTS

Commenced in May 1980

Vol. 40 No. 9 Sept. 2019 (Monthly)

A review on the flow instability of nanofluids.....	(1227)
Jianzhong LIN, Hailin YANG	
Effects of nozzle and fluid properties on the drop formation dynamics in a drop-on-demand inkjet printing	(1239)
A. B. AQEEL, M. MOHASAN, Pengyu LV, Yantao YANG, Huiling DUAN	
Slip flow of Maxwell viscoelasticity-based micropolar nanoparticles with porous medium: a numerical study	(1255)
H. WAQAS, M. IMRAN, S. U. KHAN, S. A. SHEHZAD, M. A. MERAJ	
MHD graphene-polydimethylsiloxane Maxwell nanofluid flow in a squeezing channel with thermal radiation effects	(1269)
G. C. SHIT, S. MUKHERJEE	
Heat transfer and entropy generation analysis of non-Newtonian fluid flow through vertical microchannel with convective boundary condition	(1285)
M. MADHU, N. S. SHASHIKUMAR, B. MAHANTHESH, B. J. GIREESHA, N. KISHAN	
The influence of temperature on flow-induced forces on quartz-crystal-microbalance sensors in a Chinese liquor identification electronic-nose: three-dimensional computational fluid dynamics simulation and analysis	(1301)
Qiang LI, Yu GU, Huatao WANG	
A nonlinear model for aerodynamic configuration of wake behind horizontal-axis wind turbine	(1313)
Deshun LI, Tao GUO, Rennian LI, Congxin YANG, Zhaoxue CHENG, Ye LI, Wenrui HU	
Three-dimensional electric potential induced by a point singularity in a multilayered dielectric medium.....	(1327)
Xu WANG, P. SCHIAVONE	
Compensation of stress intensity factors in hollow cylinders containing several cracks under torsion by electro-elastic coating	(1335)
M. KARIMI, A. GHASSEMI, A. ATRIAN, M. VAHABI	
The effect of the beam shapes on the doubly-clamped piezoelectric energy harvester	(1361)
Lei JIN, Shiqiao GAO, Xiyang ZHANG	

ISSN 0253-4827
CN 31-1650/O1

ISSN 0253-4827

9 770253 482199
